#### INTRODUCTION.

The Year-Book for 1902 consists of two parts, 1st, the 'Record,' and 2nd, the 'Abstract.'

Every effort has been made to secure accuracy and to introduce new features as the development of the country supplies additional material.

The estimate of the population in the middle of each year is based upon the assumption that the rate of increase which prevailed in the intercensal period immediately preceding has since been maintained. Since the census of 1901 afforded the needed data to make corrections, the estimates of the Decade 1891-1901 have been revised, just as the estimates for the several years of the decennial period 1881-1891 were revised after the taking of the Census of 1891. The per capita calculations have been revised in accordance with the usual custom.

The Chapter on Minerals has been inserted after Post Office Statistics, instead of in its proper place, delay in receiving the statistics making the change unavoidable.

Owing to the early publication of the Blue Books of the several Departments of the Federal Government and the kindly co-operation of the Provincial Governments, the Year-Book for 1902 is published about the same date as last year's issue, which was two months in advance of previous issues.

I have pleasure in recording the good work done by Messrs. J. Wilkins and J. Skead in connection with the compilation.

GEORGE JOHNSON, F.S.S. (hon.),

Statistician.

Department of Agriculture, Statistics Division, April, 1903.

## RECORD.

The earliest official records show that John and Sebastian Cabot, sailing under commission from King Henry VII. of England, landed in 1497 on that part of the present Dominion of Canada known as Cape Breton in Nova Scotia.

Gaspar Cortereal discovered and named the Labrador coast in 1500.

Jacques Cartier, of St. Malo, France, acting under the authority and patronage of Francis I. of France, discovered, in 1534, those portions of the Dominion of Canada now called New Brunswick, Prince Edward Island, and Quebec, and on his return to France presented the King with the first official record there is of the existence of these regions.

Captain Cook in 1778 gave the first authentic record of the discovery of Vancouver Island and the Pacific Ocean coast of the present Dominion.

Frobisher, Hudson, Parry, Franklin, Richardson, Back, Mackenzie, Simpson, Vancouver and others, between 1576 and 1847 explored and named the north and north-west coasts of the Dominion.

Colonization was practically begun in 1605-8. In 1605 Baron de Poutrincourt established Port Royal (now Annapolis Royal, in Nova Scotia), the first actual settlement by Europeans. In 1608 Champlain founded Quebec.

The name Canada first appears in the 'Bref récit de la navigation faite

en 1536-7, par Capt. Jacques Cartier.'

By discovery, by occupation and by the Treaties of Utrecht (1713), of Paris (1763), and of Versailles (1783), all the country comprised in the Dominion of Canada became part of the British Empire.

The Dominion of Canada is about 3,500 miles from east to west and

1,400 miles from north to south.

It comprises the whole of the northern half of North America with the exceptions, on the west, of Alaska, on the north, of Greenland, and on the east, of the Labrador coast line, which latter is under the jurisdiction of Newfoundland, this colony not yet having entered the Canadian confederation.

Canada is bounded on the north by the Beaufort Sea and the Arctic Ocean; on the west by Alaska and the Pacific Ocean; on the east by Davis Straits, Labrador Coast and the Gulf of St. Lawrence; and on the south by the Atlantic Ocean and the United States of America. The latter boundary (starting from the Atlantic seaboard) commences at the mouth of the St. Croix River, which empties into the Bay of Fundy, then follows this river and Lake Chiputnecook and passes due north until it strikes the St. John River; thence by that river and one of its western branches it reaches the watershed between the St. Lawrence River and the Atlantic, which it follows by a tortuous south-westerly course to the 45th parallel of north latitude in longitude 71° 31" west; then by that parallel it passes westward to the St. Lawrence River and along midchannel of that river and of Lakes Ontario, Erie, Huron and the main

portion of Lake Superior to the mouth of Pigeon River; thence by it and Rainy River it gains the north-west angle of Lake of the Woods; thence it follows the 49th parallel to the Gulf of Georgia and thence passes by the Haro Straits and the Straits of Fuca to the Pacific Ocean. The length of this frontier line is 3,000 geographical miles, 1,400 miles being a water line by rivers, lakes and seas, and 1,600 miles being a land boundary.

In addition to this boundary line between Canada and the United States there is a boundary line between Canada and Alaska (belonging to the United States by purchase from Russia in 1867). This line is in part a subject of treaty between Great Britain and the United States, ratified by

the Senate of the latter country in February, 1903.

The following table gives the names and the areas of the several provinces and territories of the Dominion, together with the dates of their creation or admission into the confederation.

THE DOMINION OF CANADA.

Provinces and Districts.	Date of Organization or Admission.	Statute or Order in Council.	AREA, SQUARE MILES. Water, Land, Total		
Original Confederation— Ontario Quebec Nova Scotia New Brunswick	July 1, 1867 1, 1867 1, 1867	Act Imperial Parliament and Imperial Order in Council.		220,508 †341,756 21,068 27,911	†351,873 21,428
Provinces admitted— Manitoba	15, 1870	Imperial Order in Council; Act Federal Parliament, chap. 3; Acts of 1870 and B. N. A. Act, 1871.	9,405	64,327	73,732
British Columbia	11 <b>2</b> 0, 1871	Imperial Order in Council, 16th May, 1871, on address of the Legislature of British Columbia and address of Federal Parliament, ses-	‡2,439	370,191	372,630
Prince Edward Island.	1, 1873	sion 1871. Act Federal Parliament, 23rd May, 1873, and Imperial Order in Council, 24th June, 1873.	+_	2,184	2,184
Districts created— Keewatin	Apr. 12, 1876	Act Federal Parliament, chap. 21, 1876.	13,419	456,997	470,416

<sup>\*</sup>This area does not include the portions of the Great Lakes of the St. Lawrence within the territorial limits of Canada. It includes the area added to the Province by Act of the Imperial Parliament, 1889.

This area does not include the territorial seas.

MIN'T By Order in Council of 8th July, 1896, the boundaries of Quebec were extended, the increased area being given in the table. Parliament authorized the extension by Chap. 3, Acts of 18:8 and Quebec accepted by Chap. 6 Acts of Quebec 1898. The water area given does not include the Gulf of St. Lawrence nor the territorial seas.

#### THE DOMINION OF CANADA-Concluded.

	Provinces and Districts.	Date of Organization	Statute or Order in Council.	AREA, SQUARE MILES.		
		or Admission.		Water.	Land.	Total.
D	istricts created—Con. Assiniboia Saskatchewan Alberta Athabaska Yukon Mackenzie Ungava Franklin	June 13,1898 Oct. 2, 1895	by Fed. Parliament, May 17, 1882, and Order in Council, 2nd October, 1895. Act of Federal Parliament. Order in Council, Privy Council of Canada.	, ,,,,	103,846 101,521 243,160 196,327 532,634	88,879 107,618 101,883 251,965 196,976 562,182 354,961 500,000
	Totals			125,755	3,619,819	3,745,574

\*By Order in Council, 18th Dec., 1897, the boundaries of Ungava, Keewatin, Franklin, Mackenzie and Yukon were changed. Yukon was made a separate territory by Chap. 6, Acts of Canadian Parliament, 1898.

The Province of Newfoundland and the Labrador Coast are not included in the above statement. The area of the Labrador Coast is about 7,000 square miles, and that of New-

foundland 42,734 square miles.

Following are dates and events connected with the discovery and history of Canada:-

1497. June 24. Cabot discovered the Eastern Coast of North America.

1498. Sebastian Cabot discovered Hudson Strait.

1500. Gaspar Cortereal entered the Gulf of St. Lawrence.

1518. Baron de Lery visited Sable Island.

1524. Verrazano explored the Atlantic Coast of Nova Scotia. 1534. June 21. Landing of Jacques Cartier at Esquimaux Bay. First landing on Canadian soil.

1535. July. Second visit of Cartier. August 10. Cartier anchored in a small bay at the mouth of St. John River, which in honour of the day he named after St. Lawrence. The name was afterwards extended to the Gulf and River. Sept. 14. Cartier landed at Stadacona (Quebec). Oct. 2. Cartier visited Hochelaga (Montreal).

1540. Third visit of Cartier.

1541. Cartier's men sowed turnip seed near Cape Diamond.

1542-3. The Sieur de Roberval and his party wintered at Cap Rouge, near Quebec. The name 'Nova Gallia' appeared on Ulpius's globe.
1557. Sept. 1. Death of Jacques Cartier.
1558. Diego Homem's map showed the Bay of Fundy for the first time.

1576-7-8. Martin Frobisher made voyages of discovery to Arctic Canada.

1579. Sir Francis Drake took possession of the Pacific Coast and named the country New Albion.

1585. John Davis discovered Davis' Straits.

1586. Davis made his second voyage to Arctic Canada. 1587. Davis made his third voyage to Arctic Canada.

1592. Juan de Fuca discovered the Straits of Juan de Fuca.

1598. The Marquis de la Roche landed 60 convicts on Sable Island, where they were left for five years without relief, only twelve being found alive at the end of that time. First attempt to colonize Acadie. First trading company formed to do business in Canada—Dupont-Gravé & Chauvin of Harfleur.

1603. Champlain sails for this country under Pont-gravé & Prevert, and arrives at Quebec 23rd June.

1604. De Monts and Champlain on the coast of Nova Scotia, first officially mentioned as Acadie in the commission given by Henry IV. of France to the Sieur de Monts

1605. Founding of Port Royal, (Annapolis) Acadie (derived from an Indian word "Cadie," a place of abundance), by the Baron de Poutrincourt.

1608. Second visit of Champlain. Founding of Quebec, the first permanent settlement of New France. The name is an Indian one, "Kebec," a strait. Twentyeight settlers wintered there, including Champlain. Acadie transferred to Virginia.

1609. Champlain provided a garden at Quebec in which he cultivated maize, wheat, rye and barley, with vegetables of all kinds. He had a small vineyard of native grapes. Champlain defeated the Iroquois near Crown Point and discovered.

Lake Champlain.

1610. Henry Hudson wintered in James Bay, having spent three months in exploring

Hudson Bay. Poutrincourt in Acadia.

1611. Jesuits arrived in Port Royal, Acadie.\* Brulé ascended the Ottawa River, the first European to do so, also the first white man to land on the shores of Lake Nipissing and to discover Lakes Huron and Ontario.

1612. Lescarbot's Nouvelle France published. 1613. St. John's, Newfoundland, founded.

Ottawa River ascended by Champlain.

Argall, of Virginia, destroyed Port Royal, Acadie.

1615. Lakes Huron, Ontario and Nipissing examined by Champlain. (Champlain sailed up the Ottawa River, crossed Lake Nipissing and descended French River into Georgian Bay thence to Lakes Simcoe and Ontario, returning to Quebec by the way he came.) Récollet missions began. Four of the Grey Friars landed at Quebec in May.

1616. William Baffin explored Baffin Bay. First schools in Canada begun: one at Three Rivers, and the second at Tadousac. In both cases the teachers were Récollet

Fathers. Champlain attacks the Onondagas.

1617. Canada invaded by the Iroquois. Louis Hebert, the first farmer, arrived in Quebec. First marriage in New France.

1620. Population of Quebec, 60 persons.

1621. First register of births, deaths and marriages, opened in Quebec. First mention of the name "Nova Scotia" in a grant of the province (including what is now Nova Scotia, New Brunswick, Prince Edward Island and part of the State of Maine) to Sir W. Alexander by James I. First code of laws promulgated at Quebec. William de Çaen in Canada.

1623. Nova Scotia first settled by the English. Gabriel Sagard, first historian of Canada

visited the country.

1624. May 6. Champlain laid the first stone of the Chateau de St. Louis. 1625. Jesuits first arrived in New France. Order of Baronets of Nova Scotia created.

1626. Brébœuf founded a mission near Lake Huron.

1627. Canada, including Acadie, granted to the Company of "100 Associates" by the King of France. Feudal system established in New France.

1628. Port Royal (Acadie) taken by Sir David Kirke. Quebec summoned to surrender to

the English. First arrival of Scotch settlers.

1629. July. Capture of Quebec by the English under Sir David Kirke. 117 persons wintered there. Treaty of Susa between Great Britain and France.

1630. Charles La Tour defeated his father at Fort St. Louis, Acadie.

1631. Luke Fox made a voyage to Hudson Bay. Capt. Thomas James also made a voyage thither and wintered in 1631-2 at Charlton Island, James Bay.
 1632. Canada, Cape Breton and Acadie restored to France by the Treaty of St. Germain-

en-Laye. Champlain appointed the first Governor of Canada after the restoration. First school opened in Quebec. Champlain published his consolidated narratives, and in his map the falls of Niagara are first noted. Jesuits' Relations begun, extending to 1679.

1634. July 4. Town of Three Rivers founded by M. de la Violette. First seigniory granted to Sieur Robert Giffard. Jean Nicolet's exploration through the great

lakes of the St. Lawrence.

1635. Marquis de Gamache founded Jesuits' College in Quebec. Lake Michigan discov-

ered by Nicolet. December 25; death of Champlain at Quebec. 1636. July 29. Concession of the Isle of Montreal to M. de Lauzon.

1637. De Sillery founded school and home for Indians near Quebec. July 10. First Notarial Act done in Quebec by M. Andouart, notary.

<sup>\*</sup>Père Pierre Biard was the first Jesuit who set foot on the soil of Canada. He arrived at Port Royal (Annapolis, N.S.), in company with Père Masse, on 22nd May, 1611. He inaugurated the Relations of the Jesuits.

1638. First earthquake on record in Canada.

1639. Ursuline Convent founded at Quebec. Hotel Dieu founded in Quebec by Duchesse D'Aiguillon.

1640. Lake Erie discovered by the Jesuits, Chaumonot and Brébœuf.

1641. Péres Raymbault and Jogues reached Lake Superior. 1642. May 18. Ville Marie (Montreal) founded by Maisonneuve. Fort Richelieu (now Sorel) founded by Montmagny.

1642-1667. Frequent and serious wars between the French and the Iroquois Indians. 1644. Hotel Dieu, Montreal, founded by Mademoiselle Mance. 1645. Montmagny made peace with the Iroquois at Three Rivers, July 14. Fort La Tour taken by Charnisay.

1646. Exploration of the Saguenay River by the Jesuit Dablon.
1647. Lake St. John discovered by the Jesuit Père de Quen.
Governor and Council appointed to direct public affairs in New France. First white man went down the St. Lawrence River through the 1,000 Islands.

1648. The Jesuit Ragueneau gave the first recorded description of Niagara Falls.

1654. Acadie taken by the English.
1655. Treaty of Westminster, restoring Canada and Acadie to the French.

1657. Acadie transferred to Sir Wm. Temple. Canada made a Vicariate Apostolic. Sulpicians arrived. 1659. M. de Laval, first Roman Catholic Bishop of Canada, arrived from France.

1660. Dollard des Ormeaux killed.

1663. Company of '100 Associates' dissolved. Royal Government established. Courts of Law. Great earthquake in the lower St. Lawrence region. Aug. 18. The Island of Montreal became the property of the Sulpicians.

1664. April 8. Formation of the Company of the West Indies.

1665. Carignan Regiment arrived in New France. Pere Allouez established a mission at

La Pointe, on the shores of Lake Superior.

1666. La Salle obtained grant of land on Lake St. Louis, and established Lachine.

1667. Acadie restored to France by Treaty of Breda. White population of New France, 3,918.

1668. Talon constructed two sea-going vessels and established trade between Quebec, the Antilles and France. First library formed in Quebec. April 14. Decree permitted the establishment of a brewery. Pere Marquette founded a mission at Sault Ste. Marie. Quebec Seminary founded by Bishop Laval.

1670. May 13 (n.s.). Hudson's Bay Company founded.

1671. Sieur St. Lusson took formal possession of the Sault Ste. Marie and the adjacent country in the name of Louis XIV.

1672. Count de Frontenac appointed Governor. Population, 6,705. Albanel visited James Bay by overland route from Quebec.

1673. June 13. Cataraqui (Kingston) founded by La Salle. 1674. Iroquois established in Caughnawaga. R. C. Bishopric established in New France. 1679. Le Grifon (vessel) built on Lake Ontario by La Salle.

1680. Joliet received a grant of the Island of Anticosti. 1682. Compagnie du Nord formed at Quebec for fur trading in Hudson Bay.

1682. Compagnie du Nord formed at Queoec for für trading in Hudson Bay.
1685. Card money issued in New France.
1686. Troyes and Iberville captured Hudson Bay Co. Forts Rupert and Albany.
1687. La Salle assassinated, March 18.
1689. August 5. Massacre of whites by Indians at Lachine.
1690. Capture of Port Royal by Sir William Phipps, and his unsuccessful attack upon Quebec.

1691. Peter Schuyler's raid into Canada by way of Lake Champlain. Henry Kelsey, employee of the Hudson Bay Co., left York Factory, traversed the Assiniboine country and penetrated the interior to the Rocky Mountains.

1692. Acadie became part of Massachussetts. Population of New France, 12,431. 1696. Nova Scotia made a Royal Province. Iberville destroys St. John's, Newfoundland, and deports 224 of the survivors to England in one small vessel.

1697. Treaty of Ryswick. Mutual restoration of places taken during the war. Great sea fight between Iberville and the Hudson Bay Co.'s ships on Hudson Bay; Iberville winning, Fort Nelson fell into the hands of the French. Frontenac's last campaign against the Iroquois.

1698. November. Death of Frontenac. Population of Canada, 13,355.

1700. De Callières at Montreal signed a treaty of peace with the Iroquois and other Indian tribes.

1701. Canadians granted leave to engage in manufacturing.

1702. de Beauharnois commissioned Intendant of Justice, Police and Finances of Canada.

1703. Oct. 29. The Members of the Sovereign Council of Canada increased from 7 to 12. 1704. Benjamin Church led an expedition from Massachusetts against Acadie in retaliation for Hertel de Rouville's attack upon Deerfield.

1706. Death of Pierre Le Moyne, Sieur d'Iberville.

1707. Col. March attacked unsuccessfully Port Royal, Acadie. 1708. May 6. Death of Laval, first R. C. Bishop of Quebec, from Oct. 1674 to Jan. 1688. 1709-10-11. Canada invaded by the English. Port Royal (Annapolis) taken by Nicholson (1710). Sir H. Walker's fleet partly destroyed at Isle aux Œufs, Aug. 22. One thousand lives lost.

1711. Merchants Exchanges established in Quebec and Montreal.
1713. Treaty of Utrecht, by which Hudson Bay and adjacent territory, Nova Scotia (Acadie) and Newfoundland were ceded to the English. Louisburg founded by French from Newfoundland.

1719. First Government founded by the English in Nova Scotia.
1720. Population of New France, 24,434, and of St. John's Island (Prince Edward Island) about 100. Fort Louisburg built. Governor and Council appointed for Nova Scotia. The historian Charlevoix arrived at Quebec.

1721. June 19. About one-half Montreal destroyed by fire. Coal shipped from Cape

Breton.

1722. Division of settled country in Canada into 82 Parishes confirmed by the King.

1729. Giles Hocquart signed his first act as Intendant.

1733. First forge erected in Canada—at St. Maurice.

Giles Hocquart signed an ordonnance declaring that whoever intended to free his slaves might do so by a notarial deed to be registered in the nearest office of Royal jurisdiction in civil matters; failure to do so making void the act of freeing the slave.

1737. Iron smelted at the St. Maurice forges. Giles Hocquart, Intendant, initiated Industrial Exhibitions by sending products of the Forests, the Mines, the Fisheries and the Field of Canada to France to be publicly exhibited.

1738. Grey Nunnery, Montreal, founded. La Franche explored the country between Lake

Superior and Hudson Bay

1739. Population of New France, 42,701.

1744. Charlevoix published his history of New France. 1745. Louisbourg, Cape Breton, taken by the English.

1747. Militia rolls drawn up for Canada. Courts of Justice constituted in Nova Scotia.

English defeated in Grand Pre. Nova Scotia.

1748. Restoration of Louisbourg to the French in exchange for Madras, by the peace of Aix-la-Chapelle, signed Oct. 18th, 1748.

1749. June 21. The city of Halifax founded by Lord Halifax; 2,544 British emigrants brought out by the Hon. Edward Cornwallis. Two English school teachers arrived in Nova Scotia and began operations. Fort Rouillé (Toronto) built.

1750. St. Paul's Church, Halifax, built. It is still used (1903).
1751. Rocky Mountains seen by Niverville's Expedition.
1752. March 23. Issue of the Halifax Gazette, the first paper published in Canada.
1753. June 3. Grey Nuns of Montreal incorporated by King's letters patent.
1755. French driven out of Fort Beauséjour. Expulsion of the Acadians from Expulsion of the Acadians from Nova Scotia. About 6,000 were deported.

1756. War between France and England. Montcalm in Quebec.

1758. First meeting of Nova Scotian Legislature, representative institutions having been granted.
July 26. Final capture of Louisbourg by the English under General Amherst.

Capture of Fort Niagara by the English under General Prideaux, who 1759, July 25.

was killed during the assault. July 25. Commencement of the siege of Quebec.

September 13. Battle of the Plains of Abraham and defeat of the French by General Wolfe, who was killed on the field. Loss of the English, 700, and of the French, 1,500.
September 13. Death of General Montcalm, commander of the French forces.

September 18. Capitulation of Quebec to General Townsend.

September 25. Ship Tilbury wrecked off St. Esprit, Cape Breton, 200 lives lost.

1760. Unsuccessful attack on Quebec by General de Levis. Capitulation of Montreal (Sept. 8th) and completion of the conquest of Canada. Population of New France, 70,000. Military rule began, lasting till the peace of 1763.

1762. British population of Nova Socia, 8, 104. First English settlement in New Bruns.

1762. British population of Nova Scotia, 8,104. First English settlement in New Brunswick.

1763. February 10. Treaty of Paris signed, by which France ceded and guaranteed to His Britannic Majesty in full right "Canada with all its dependencies.

Cape Breton and Isle St. Jean annexed to Nova Scotia. Labrador, Anticosti and the Magdalen Islands annexed to Newfoundland. In this year Pontiac, Chief of the Ottawas, organized a conspiracy for a simultaneous rising among the Indian tribes, and a general massacre of the British. The plan was successfully carried out in several places and all the inhabitants put to death, but finally the Indians were forced to succumb.

1764. Issue of the Quebec Gazette. Montreal nearly destroyed by fire.
1765. Sunbury County set apart by Executive Council of Nova Scotia—being the first organized county in New Brunswick. The first printed book published in Quebec, Catéchisme du Diocèse de Sens. 1766. Peace with Pontiac.

1768. General Carleton, afterwards Lord Dorchester, appointed Governor General. Charlottetown, P. E. Island, founded. March 20. North British Society founded in Halifax, Nova Scotia.

1769 St. John's Island (Prince Edward Island) made into a separate province, with Walter Patterson for the first Governor; the first meeting of an elected House of Assembly took place in July, 1773. Hearne began his explorations of the Coppermine River region.

1773. Escheat of Jesuits' Estate in Canada consequent on the order being abolished.

Celtic settlers arrived in Nova Scotia.

1774. The "Quebec Act" passed. This Act gave the French Canadians the free exercise of the Roman Catholic religion, the enjoyment of their civil rights, and the protection of their own civil laws and customs. It annexed large territories to the province of Quebec, and provided for the appointment by the Crown of a Legislative Council, and for the administration of the criminal law as in use in England. Labrador transferred to Canada.

1775. Outbreak of the American Revolution and invasion of Canada by the Americans; every place of importance rapidly fell into their hands, with the exception of Quebec, in an attack upon which General Montgomery was defeated and killed

on 31st December.

1776. Reinforcements arrived from England and the Americans were finally driven out of Canada by General Carleton. October 11. Sir Guy Carleton defeated General Arnold in a naval engagement in Lake Champlain.

1778. June 3. First issue of the Montreal Gazette; this paper is still published. Captam Cooke arrived in Nootka Sound and claimed the present north-west coast (British Columbia) for the Crown of Great Britain.

1780. General Assembly of Nova Scotia passed an Act establishing Public Schools in Halifax and appropriating £1,500 for the purpose.

1782. North-west Fur and Trading Co. organized in Montreal. June 29. Govr. Hammond of Nova Scotia assented to a Bill repealing the law prohibiting public

worship by the Roman Catholic church.

1783. September 3. Signing of the Treaty of Versailles between Great Britain and France, respecting fisheries on Newfoundland Coast from Gulf of St. Lawrence. Signing of Treaty of Paris; recognition of independence of the 13 States and definition of the boundary line between Canada and the United States, viz., the Great Lakes, the St. Lawrence River, the 45th parallel of north latitude, the highlands dividing the waters falling into the Atlantic from those emptying themselves into the St. Lawrence and the Ste. Croix Rivers. Kingston founded by U. E. loyalists. Nearly 500 families of U. E. Loyalists from New York landed at Shelburne, N.S.

(United Empire Loyalists in Upper Canada not 1784. Population of Canada, 113,012. included.) Fredericton, N.B., founded by U. E. loyalists. Cape Breton separated from Nova Scotia politically.

August 16. New Brunswick made a separate prevince; population, 11,457. Reintroduction of the right of habeas corpus.

British population in Nova Scotia, 32,000 (about 11,000 Acadians not included). 1784. About this time began the migration into Canada and Nova Scotia of the United Empire Loyalists, as they were called—that is, of those settlers in the American States who had remained faithful to the British cause. This migration lasted for several years, and though it is not possible to arrive at any exact figure, it is probable that the number altogether was not less than 25,000. The loyalists were well treated by the British Government, and large grants of lands were made to them in various parts of the country. The banks of the St. Lawrence and the shores of Lake Ontario, in particular, were settled by about

10,000 persons, on lands allotted to them by the Government.

1785. May 18. Date of charter of St. John, N.B., as Parrtown, the oldest incorporated town in Canada. Sydney, C.B., founded by Lieutenant-Governor Desbarres. English law declared to be in force in Cape Breton Island.

1786. First vessel on the Pacific coast launched by Captain John Meares. It was a 40 ton vessel. First classical school in Upper Canada opened. Halifax Marine Association founded for encouragement of trade. Several counties were established in New Brunswick, and on October 23rd the Government moved from St. John to Ste. Anne's Point (now Fredericton).

1787. First Colonial See established in the British Empire in connection with the Church

of England, in Nova Scotia.

1788. Western Canada (now Ontario) divided into four districts, and English law introduced. King's College (N.S.) opened. 'Hungry year.'

1789. Quebec Agricultural Society formed by Lord Dorchester. Halifax Agricultural Society was also formed this year; they played important part in the early history of agriculture in Canada. Order in Council establishing the United Empire Loyalists.

1790. Vancouver Island circumnavigated by Capt. Vancouver. Belleville founded.

1791. Division of the province of Quebec into two provinces, viz., Upper and Lower Canada. Each province to have a Lieutenant-Governor, and a Legislature composed of a House of Assembly and a Legislative Council. The members of the council to be appointed by the Lieutenant-Governor for life; those of the Assembly to be elected by the people for four years. Act went into force by Royal proclamation Dec. 26th. Population of the two provinces,

1792. May 7. Lieut.-Govr. Clarke divided Lower Canada into 21 electoral districts.
July 8. First Executive Council for Upper Canada appointed by Lieut. Govr. Simcoe. July 15. Upper Canada divided into 19 counties. September 17. First meeting of the Legislature of Upper Canada at Newark (Niagara), under Lieutenant-Governor Simcoe. The House of Assembly consisted of sixteen members. Capt. Vancouver on the Pacific Coast exploring.

December 17. Opening of the Legislature of Lower Canada, at Quebec, by Gen. Clarke. The House of Assembly consisted of fifty members. Fortnightly

mail service established between Canada and the United States.

1793. Importation of slaves forbidden in Upper Canada. Upper and Lower Canada separated from the Church of England See of Nova Scotia, and made a separate See. Toronto given the name of York. Rocky Mountains crossed by Mackenzie. Public Accounts first published. Upper Canada Gazette (first paper in Upper Canada) published.

1794. Jay's Treaty signed, being treaty between Great Britain and the United States. Vancouver Island by arbitration between Great Britain and Spain acknowledged

to be British territory.

1796. The seat of Government of Upper Canada removed from Niagara to York (Toronto). X. Y. Fur Trading Co. formed. Maroons brought from Jamaica to Nova Scotia.

1797. Weekly mail established between Canada and the United States.

George III. directed waste lands of the Crown in Upper Canada to be set aside (1st) for establishment of free grammar schools, and (2nd) for establishing other seminaries of learning of a large and more comprehensive nature.

1798. The name of St. John's Island changed to that of Prince Edward Island, in honour of the Duke of Kent, the change taking effect in 1799. Population, 4,500.

1800. The first Baptist Association in Lower Canada organized at Grenville. David
Thompson, explorer, crossed the Rocky Mountain range. Jesuits' estates
taken possession of by the Government. New Brunswick college established.

1802. King's College (N.S.) granted a royal charter.
1803. Lord Selkirk sent 800 Scotchmen to Prince Edward Island.
1804. Sedition Act passed in Upper Canada. N. W. Compy & X. Y. Co., amalgamated.
1805. January. Founding of the Quebec Mercury by Thomas Cary, barrister; first copy issued January 5th.

1806. November 22, Issue of Le Canadien, the first newspaper printed entirely in French. Population of Upper Canada, 70,718, and of Lower Canada, 250,000.

1807. Public grammar schools founded in Upper Canada.

1808. Jonathan Sewell, a Loyalist expelled from the United States, became Chief Justice of Lower Canada.

1809. First steamer on St. Lawrence River from Montreal to Quebec.

1811. Judges excluded from Parliament. McGill University founded. Montreal Herald (newspaper) founded. Earl of Selkirk received a grant of 74,000,000 acres from Hudson Bay Co., including all the present Province of Manitoba and 27 millions of acres more.

1812. 100 Scotch settlers went to Red River by way of Hudson Bay.

War of 1812–15 between Great Britain and the United States. British Orders in Council were passed declaring a strict blockade of the European Coast from Brest to the Elbe; other Orders in Council connected with the blockade were subsequently passed. These affected seriously the trade of the United States, and with other causes produced a war which was declared by the United States on June 18, 1812, one day after the obnoxious Orders in Council had been repealed. If there had been cable communication in all probability there would have been no war of 1812-14.

General Hull's force of 2,500 men crossed the Detroit River near Sand-

wich into Canadian territory.

July 17. Fort Michillimackinac surrendered to Capt. Roberts commanding a British force of 193 men.

1812. August 5. Brownstown Village. British troops and Indians under Tecumseh ambushed the United States forces; killed 20 men and wounded 9, driving the enemy back, August 5. United States General Hull (Aug. 7th) retreated

Rivière aux Canards. Col. Cass with United States troops was sent for-August 7. ward to take a bridge; made three several attempts, July 15, 19 and 24, but

was repulsed on each occasion.

Lieut. Rolette attacked and captured a convoy of bateaux and boats of the United States on their way from Niagara to Detroit.

August 19. Hull surrendered Detroit to Brock. 2,500 prisoners, 33 cannon, 2,500

stand of arms and large quantities military stores taken by the Canadians.

September 16. United States forces repulsed at Presq IIe. September 21. Gananoque raided by United States' force.

October 13. United States troops under Van Rensslaer crossed the Niagara River to Queenston. They were repulsed and defeated, losing 90 killed, 100 wounded and 900 made prisoners. The British loss was about 130 in killed, wounded and prisoners. The British General Brock was killed.

November 10. Kingston bombarded by United States forces.

November 20. United States General Dearborn with about 2,000 troops attacked Odelltown but was driven back to Champlain by Major de Salaberry.

November 28. United States forces repulsed near Fort Erie.

January 22. Col. Proctor (British) with 500 soldiers and 800 Indians defeated 1813. United States General Winchester at Frenchtown, capturing the commander and 405 of his men,

February 6. United States force under Capt. Forsythe crossed from Ogdensburg

to the Canadian side, raided Brockville and carried off 52 persons. February 22. Major MacDonnell with 480 men crossed the river from Prescott to the United States town of Ogdensburg, and after a severe fight captured it,

taking prisoners Capt. Forsythe, 11 guns and 500 men.
il 27. United States forces under General Pike attacked the town of York
(now Toronto). The British garrison after a sharp resistance was driven away and the town capitulated. The military stores were captured, 300 prisoners were taken and ships at the docks and the public buildings were burned.

May 1. Proctor (British) attacked Fort Meigs but failed to take it.
May 8. United States forces evacuated York.

May 27. General Dearborn captured Fort George.

May 29. General Prevost (British) assaulted Sackett's Harbour without success. June 1. Naval engagement between the "Shannon" (British) and the "Chesapeake"; the British frigate captured the enemy's vessel and carried her into the harbour of Halifax.

June 3. Two United States vessels captured by Major Taylor on Lake Champlain. After the capture of Fort George the troops of the United States invaded Canada, 4,000 strong, but their advance guard, 1,400 strong, were surprised in the night by 800 British who advancing with the bayonet defeated them at Stoney Creek, capturing two generals, four cannons and 120 men. June 19. United States military stores captured at Great Sodus.

June 24. Lieut. Fitzgibbon, in charge of a stone house at Beaver Dam, about 17 miles from Fort George, being warned by Laura Secord, the wife of a Canadian militia man, that an attempt would be made from Fort George by Colonel Boerstler with some 400 men and two field pieces to destroy the house and its defenders, prepared for the emergency by posting two hundred Indians, who ambushed the enemy. A detachment of 150 men reinforced Boerstler, but Capt. Fitzgibbon and forty-seven men reinforced the Indians, surrounded the United States force and compelled its surrender. Five hundred and forty men capitulated to a British lieutenant with 260 Indians, militiamen and regulars. Mrs. Secord at great personal risk walked twenty miles through the forest to warn the British.

July 4. Colonel Thomas Clark (British) with forty men surprised the United States Fort Schlosser and took it, re-crossing the river into Canada, with

fifteen prisoners and a considerable quantity of stores and arms.

July 31. United States forces visited York and set fire to several buildings, carrying off what stores they could find.

July 31. Capts. Everard and Pring destroyed four United States vessels outside of Burlington.

July 31. Col. Murray captured Plattsburg, the headquarters of the United States army of the north.

August 2. Col. Proctor failed in an attempt to take Fort Stephenson on the Sandusky River.

1813. August 10. Running fight on Lake Ontario, the British capturing two United States vessels and driving the United States commander under the guns of Fort Niagara for shelter. The damage to the British vessels was a few shotholes through the sails.

August 20. General Hampton with 5,000 men entered Canada.

September 10. Perry (United States) defeated Barclay on Lake Eric. Barclay lost 38 killed and 85 wounded out of a total of 650 men.

October 1. United States forces repulsed at Four Corners.

October 4. Harrison, (United States) pursuing Proctor retreating from Sandwich, captured Proctor's ammunition and stores.

October 5. Harrison with 3,500 men defeated Proctor with 407 soldiers and 800 Indians at Moravian town. The celebrated Indian Chief, Tecumseh, was killed in this engagement. Harrison burned the town on the 6th.

October 26. The French Canadian militia, led by Lt.-Col. de Salaberry and numbering 350, overwhelmingly defeated 3,500 United States troops under

General Hampton at Chateauguay.

"Believing themselves surrounded by forces far superior in numbers, the invaders became paralysed with fear and fled in disorder from an enemy whom they could not see, and who might close upon them at any moment. In this way Canadian pluck and strategy won a famous victory which saved the province of Lower Canada at a most critical moment of the war."—SIR JOHN BOURINOT.

November 11. Battle of Chrysler's Farm. The invading United States force consisted of 2,000 regulars with six field pieces. British force under Col. Morrison numbered 680 regulars, 120 Canadian militia and 30 Indians, with three field pieces. British loss, 22 killed, 150 wounded and 15 missing. United States loss, 102 killed and 237 wounded. The United States General Covington was among the slain. After being defeated the United States army hastened back to their own country.

December 11. United States General McClure adandoned Fort George, and after burning 149 houses in Newark and Queenston and compelling 400 women and children to seek shelter in the woods, crossed over to Fort Niagara on the

United States side.

December 18. Col. Murray (British) with 550 men crossed Niagara River and captured Fort Niagara, killed 65 men and made 344 prisoners, only twenty of the garrison escaping. The British loss was six killed and five wounded.

December 19. General Riall (British) with 500 men crossed the river to Lewiston

December 19. General Riall (British) with 500 men crossed the river to Lewiston accompanied by 500 Indians. A skirmish took place between the Indians and a United States force, in which the latter lost eight men killed. The United States troops evacuated Lewiston, which was at once destroyed, as also were the villages of Youngstown and Manchester and Fort Schlosser, General Riall returning to Canada.

December 30. General Riall (British) again made a raid into United States territory, routed the United States troops opposed to him and captured and burned Buffalo. "On New Year's Day, 1814, the settlers along the whole length of the Niagara River—those of them who survived—were shivering besides the smouldering embers of their homes," and the burning of Newark was revenged.

1814. March 30. United States General Wilkinson led 5,000 men across the boundary against 350 British posted in La Colle Mill. After a fight of four hours, the

United States troops retreated to Plattsburg.

May 6. Sir James Yeo and General Drummond with 1,080 rank and file left Kingston on May 4. The fleet arrived off Oswego on the 5th. • n the 6th, 770 men embarked on boats, effected a landing under a fierce fire from the batteries and from the musketry discharge of 500 regulars and militia, and in a short time captured the town, losing 19 killed and 62 wounded. The United States troops lost 6 killed and 38 wounded and 25 missing. 60 prisoners were taken by the British, who destroyed all public property.

May 15. Col. Campbell of the United States Infantry with 500 men crossed from

Erie, Pa., and burned Port Dover.

May 30. Sir James Yeo sent two gun boats up Sandy Creek, 16 miles to the west of Sackett's Harbour to capture stores. They were attacked by a United States force of 150 regulars, 200 Indians and a strong body of militia. After a loss of 8 killed and 20 wounded the remaining 120 British surrendered.

July 3. United States General Brown having with him 6,000 rank and file marched against Fort Erie which surrendered, being held by but 170 British.

July 5. General Brown, attacked by British General Riall with 1,800 men, engaged him in battle—the Battle of Chippewa. The United States force lost 308 men and the British 511 killed and wounded. General Riall retreated taking up a new position at Lundy's Lane—the enemy in the meantime plundering and destroying and burning the village of St. Davids—acts which enraged the people who "sniped" them at every opportunity, killing numbers.

1814. July 25. Col. Tucker (British) with 1,500 men crossed over and took Lewiston,

destroying the public stores.

General Drummond had hastened from Kingston on hearing of the Battle of Chippewa and arrived at Fort George on the 24th. With 800 men he hurried forward to aid Riall and reached Riall's camp just as the United States forces were within 600 yards of it. Then began the battle of Lundy's Lane "the bloodest conflict of the whole war." It lasted seven hours and the United States forces then withdrew having lost 1,200 of 4,900 engaged. The British force engaged was 1,640 during three hours, at the end of which time a reinforcement of 1,200 men arrived. Of the whole British force 84 were killed and 557 wounded. The United States troops withdrew to Fort Erie. "Nothing could have been more terrible nor yet more solemn than this midnight contest. The desperate charges of the enemy were succeeded by a death-like silence, interrupted only by the groans of the dying and the dull sound of the Falls of Niagara.

August 4. Commander Sinclair (American) attempted to capture Mackinaw, but failed.

August 12. Capt. Dobbs (British) captured two United States schooners at Fort Erie.

August 15. General Drummond assaulted Fort Erie, but failed to carry it, the accidental explosion of an ammunition chest nearly destroying the storming

July and August. Sir John Sherbrooke, of Nova Scotia, invaded the State of

Maine and held a chief portion of it till the close of the war.

September 3 and 6. Two United States vessels captured off Nottawasaga.

September 11. British Capt. Downie in naval engagement before Plattsburg on Lake Champlain after a desperate battle was defeated. The British had 8 vessels, 38 broadside guns and an aggregate crew of 337, against an United

States fleet of 14 vessels, 52 broadside guns and 950 aggregate crew.

September 17. United States troops made an unsuccessful sortie from Fort Erie.

November 5. United States forces evacuated Fort Erie, destroyed, and went

across to United States territory.

December 24. War terminated by the Treaty of Ghent.
"The result of the three years' fighting" says Denison, "was that twelve distinct invasions by superior forces of the enemy were defeated and the invaders driven

out of the country, making it a victorious war for us.'

"The war did much to solidify the various racial elements" says Bourinot, "of British North America during its formative stage. Frenchmen, Englishmen, Scotsmen from the Lowlands and Highlands, Irishmen and Americans united to support the British connection. The character of the people, especially in Upper Canada, was strengthened from a national point of view by the severe strain to which it was subjected. Men and women alike were elevated above the conditions of a mere colonial life and the struggle for purely material necessities and became animated by that spirit of self-sacrifice and patriotic endeavour, which tends to make a people truly great.

"Lundy's Lane was the most hotly contested of all the engagements which took place in the war of 1812-15. The invaders of Canada forming the centre division of the American Army under the command of General Brown fought with a courage which was truly heroic. This battle was not a long-range en-

gagement, but a hand to hand, bayonet to bayonet, muzzle to muzzle conflict. "Of all the battles fought in America, the action at Lundy's Lane was unquestionably the best sustained and by far the most sanguinary. The rapid charges and real contests with the bayonet were of themselves sufficient to render this engagement conspicuous. Traits of real bravery and heroic devotion were that night displayed by those engaged, which would not suffer in comparison with those exhibited at the storming of St. Sebastian or the conflict of Quatre Bras.

"General Drummond was himself wounded in the neck by a bullet. He places the killed, wounded and missing at 836. The United States General reported killed,

wounded and missing, 858.

Population of Upper Canada 95,000 and of Lower Canada, 335,000.

1815. Treaty of London. Convention to regulate trade and navigation between the United States and Great Britain.

1816. Common Schools established in Upper Canada. Steamer "Frontenac" launched

on Lake Ontario.

First Treaty with the North-west Indians; the Earl of Selkirk signing on behalf of 1817. King George III. First bank opened in Montreal—the Bank of Montreal. Agreement with United States respecting gun boats on the Great Lakes. Ottawa founded by Nicholas Sparks.

1818. October 30. Convention signed at London regulating the privileges of Americans in the British North American fisheries. Halifax and St. John, N.B., made

free ports. Bank of Quebec established.

1819-22. John Franklin's overland expedition to the Arctic Ocean.

1820. Cape Breton reannexed to Nova Scotia. Brantford founded. Bank of New Brunswick incorporated.

Commencement of the Lachine Canal. (First vessel passed through in 1825.) McGill College received its charter. Quebec Savings Bank opened. Amalgamation of the Hudson's Bay Co., and the North-west Trading Co.

1822. General Hospital Montreal founded. Law Society of Upper Canada incorporated. 1824. Literary and Historical Society of Quebec founded. "Fabrique Act" passed in Lower Canada.

1825. Great fire in the Miramichi District of New Brunswick. Five hundred lives estimated lost. Three million acres of forest destroyed. Halifax Banking Company established. Treaty of St. Petersburg defining boundaries of Alaska.

1826. Franklin and Richardson explore the Mackenzie river and the coast east and west.

Canada Land Company formed. 1827. Guelph founded by John Galt. Coal mining begun in Pictou Co., Nova Scotia. Treaty of London. Convention between the United Kingdom and the United

States relative to territory west of the Rocky Mountains.

1828. Saguenay District explored. Pictou and Sydney made free ports.

1829. Upper Canada College founded. First Welland Canal opened. John Ross discovered the Peninsula of Boothia and in 1830 James Clarke Ross discovered the North Magnetic Pole in 70°, 5′, 17″ north Iatitude and 96°, 46′, 45″ west longitude.

1831. Population—Upper Canada, 236,702; Lower Canada, 553,131. Ship "Lady Sherbrooke" lost near Cape Ray, nearly 300 lives lost.

1832. Cholera in Canada checked immigration. Quarantine station established at Grosse Isle. June 5. Lord Aylmer proclaimed that His Majesty had (April 12) assented to Acts to incorporate the cities of Quebec and Montreal.

1833. August 5. The steamer "Royal William" left Quebec for Pictou, N.S., discharged

cargo and coaled, leaving Pictou on the 18th August, for Gravesend, England, at which port she arrived after a stormy passage, during which she disabled one of her engines. The boat was built at Quebec during 1830-31, and was the first steamer that ever crossed the Atlantic, the motive power of which was entirely steam. Capt. George Back made overland journey to the Arctic Ocean.

1834. Toronto incorporated. Cholera again in Canada.

1835. Steamer "Beaver" (Hudson's Bay Co.,) arrived at Fort Vancouver, being the first steamer on the North Pacific Ocean.

1836. July 21. Opening of the railway from Laprairie to St. Johns, the first railway in Canada.

1837-38. Outbreak of rebellion in both provinces. It was suppressed in Upper Canada by the militia, and in Lower Canada by the British troops. Gas used in Montreal. Dease and Simpson explored the arctic shores of Canada.

1838. Secularization of clergy reserves advocated by Francis Hincks. Nov. 1, Dalhousie College, Halifax, N.S., opened and students enrolled.

1839. Lord Durham's report on the state of Canada communicated to Parliament, 11th February. Five rebels hanged in Montreal. "Aroostook war" took place. Meteorological service established Railway at Albion Coal Mines, N.S., opened. by the Imperial Government in Toronto.

1840. Death of Lord Durham, to whose exertions the subsequent union of the provinces

was mainly due. Quebec and Montreal incorporated. Montreal daily Advertiser founded; first daily journal in Canada. The Britannia, the pioneer steamship of the Cunard Line, arrived in Halifax.

1841. February 10. Union of the two provinces under the name of the Province of Canada, and establishment of responsible Government. The Legislature consisted of a Legislative Council and Legislative Assembly, each province being represented by 62 members, 42 elected by the people and 20 appointed by the Crown. Halifax incorporated as a city.

1841. Population of Upper Canada, 455,688. May 17. Landslide from the Citadel rock, Quebec; 32 persons killed.

June 13. Opening of the first United Parliament, at Kingston, by Lord Sydenham. 1842. August 9. Settlement of the boundary line between Canada and the United States by the Ashburton Treaty. Imperial Parliament, for the last time, framed a

tariff for British North America. 1843. Victoria, B.C., founded by James Douglas. Geological Survey established by the

provincial government. First iron steamer in Canada launched at Montreal.

1844. Population of Lower Canada, 697,084. General Elections in the Province of Canada.

1845. Act to make provision for a Geological Survey of Canada assented to. fires in the city of Quebec; 25,000 people rendered homeless. Enlarged Welland Canal opened. Franklin went in search of the North West Passage, found it, but he died in 1847 and all his officers and men (105) perished later on.

1846. Oregon Boundary Treaty. Quebec theatre destroyed; 46 lives lost. Montreal Witness founded. Kingston and Hamilton incorporated as cities.

1847. Navigation laws repealed. Electric telegraph line established between Quebec, Montreal and Toronto. Quebec Chronicle established. Ship fever ravaged. Lord Elgin became Governor General.

1848. The St. Lawrence Canals open for navigation. Responsible Government granted by the Imperial Parliament to Nova Scotia and to New Brunswick. Frederic-

ton incorporated as a city.

1849. April 25. Riots in Montreal over the passage of the Rebellion Losses Bill, and burning of Parliament Library at Montreal. Vancouver Island proclaimed a British Colony.

July 28. Assent given to an Imperial Act to authorize the Legislatures of Her

Majesty's Colonies to establish and regulate Posts, &c.

1850. The first sod of the Northern Railway turned by Lady Elgin. (The road was opened from Toronto to Bradford on 13th June, 1853, and was the first locomotive railway in operation in Upper Canada,) The Robinson Treaties with the Indians of the northern shores of Lake Huron and Superior concluded. (The main features of these treaties, viz.:—Annuities, reserves of land and liberty to fish on the domains of the Crown not alienated—have been followed in the subsequent treaties.) Welland Canal enlarged. Bulwer-Clayton Treaty signed.

1851. Transfer of the control of the postal system from the British to the provincial governments and adoption of a uniform rate of postage, viz.: 3 pence per ½ ounce. The use of postage stamps was also introduced. First submarine cable laid in Canada between New Brunswick and Prince Edward Island, 10 miles long. Population of Upper Canada, 952,004; of Lower Canada, 890,261; of New Brunswick, 193,800, and of Nova Scotia, 276,854. Responsible Government granted by Imperial Parliament to Prince Edward Island. Young Men's Christian Association organized in Montreal; first in America. First Provincial Council (Roman Catholic) held at Quebec. Aug. 2. Act incorporating

Trinity College, Toronto, assented to.

1852. Commencement of the Grand Trunk Railway. Fire in Montreal rendered home-

less 10,000 people. General hospital saved though all surrounding buildings were destroyed. Municipalities Loan Fund Act passed in Upper Canada.

1853. The number of members in the Legislative Assembly was increased from 84 to 130, being 65 from each province. May 9. First ocean steamer arrived in Quebec.

Railway between Montreal and Portland opened.

1854. January 27. Main line of the Great Western Railway opened for traffic. Abolition of Seignorial Tenure in Lower Canada and settlement of the Clergy Reserve question. June 5. Reciprocity Treaty with the United States signed at Washington. It provided for mutual rights of fishing in certain Canadian and American waters, for free interchange of the products of the sea, the soil, the forest and the mine; it allowed Americans the use of the St. Lawrence River and Canadian canals on the same terms as British subjects, and gave to Canadians the right to navigate Lake Michigan. The Treaty was proclaimed by the President of the United States on the 16th March, 1855, at which date it came into operation. First screw steamer from Liverpool to the St. Lawrence River. Sugar refining established in Montreal. Oil wells first opened in Canada. First sod turned of railway from Halifax to Truro.

1855. Ottawa incorporated as a city. Opening of the Niagara Suspension Bridge. Money order system established in the province of Canada. Registration of letters in

post offices established.

1856. The Legislative Council of the province of Canada became an elective chamber. Allan steamship line commenced regular fortnightly steam service between Canada and Great Britain. Submarine Cable laid between Cape Breton Island and Newfoundland. First meeting of Legislature of Vancouver Island. Railway between Montreal and Toronto opened.

1857. March 12. Desjardins Canal railway accident, 60 lives lost. St. Hyacinthe (P.Q.), incorporated as a city. City of Three Rivers incorporated. Steamer "Montreal" lost near Quebec, 253 lives lost.

1858. Adoption of the decimal system of currency. Selection by the Queen of the city of Ottawa as the Capital of the Dominion and permanent seat of Government made known to the Legislature on 16th March. Atlantic cable laid between England and Nova Scotia. Representative Institutions granted to mainland of British Columbia. Railway from Halifax to Truro opened. 100th Regiment recruited in Canada.

April. Gold found in British Columbia.

September 1. Hong Kong Coronation Contingent, composed of East Indian and Chinese troops, reviewed in Ottawa.

Jamaica Sugar Planters pass resolution in favour of federation with September 6. Canada.

Death of Sir John Bourinot, Clerk of the Canadian House of September 13. Commons.

Resignation of Hon. J. I. Tarte from the Government. September 20.

October 31. First message across Canada from Australia transmitted by the Pacific Cable.

November 21. Premier Dunsmuir, British Columbia, resigns, and is succeeded by Hon. E. G. Prior.

December 2. First representative of Yukon Territory elected to Federal Parliament.
December 4. Liquor Referendum Act voted on by Ontario. Total names on list,
596,934. In favour of Act, 199,749; against, 103,542.
1903. February 11. Alaskan Boundary Treaty ratified by United States Senate.

As the war in South Africa is a prominent event in the history of Canada, the following summary of events has been prepared:—

May 18, 1899. Secretary of State for the Colonies, Mr. Joseph Chamberlain, announced in House of Commons that a meeting between Sir Alfred Milner, High Commissioner for South Africa, and President Krüger, had been arranged.

May 30. President Krüger and Sir Alfred Milner arrived at Bloemfontein to

discuss the grievances of the Uitlanders.

June 6. Conference concluded; (8) announced that the Conference has proved a

June 14. Transvaal Raad accepted the franchise proposals made by Krüger as his final concession to Great Britain, but suspended their operations till they were referred to popular vote.

July 11. Government of Queensland offered Great Britain a force of 250 mounted infantry, with a machine gun, for service in South Africa, in case of hostilities

between Great Britain and the Transvaal.

July 18. The Transvaal Volksraad adopted Bill providing for a seven years' retroactive franchise.

July 26. New franchise law promulgated in the Transvaal.

July 31. Commons of Canada passed, unanimously, a resolution expressing sympathy with the Imperial authorities in their efforts to obtain for the subjects of Her Majesty who have taken up their abode in the Transvaal such measure of justice and political recognition as may be found necessary to secure them in full possession of equal rights and privileges.

August 1. Senate of Canada passed unanimous resolutions similar to those passed by the Commons relative to the treatment of British subjects in the Transvaal.

August 19. Transvaal Government made fresh proposals to Great Britain offering a five years' franchise, a share for Uitlanders in the election of President, and increased representation for the gold fields to the extent of eight seats. The conditions attached were (1) That Great Britain abandon her claim to suzer-ainty. (2) That she pledge herself never again to intervene in Transvaal affairs, and (3) That she concede arbitration.

August. 28. British Government replied declining to consider the conditions pro-

posed, but renewed proposal for another conference.

September 2. Transvaal Government acceded to proposal for another conference on basis of abrogation of British suzerainty and recognition of the Transvaal

as a Sovereign International State.

September 12. Secretary of State for the Colonies sent despatch to Transvaal Government proposing five years' franchise, increased representation and use of English language in Volksraad, the suzerainty question to be left in statu

September 17. Transvaal Government replied, withdrawing all former offers and proposing Joint Commission of Inquiry to consider the whole case from the

beginning. September 22. Hon. Joseph Chamberlain notified President Kriiger that the Imperial Government intend to consider the situation anew and to formulate new proposals.

September 29. The Volksraad of the Orange Free State resolved to stand by the Transvaal

October 3. Mr. Chamberlain sent cablegrain to Governor General of Canada expressing the high appreciation of the Imperial authorities of the signal exhibition of patriotic spirit of the people of Canada shown by offers to serve in South Africa, and accepting the same; asked the Government to give to all who have offered to raise volunteers the Imperial Government's decision.

October 5. Hon. Joseph Chamberlain stated to President Krüger that on account of the refusal of the Transvaal to consider former proposals the Imperial

Government will formulate new proposals.

October 10. Transvaal Government sent an ultimatum to the British Government complaining of the latter's 'unlawful intervention in the internal affairs of this republic in contravention of the London Convention of 1884, and demanded that (1) all points of difference be settled by arbitration or other amicable means; (2) All troops on the Transvaal border to be instantly withdrawn; (3) All reinforcements of troops which have arrived in South Africa since June 1. 1899, be removed, the Transvaal agreeing to make no attack upon British possessions in Africa pending further negotiations and agreeing also to withdraw its forces from the borders; (4) British troops now on the high seas not to be landed in any part of South Africa. The Transvaal Government stated further that an answer must be made by the British Government on or before October 11, at 5 p.m., otherwise the Transvaal Government would regard the action as a formal declaration of war. British Government replied to the ultimatum that the demands of the Transvaal Government 'are such as Her Majesty's Government deem it impossible to discuss.

October 11. Transvaal Government issued formal declaration of war.

October 12. Boers invaded British territory in three columns through Botha's

Pass, Laing's Nek and from Wahkerstroom. They also intercepted an
armoured train between Vryberg and Mafeking and killed fifteen British.

October 15. Earl Minto sent cablegram :- 'Much pleasure in telling you (Mr. Chamberlain) that my Government offers 1,000 infantry for South Africa.

October 16. Imperial Government accepted Canada's offer; Chamberlain expressing great pleasure of Her Majesty's Government on receiving Canadian Government's offer. Canadian Government issued militia order for 1,000 volunteers. October 21. New Zealand contingent sailed for South Africa.

Victoria, Australia, contingent sailed for South Africa. October 28.

October 30. Steamship Sardinian sailed from Quebec with the first contingent of Canadian troops—fifty-seven officers and 1,224 men, amid great and general popular enthusiasm. (Arrived at Cape Town, November 29.)

November 1. South Australia contingent sailed.

Earl of Minto cabled that Government of Canada offer to send a November 2. second contingent. This offer was at first (November 7) declined with thanks. January 21. First quota of second contingent left Halifax in the ss. Laurentian. (Arriving February 17 at Cape Town.) 1900.

January 27. Second quota of second contingent left Halifax on ss. Pomeranian.
(Arrived at Cape Town February 26.)

February 1. Authority granted for formation of corps equipped and armed as Strathcona's Horse—to be paid by Lord Strathcona and Mount Royal.

February 21. Third detachment of second contingent left Halifax on ss. Milwaukee, arriving at Cape Town March 22. The second contingent consisted of forty-one officers and 976 men.

February 27. Surrender of Gen. Cronje at Paardeberg. Several Canadians killed. General Roberts bestowed warm praise on Canadian contingent for gallantry.

March 1. Ladysmith relieved.

March 13. Lord Roberts entered Bloemfontein.

Strathcona's Horse, composed of 537 officers and men, with 573 horses, March 16. left Halifax on ss. Monterey, for Cape Town. Also 121 men to fill up 'casualty list' of previous contingents. Steamship arrived at Cape Town, April 10.

Kroonstadt captured by Lord Roberts's Army.

May 17-18. Mafeking relieved.

1902.

May 22. Hon. Joseph Chamberlain cabled to Governor-General: 'Congratulate Canada on great service rendered by Canadian Artillery in relief of Mafeking.'
May 27. Lord Roberts crossed the Vaal River.
June 5. Lord Roberts took possession of Pretoria.
July 23. Lord Roberts made a general advance from the position he had held in

Pretoria

August 4. Harrismith surrendered to the British.

September 1. Lord Roberts issued proclamation announcing the annexation of the Transvaal to the British Empire.

September 11. Ex-President Kruger escapes to Lorenzo Marquez. November 1. Troopship *Idaho* with a Canadian contingent from Africa arrived at Halifax.

January 14. Manhattan (ss.) sailed from Halifax, having on board 454 officers and men of the 2nd Regt. Canadian Mounted Rifles and 513 horses for Cape Town. January 24. Troopship Victorian sailed from Halifax, having on board 440 officers and men of the Canadian Mounted Rifles and 454 horses; also 62 officers and men, Canadian Field Hospital, A.M.C., and 30 horses.

May 31. Peace between Boer and Briton.

The principal physical features of Canada are the Rocky Mountains and the Laurentian range, the plains of the North-west Territories, the great lakes and Hudson Bay and the Bay of Fundy, and the Mackenzie River and St. Lawrence River basins.

The great Laurentian lakes, five in number, form, with their connecting rivers, a complete system of navigation from the head of Lake Superior to the Atlantic Ocean, a distance of 2,384 miles. They cover an area of about

100,000 square miles.

Other great lakes are Great Bear, 11,200 square miles; Great Slave, 10,100 square miles; Winnipeg, 9,400 square miles; and Athabaska, 4,400 square miles.

The principal mountains are the Rocky Mountains in the west, extending from the Arctic Ocean to the United States; they contain the highest points in the Dominion, among the chief being Mount Hooker, 16,760 feet;

Mount Brown, 16,000 feet; and Mount Murchison, 15,700 feet.

The principal rivers are the St. Lawrence (with its tributaries, the Ottawa, the St. Maurice, the Richelieu and the Saguenay), the St. John, the Restigouche and the Miramichi rivers, flowing into the Atlantic Ocean; the Mackenzie, Coppermine and Great Fish rivers emptying into the Arctic Ocean; the Saskatchewan and Red, the Nelson, Churchill and Albany rivers flowing into the Hudson Bay; the Fraser and Columbia emptying into the Pacific Ocean.

Hudson Bay is a large inland sea, having an area of 350,000 square miles. Including its two arms it has an extreme length north and south of 1,000 miles, and a width across the bay proper of about 600 miles.

The Bay of Fundy, 170 miles long, and from 30 to 50 miles wide, nearly separates Nova Scotia from New Brunswick, the connecting Isthmus of

Chignecto being about 15 miles wide.

The principal islands in Canada are Baffin Land, Prince Albert Land (which are the principal islands in the district of Franklin), Vancouver and Queen Charlotte Islands in British Columbia; Prince Edward Island, Cape Breton Island and Anticosti in the Gulf of St. Lawrence.

The climate varies greatly. The average mean temperature is—in Prince Edward Island, summer, 61.9 degrees F., and 19.5 in winter; New Brunswick, summer, 60 degrees, and winter 19.0; Nova Scotia, summer, 65.2, and winter 25.0; Quebec, 58.3 summer, and 15. winter; Ontario, 63.0 summer, and 19.8 winter; Manitoba, 60.1 summer, and 0.8 winter; British Columbia, summer 61, and winter 32.4.

In a general view Canada consists of the mountainous region of the west; the prairie country between the Rocky Mountains and Hudson Bay, and the woodland region comprising the provinces of Ontario, Quebec, New Brunswick and Nova Scotia. The width of these several belts, east and west is; Mountain, 600 miles; prairie, 1,000; woodland, 2,300.

The great spruce forest of Canada extends through all the eastern provinces, goes as far north as Ungava Bay on the east side of Hudson Bay, and as far north and north-west, on the west side of Hudson Bay as Coronation Gulf and the mouths of the Mackenzie River,—thus constituting one of the greatest pulp wood regions in the world.

Representative institutions were granted by the British government to Nova Scotia in 1758, to Prince Edward Island in 1773, to New Brunswick in 1785. Upper and Lower Canada were separated in 1791, each province receiving a Legislature. The Imperial Act creating the two provinces contained the germ of responsible government which was brought into active exercise in 1841, when the two provinces were re-united. Responsible government was definitely established in the province of Canada in 1847. It was granted by the Imperial Parliament to Nova Scotia and New Brunswick in 1848, to Prince Edward Island in 1851, and to British Columbia in 1871.

The North-west Territories were governed at first under the administration of the Lieutenant-Governor of Manitoba; then by a Lieutenant-Governor and Council nominated by the Dominion Government (Act 1880); then by a Lieutenant-Governor and Council, part elected and part nominated; then in 1888 by a Lieutenant-Governor and an Advisory Council of four persons selected from an elected Assembly of 22 members; then by a Lieutenant-Governor, an Executive and a Legislative Assembly, with powers the same as those conferred on the legislatures of the other provinces, excepting as to the borrowing of money on the sole credit of the province. Finally, by a Lieutenant-Governor and an Executive Council

selected by the Governor from the Assembly and re-elected, on accepting office, by the people, the latter arrangement having come into force on 1st October, 1897.

In the session of 1887 the districts of Assiniboia, Alberta, Athabasca and Saskatchewan were represented for the first time in the Dominion Parliament, four representatives in the House of Commons and two in the Senate being given to them.

The district of Yukon was constituted and declared to be a separate territory under the name of the Yukon Territory by Chap. 6, Acts of the Parliament of Canada, 1898, and amended by Chap. 11, Acts of 1899. The first commissioner was appointed by Order in Council, dated 4th July, 1898.

The first representative in the Federal Parliament was elected on Dec. 2nd, 1902, pursuant to Chap. 34, Act 2nd Edward VII.

The system of government established in Canada under the Union Act of 1867 is a Federal Union (the first of the kind in the British Empire) having (a) a general or central government controlling matters essential to the general development, the permanency and the unity of the whole Dominion, and (b) a number of local or provincial governments having the control and management of certain matters naturally and conveniently falling within their defined jurisdiction, while each government is administered in accordance with the British system of parliamentary institutions.

The chief executive government and authority is vested in the Sovereign, in whom is also vested the chief command of the militia and of all naval and military forces in Canada. His Majesty is represented by a Governor General, appointed by the King in Council but paid by Canada.

The Parliament of Canada consists of first, the Sovereign; 2nd, an Upper House, called the Senate; and 3rd, a Lower House, called the House of Commons.

The Governor General governs under the advice of a Council of Ministers, known as the King's Privy Council for Canada, which is responsible to the Parliament.

The Senate, as at present constituted, consists of 81 members, 24 each from Ontario and Quebec, ten each from Nova Scotia and New Brunswick, four each from Prince Edward Island and Manitoba, three from British Columbia, and two from the North-west Territories.

The House of Commons, which is elected by the people for a term of five years, consists at present of 213 members.

This number is fixed under the provisions of the Act of Confederation and the representation is arranged after each decennial census, by Act of Parliament, the basis being that the province of Quebec is always to have 65 representatives, and each of the other provinces such a number as will give the same proportion of representatives to its population as the number 65 bears to the population of Quebec as ascertained by the census. British Columbia, by the terms of the agreement made between the Dominion and province prior to the union, is never to have less than six members.

The number of representatives and the population to each member are as

Ontario       92       22,982         Quebec       65       22,900         Nova Scotia       20       22,520         New Brunswick       14       22,947         Prince Edward Island       5       21,815         Manitoba       7       21,786         British Columbia       6       16,296         North-west Territories       4       16,700         213       22,688         Well       (1002)       1       27,215	Provinces. The Electoral Franchise.

In addition to those of age, citizenship and sex (male of full age of 21 and a British subject) common to all voters in the provinces, the further qualifications of electors for Representatives in the House of Commons are regulated by Chap. 14, Act of 1898, which provides that the provincial franchises and provincial machinery shall be adopted, and that special disqualifications caused by the holding of federal offices shall be set aside.

In Ontario the qualification is practically residential manhood suffrage, the term of residence being, within the province 9 months and within the municipality from the time fixed for beginning to make up the assessment

rolls to the date of voting.

In Manitoba practically residential manhood suffrage, the term being 12 months within the province and 3 months within the electoral division.

In British Columbia practically residential manhood suffrage, the term

being 6 months in the province and 1 month in the electoral district.

In North-west Territories practically residential manhood suffrage, the term being 12 months within the territories and 3 months in the electoral district.

In the province of Quebec, qualifications for voter are ownership or occupancy of real property, position as teachers or clergymen after 5 months' domicile in electoral district; income or personal property of specified amount—real or real and personal, valued at \$300, \$200 and \$100 (fishermen). Income, rentiers, \$100; others \$300. Absentees in the United States may vote if they have returned with their families and have resided in electoral district 1 month before election day.

In Nova Scotia qualifications are ownership or occupancy of real property, valued at \$150; real and personal property or personal alone, \$300: widows' sons, \$150; fishermen, \$150; income, \$250, and residence of 12 months in

electoral district.

In New Brunswick qualifications are, ownership of real property valued at \$100, or personal and personal and real, \$400; position as clergymen, teachers or professors in colleges; income of \$400; residence in electoral district, the term of residence requisite being 12 months in electoral district next preceding the first day of May of the year in which the list is made up.

Prince Edward Island.—Full age, male, British subject by birth or naturalization. In the electoral district of Charlottetown Common and Royalty the owner of freehold estate, or actual possessor of one water lot, common lot, town lot or pasture lot, within the electoral district of the clear annual value of \$6, and in other electoral districts is owner or occupier of dwelling house, warehouse, shop or other building, or farm or piece of land within the electoral district of the clear annual value of \$6; having owned or occupied it for 6 months before the teste of the writ for holding the election; (2) or has performed statute labour on the public roads or commuted the same; having resided a twelvemonth in the electoral district; (3) or in the city of Charlottetown and the town of Summerside, has paid poll and civic tax for the year immediately preceding the election and has resided for a twelvemonth in the electoral district; (4) or is in actual occupancy of farm value at \$100.

The disqualifications (other than those of Federal officers) are:

Ontario.—Judges of Supreme Court of Canada and of Ontario, of Exchequer Court and County Courts; Clerks of the Peace, County Crown Attorneys, Registrars, Sheriffs and their Deputies, Deputy Clerks of the Crown, agents for the sale of Crown lands; Stipendiary Magistrates, Police Magistrates of cities of 30,000 inhabitants; imprisoned criminals, lunatics and paupers; Returning officers, election clerks, persons engaged as counsel, agents and solicitors or persons interested in the elections owing to pecuniary considerations promised or paid; unenfranchised Indians.

The Federal officers disqualified from voting in provincial elections in

Ontario are:

Postmasters in towns and cities.
Officers of the customs and excise.

Quebec.—Same as in province of Ontario and in addition collectors of provincial revenue and officers and men of the provincial police force; contractors till after 6 months from the close of their contracts with the Dominion or Provincial Governments; absentees (other than owners) if in the United States for a year and a day unless they have returned with their families for a month before election day, with intention to reside in province.

No Federal officers of the several departments are disqualified in the province of Quebec.

New Brunswick.—Judges of the Supreme Court of the province, the sheriffs (each in the county of which he is sheriff); criminals in jail; lunatics and paupers and Indians.

No Federal officers as such are disqualified.

Nova Scotia.—Judges of the Supreme Court, employees of the Crown land office and of local public works and mine office; paupers and all employees in receipt of wages, &c., within 15 days before election in the Customs, Inland Revenue, Government railway or post office, but not to extend to postmasters, post office keeper, way post keeper or mail courier.

Manitoba.—Judges of the Court of King's Bench and County Courts; Indians or persons of Indian blood receiving annuities; lunatics, idiots and prisoners, officials of the Dominion or the province, registrars, sheriffs, County Court clerks, baliffs in receipt of \$350 annually as such officers; regular soldiers and persons enrolled in military schools and all persons not

British subjects by birth who have not resided 7 years in the Dominion, unless they are able to read the Manitoba Act in either French, English, German, Icelandic or any Scandinavian language.

Voting in elections is by ballot. The North-west Territories, previously to 1894, had open voting; chap. 15 of Acts of 1894, changed that mode to the one adopted in all the other provinces.

No property qualification is demanded from a member of the Commons, nor is he limited to a residence in the district for which he is elected.

General elections are simultaneous throughout the Dominion of Canada. The number of voters on the voters' lists at the latest dates obtainable, 1887 and 1891 being added for purpose of comparison, is as follows:—

# CANADA.

Year.	Voters on Electoral	Incre	Proportion to		
	Lists.	Number.	Per cent.	Population.	
1887	993,914 1,132,201 1,353,735	180,012 138,287 221,498	22:40 13:81 19:57	21·49 23·43 27·04	

According to provinces, the number of voters on the lists in the years named was:—

# Number of Voters on the Electoral Lists (by Provinces).

Year.	Ontario.	Quebec.	Nova Scotia.	New Brunswick.	Prince Edward Island.	Manitoba.	North-west Territories.	British Columbia.

\* No Voters' lists in 1882; figures approximate.

<sup>†</sup> As provided by the several provinces for the Liquor Prohibition Plebiscite, held on September 29, 1898.

# General elections for House of Commons. \*\*\* No lists of voters; figures are those of actual votes.

The constitutions of the four provinces, viz., Ontario, Quebec, Nova Scotia and New Brunswick, which composed the Dominion in 1867 (when the Act of Confederation was passed), are the same in principle and details, except that Ontario and New Brunswick have only one chamber, a Legislative Assembly; the other two being bicameral. Of the provinces since created or admitted each has only one house, an elective Assembly.

In details the Dominion Parliament is closely copied.

The members of the Legislatures as well as the Members of Parliament are paid an indemnity for attendance.

Municipal institutions are general. In the complete form as adopted by Ontario, Manitoba, British Columbia and other provinces, the whole municipal organization comprises (a.) The townships, being rural districts of an area of eight or ten square miles; (b.) Villages with a population over 750; (c.) Towns with a population of over 2,000. Such of these as are comprised within a large district, called a county, constitute (d) the county municipality; (e) Cities are established from the growth of towns when their population exceeds 15,000.

The townships and villages are administered by a reeve and councillors; the towns by a mayor and councillors, and the cities by a mayor and aldermen. The governing body of the county municipality is composed of the members elected by districts containing one or more townships or villages, the presiding officer being styled warden.

By the Act of Confederation it is provided that the Governor General in Council shall appoint the judges of the Superior, District and County Courts, the salaries, allowances and pensions for whom are fixed by the Dominion Parliament.

The highest court in Canada is known as the Supreme Court of Canada. It has an appellate, civil and criminal jurisdiction in and throughout Canada. It has also appellate jurisdiction in controverted election cases, and may examine and report upon any private bill or petition for the same. It has jurisdiction in case of controversies between the Dominion and the provinces, and between the provinces themselves on condition that the Legislatures pass Acts agreeing to such jurisdiction. Under Act of the Canadian Parliament passed in 1891, the Governor in Council may refer to the Supreme Court for an opinion upon any matter which he deems advisable in the public interest.

The court is presided over by a chief justice and five puisne judges. From its decision an appeal lies by leave to the Judicial Committee of the Privy Council of England, except in criminal cases; in these the judgment of the Supreme Court is final.

The Exchequer Court, presided over by a single judge, possesses exclusive original jurisdiction in all cases in which demand is made or relief sought in any suit or action of the Court of Exchequer, on its revenue side, against the Crown or any of its officers. This court also possesses original jurisdiction in all cases in which it is sought to enforce any law relating to the revenue. It is also a Colonial Court of Admiralty.

The superior courts of the several provinces are constituted as follows:— Ontario—The Supreme Court of Judicature, consisting of two permanent divi ions called respectively the Court of Appeal for Ontario and the High Court of Justice for Ontario. The first division is composed of a Chief Justice and four puisne judges; the second is divided into three parts having concurrent jurisdiction, King's Bench, Common Pleas and Chancery, the first two of which are presided over by a Chief Justice and two judges for each, and the third of which is composed of a chancellor and three judges. Quebec-The Chief Justice of the King's Bench and five puisne judges, and the Chief Justice of the Superior Court and twenty-nine puisne judges, whose residences are fixed in various parts of the province. Nova Scotia and New Brunswick-The Chief Justice of the Supreme Court, the Judge in Equity and five and four puisne judges respectively. Manitoba— The Chief Justice and three puisne judges. British Columbia—The Chief Justice and four puisne judges. Prince Edward Island—The Chief Justice and two assistant judges. In the North-west Territories there are five puisne judges of the Supreme Court.

There are also county courts with variously limited jurisdiction in all the provinces, but not in the North-west Territories. Police magistrates and justices appointed by the provincial governments have their place in the administration of justice.

The Mounted Police Force in the North-west Territories constitute a tribunal of justice, the Commissioner and the Assistant Commissioner having all the powers of a stipendiary magistrate, and the superintendents being ex-officio justices of the peace.

Part of the unorganized territories came into possession of Canada by virtue of the Queen's Order of June 23, 1870 (see Statutes of Canada, 1872, p. lxiii) and part by virtue of the Queen's Order of 21st July, 1880 (see Statutes of Canada, 1881, pp. ix., x).

As to the portion of the unorganized territory which was by the Queen's Order of 23rd June, 1870, transferred to the Dominion, it may be taken that the law of England as it stood on 2nd May, (o.s.), 1670—the date of the Hudson's Bay Company's charter—applies, subject only to such ordinances as were enacted in references thereto by the Hudson's Bay Company.

With respect to the other unorganized territories, the title to which was acquired under the Queen's Order of 21st July, 1880, the Order itself states that such territory shall become and be subject to the laws for the time being in force in the Dominion in so far as they be applicable to such territories.

By Chap. 47, Federal Acts of 1899, offences committed in any part of Canada east of the province of Manitoba and the district of Keewatin and north of the provinces of Ontario and Quebec may be tried within the provinces mentioned, the provincial courts of criminal jurisdiction being constituted courts with competent powers.

The following is a list of the Governors General and Governors of the several provinces before confederation, together with the years of office.

(a) Quebec under the English from 20th July, 1629 to 13th July, 1632.
(b) Marquis de Tracy was the King's Lieut. General in America, and during the period was in Canada (30th June, 1665, to 28th August, 1667) he was virtually Governor of Canada.

1865.

Sir John Michel (Admin'r).

(c) Acting during captivity of La Jonquière.

James Monk (Admin'r). Sir Peregrine Maitland (Admin'r).

(d.) Although Amherst's name is usually placed first on the list of English Governors of Canada, it is well known that at the capitulation of Montreal he divided the Provinces into three Governments or Districts, for each of which he appointed a Governor, and that he himself very shortly afterwards left the country and did not return. The Lieutenant-Governors of these three Districts during what is commonly called the period of Military Rule, from 8th September, 1760, to 10th August, 1764, were:

District of Quebec: Gen. James Murray, September, 1760, to August, 1764
District of Three Rivers: Col. Ralph Burton, September, 1760, to May, 1762; Col.
Fred. Haldimand, May, 1762, to March, 1763 (Acting); Col. Ralph Burton, March, 1763, to
October, 1763; Col. Fred. Haldimand, October, 1763, to August, 1764.
District of Montreal: Gen. Thos. Gage, September, 1763, to October, 1763.

1819.

1820.

1710. Col. Saml. Vetch.	1829. Michael Wallace (Acting).
1713. Gen. Francis Nicholson. Col. Saml. Vetch (2nd time).	1832. Thomas Jeffrey (Acting).
1717. Col. Richard Philipps. (h)	1834. Sir C. Campbell.
1725. Lawrence Armstrong (LieutGov.)	1840. Lord Falkland.
1729. John Adams. (i)	1846. Sir J. Harvey.
1739. John Adams. (i) 1740. Major Paul Mascarene. (j)	1852. Sir John G. le Marchant.
1/40. Major Laur Mascarene. ())	1858. Earl of Mulgrave.
	1863. MajGen. Sir Hastings Doyle (Adm.)
	1864. Sir Richard G. Macdonnell.
	TOUT, ATH ATCHARG CT, MERCHONNELL.

1865. Gen. Sir Fenwick Williams.

(e.) Sir Guy Carleton was Lieutenant-Governor and Acting Governor General from 24th September, 1766, to 25th October, 1768.

(f.) From 1786 to 1867 the Governor at Quebec held also a commission as Governor of the Maritime Provinces, and (from 1791 to 1841) of Upper Canada, the Government of these provinces being administered by a Lieutenant-Governor, except during the presence in any province of the Governor General.

(g.) Acadie was held by the English from 1654 to 1670, for although the Treaty of Breda (1667) provided for its restoration to France it was not actually surrendered till

July, 1670.

(h.) Philipps appears to have remained Governor of Nova Scotia for several years,

Armstrong administering the Government till he died by his own hand in 1739.

(i.) Adams administered the Government after Armstrong's death from 6th December, 1739, to 22nd March, 1740.

(j.) Mascarene administered the Government as President of the Council from 22nd March, 1740, till 1748, when he took command as Lieutenant Governor and Commander-in-Chief in the absence of Philipps (See his letter to Secretary of State.)

Secretary of State	Hon. Sir Charles Tupper, Bart., G.C.M. G., C. B. Hon. G. E. Foster.	Jan. Jan.	15, 1896 15, 1896	
Minister of Railways and Canals.	Hon, J. G. Haggart	Jan.	15, 1896	
Minister of Trade and Commerce.	Hon. W. B. Ives	Jan.	15, 1896	
Minister of Justice	Hon. A. R. Dickey	Jan.	15, 1896	
Minister of Agriculture	Hon. W. H. Montague	Jan.	15, 1896	
Minister of Militia	Hon. A. Desjardins	Jan.	15, 1896	
Controller of Customs	Hon, J, F. Wood	Jan.	15, 1896	

The Honourable Sir Mackenzie Bowell, K.C.M.G., resigned his position as Premier and President of the Privy Council on 27th April, 1896, and the Honourable Sir Charles Tupper, Bart., G.C.M.G., C.B., was sent for by His Excellency and formed his Cabinet, it being the seventh Ministry, as follows:—

Sir Charles Tupper, Bart., Premier and Secretary of State. Hon. John Costigan, Minister of Marine and Fisheries.

Hon. G. E. Foster, Minister of Finance.

Hon. J. G. Haggart, Minister of Railways and Canals.

Hon. W. B. Ives, Minister of Trade and Commerce.

Hon. H. R. Dickey, Minister of Justice.

Hon. W. H. Montague, Minister of Agriculture.

Hon. A. R. Angers, President of the Council.

Hon. A. Desjardins, Minister of Public Works.

Hon. H. J. Macdonald, Minister of the Interior.

Hon. L. O. Taillon, Postmaster General.

Hon. D. Tisdale, Minister of Militia and Defence.

Hon. J. F. Wood, Controller of Customs.

Hon. E. G. Prior, Controller of Inland Revenue.

Sir Frank Smith, without portfolio.

Hon. D. Ferguson, without portfolio.

Hon. J. J. Ross (Speaker of the Senate), without portfolio.

Sir C. H. Tupper, Solicitor General, without seat in the Cabinet.

The General Elections took place on 23rd June, 1896, and the Tupper

Administration resigned 8th July.

Hon. Wilfrid Laurier was sworn in as first Minister, 11th July, and the other members of the Cabinet on 13th July, excepting the Minister of the Interior, who was sworn in on 17th November. This formed the eighth Ministry.

The following tables give the names of the Lieutenant-Governors of the several provinces; a list of the sessions of each Legislative Assembly, with the dates of the opening and closing, from the time each province, respectively, entered confederation; and the names of the present members of each Government.

# HIGH COMMISSIONER FOR CANADA IN LONDON.

Office-17 Victoria Street, London, S.W.

RT. HON. LORD STRATHCONA AND MOUNT ROYAL, K.C.M.G., P.C. (Appointed 24th April, 1896.)

SECRETARY--

## PREVIOUS HIGH COMMISSIONERS.

Name.	Date of Appointmens.
Hon. Sir Alexander T. Galt, G.C.M.G	11 30, 1883.

In January, 1887, Sir Charles Tupper resigned the High Commissionership, having accepted the position of Minister of Finance, which office he resigned in May, 1888, on being re-appointed High Commissioner. In January, 1896, Sir Charles Tupper resigned the position, having become Secretary of State, but continued to administer the office without the salary attached till the appointment of his successor.

A list is given below of the Sovereigns and Rulers of the principal countries of the world, together with the area, population and density of population:—

AREA AND POPULATION IN THE UNITED KINGDOM AND BRITISH POSSESSIONS.

Colonies.	Sovereigns.	Year of Census or Esti- mate.	Area in square miles.	Population.	Persons to the Square Mile

<sup>\*</sup> Including Alaska.

Prince Edward Island is the smallest of all the provinces, but it is more than twice as thickly populated as any other province, the proportion being 51.6 persons to the square mile. Nova Scotia comes next in density of population, with 22.3 persons. The following is the order in which the provinces stand, according to density of population, as ascertained by the census of 1901:—

#### DENSITY OF POPULATION IN CANADA.

Prince Edward Island	51.6	Quebec	4.8
Nova Scotia	$22 \cdot 3$	Manitoba	3.9
New Brunswick	11.8	British Columbia	0.4
Ontario	9.9	Provisional Districts	0.2

Canada..... 1.7

#### TREATIES.

In the Year Book of Canada for 1895, a digest was given of the Treaties relating to Canada made by our sovereigns with the rulers of other countries.

On 8th February, 1896, a convention was signed by Great Britain and the United States, providing for reference to two commissioners to determine the liability of the United States in respect to claims on account of injuries sustained by persons in whose behalf Great Britain is entitled to claim compensation under the provisions of the treaty between Great Britain and the United States, signed 29th February, 1892, concerning the jurisdictional right of the United States in the waters of Behring Sea and the preservation of the fur seal therein.

Mr. Justice Putnam, on behalf of the United States, and Mr. Justice King, on behalf of Canada, were appointed commissioners in July, 1896. The King of Sweden consented to act as umpire. The Dominion Parliament passed the necessary Act on 23rd April, 1896. The commissioners, after holding sessions in several cities, met in Boston, in December, 1897, and gave their award against the United States in the sum of \$463,454.

This amount was paid on 16th June, 1898.

On 30th July, 1897, the Government of the United Kingdom denounced the commercial treaties with Belgium and Germany which had been in force since 1862 and 1865, respectively. Under the treaties, a year's notice was required.

These treaties, therefore, ceased to be operative on 30th July, 1898.

British Treaties of Commerce affecting Canada are:

## (Arranged alphabetically.)

1825. Argentine Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1876. Austria-Hungary.—Reciprocal most-favoured stipulations. Applicable to British colonies and foreign possessions. Terminable one year after notice.

1840. Bolivia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1897. Bulgaria.—Reciprocal most-favoured nation stipulations. Applicable to Canada on her accepting. To remain in force till end of December, 1899. Canada declined to accede. O.C., Nov. 16, 1897.

1866. Columbia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable one year after notice.

1883. Corea.—Article X. stipulates that the government, public officers and subjects shall participate in all privileges, immunities and advantages, especially in relation to import or export duties on goods and manufactures, which shall then have been granted or may hereafter be granted by His Majesty the King of Corea to the government, public officers or subjects of any other power. Applicable to British colonies unless excepted by notice. May be modified one year after notice.

1849. Costa Rica.—For foreign affairs reciprocal most-favoured nation stipulations. Applicable to British territories and dominions. Terminable one year after notice. The Secretary of State received from the Minister for Foreign Affairs of the Costa Rican Republic a note denouncing Articles V., VI. and VII. of this treaty and these accordingly ceased and determined on 26th November, 1897. They related to the most-favoured nation stipulations.

1860-61. Denmark—Confirmed 1814. Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1860. Dominican Republic.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable on notice.

1893. Treaty with France, Paris.—Commercial agreement between the

United Kingdom (on behalf of Canada) and France.

Article I. provides that still wines less than 26 per cent alcohol shall be exempt from the surtax or ad valorem duty of 30 per cent. That the duty on common and castile soaps shall be reduced one-half, and the duty on nuts, almonds, prunes and plums by one-third.

Article II. provides that tariff advantages granted by Canada to a third

power shall be enjoyed by France, Algeria and French colonies.

Article III. provides that certain goods of Canadian origin shall be subject only to the minimum duty in France, Algeria and French colonies, viz.: Canned meat, condensed milk, fresh water fish, fresh lobsters and crawfish preserved in their natural forms, apples and pears, fresh or dried, preserved fruit, building timber, wood pavement, staves, wood pulp, tanning extract, common paper, prepared skins, boots and shoes, common furniture, except chairs, flooring of soft wood and wooden ships.

Hawaii.—See Sandwich Islands.

1848. Liberia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1865 and 1883. Madagascar.—Special stipulations Applicable to British dominions. No term fixed.

1856. Morocco.—Most-favoured nation clause in favour of British subjects. Applicable to British dominions. No term fixed.

1891. Muscat. Most-favoured nation clause in favour of British subjects, and duties not to exceed 5 per cent. Applicable to British colonies and possessions. Canada was excepted but acceded by Order in Council, 6th February, 1893. May be revised and amended after twelve years, on one year's notice.

1841 and 1857. Persia—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

Portugal.

(Imperial Blue Book Com. No. 17, 1893, says that the treaties of 1842 and 1882 have expired, but British trade continues to enjoy most-favoured nation treatment in Portugal.)

1859. Russia.—Reciprocal most-favoured nation stipulations, except Sweden and Norway. Applicable to British dominions. Terminable one year after notice.

TREATIES 65

1883. Siam.—Most-favoured nation clause in favour of any part of the British dominions for spirits, beer, wines, &c. Applicable to British dominions for spirits, beer, wines and spirituous liquors. Terminable after six months' notice.

1892. Spain.—By Royal Order of 29th June, 1892, Spain ordained that so long as the United Kingdom granted the most-favoured nation treatment, British goods imported into Spain should enjoy the benefit of being subject to the duties of the second column of the tariff.

1826. Sweden and Norway.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1855. Swiss Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1875. Tunis.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Revised in September, 1897, to continue to end of 1912. Six months' notice to be then given.

1825 and 1834. Venezuela.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

British treaties of commerce, from which Canada was excepted, unless by consent:

Egypt, 1889. Canada declined to accede. Order in Council, 7th September, 1891.

\*Greece, 1886. Canada declined to accede. Order in Council, 25th March, 1888.

Italy, 1883. Canada declined to accede. Order in Council, 15th September, 1883.

Japan, 1894. Canada declined to accede.

Mexico, 1888. Canada declined to accede. Order in Counçil, 22nd May, 1889.

†Muscat, 1892. Canada acceded. Order in Council, 6th Feb., 1893.

Paraguay, 1884. Canada declined to accede. 27th December, 1886.

Rumania, 1892. Canada declined to accede. Order in Council, 8th May, 1893.

Salvador, 1886. Canada declined to accede. Order in Council, 27th December, 1886.

Servia, 1893. Canada declined to accede. 9th March, 1894.

Uruguay, 1885. Canada declined to accede to renewed Treaty. Order in Council, November 4, 1899.

‡Zanzibar, 1886. Canada did not accede.

†Particulars of the treaty with Muscat, to which Canada has acceded, will be found in the list of Treaties of Commerce now applicable to Canada.

5

<sup>\*</sup>The Imperial Blue Book. Commercial No. 17, 1893. Reply not yet received from Canada.

<sup>‡</sup>No notification of the treaty with Zanzibar was, apparently, received from the Imperia authorities.

#### EXTRADITION TREATIES.

Extradition proceedings in Canada are governed by "The Extradition Act," chapter 142 Revised Statutes of Canada, 1886.

This Act applies to any foreign state with which there is an extradition

arrangement, but so as not to contravene such arrangement.

If the Imperial Extradition Act of 1870 is made subject to any limitation by such arrangement, this Act shall be subject to the same limitation. Judges of the Superior and County Courts, and commissioners appointed

for the purpose, have power to act.

A warrant being issued for the fugitive, the judge is to receive evidence as to the charges and as to whether the offence is not an extraditable crime or of a political character, for which he cannot be surrendered. After committal, the fugitive may be surrendered after fifteen days.

In case of the extradition of a Canadian fugitive by a foreign State, he cannot be prosecuted or punished for any prior offence not of a nature

included in the extradition arrangements with the State in question.

The extradition crimes contained in a schedule to the Act are: Murder, or attempts and manslaughter; counterfeiting and forging, larceny, embezzlement, obtaining value under false pretenses, crimes against bankruptcy, or insolvency law, criminal frauds by agents, trustees, &c.; rape, abduction, child-stealing, kidnapping, false imprisonment, burglary, arson, robbery, threats to extort, perjury and subordination; piracy and various other crimes at sea. Criminal accessories are included.

The Imperial authorities, by Order in Council, exempt Canada from the operation of the Imperial Extradition Acts of 1870 and 1873, so long as

the Canadian Extradition Act remains in force.

The following are the countries with which the United Kingdom has extradition arrangements which apply to Canada:—

Austria Hungary       Dec. 3, 1873         "       June 26, 1901         Belgium. The treaties made by Canada with the Indian tribes are contained in "Treaties of Canada with the Indians of the North-west, 1880," by Hon. A. Morris, and in "Indian Treaties and Surrenders," Department of Indian Affairs, Ottawa. A digest of these was given in the Year Book of 1895.

There is a very large area of land throughout Canada available for settlement, either for agricultural or for mining purposes, the disposition of which is in the hands of the Dominion Government and of the several Provincial Governments, according to situation. These lands are known generally as "Crown Lands."

The Crown Lands of the Dominion, commonly called Dominion Lands, are situated in Manitoba, the Territories, and what is known as the Railway Belt in British Columbia, and comprise some of the finest agricultural lands on the continent. In order to provide every facility for information to immigrants and settlers, land agencies are situated at the most convenient

points, where the fullest details can be obtained.

Under an Order in Council passed 25th November, 1885, a large tract of land, inclosing several hot mineral springs at Banff, Alberta, was set apart as a national park to be known as "Rocky Mountains Park of Canada." Under an Order in Council passed 10th October, 1886, certain other reservations in the Rocky Mountains were also made for park purposes. These Orders in Council were passed under authority of provisions contained in the "Dominion Lands Act," respecting the reservation of public lands for park purposes, but the reservation of the Rocky Mountains Park was confirmed and particularly defined by the "Rocky Mountains Park Act, 1887,"

<sup>+</sup> Tonga subjects escaping to British Territories only.

chap. 32 of 50-51 Vic., and its boundaries extended by chap. 31, Acts of 1902. Since its reservation many improvements have been completed in the park; roads have been made, bridges built, burnt timber and brushwood removed, buildings erected at the Hot Springs at the "Cave and Basin," for the convenience of bathers and other visitors; and lately a museum which already contains an interesting collection of 1,339 articles, found within the park or elsewhere in the Rocky Mountains, has been added to the attractions of this park. The majority of visitors call at the Cave and Basin, and in 1898, of those who registered there, 1,366 were Canadians, 721 were from the United States, 280 from England, Scotland and Ireland, and the remainder from France, Germany, India, Australia, China, Japan and other countries. For the year 1899, the number was 2,775, of whom 1,491 were Canadians, 765 from the United States, 317 from England, Scotland and Ireland, and the remainder from other countries. For the year 1900 the number was 2,702, of whom 1,515 were Canadians, 805 from the United States, and 229 from England, Scotland and Ireland—the remainder from other countries. The total number of visitors to the park during the year 1900 was about 7,000. The total number of visitors to the park for the year ended the 30th June, 1901, was 8,156. The total number of visitors to the park for the year ended the 30th June, 1902, was 9,473.

By Order in Council of the 14th December, 1901, published in *Canada Gazette* of 8th February, 1902, a large tract of land near Field, B.C., was set aside as a Dominion Park Reserve, to be known as the Yoho Park

Reserve.

The following are the comparative figures for the last twelve years of transactions in Dominion Lands. The pre-emption system was terminated on 1st January, 1890.

		1891.	1892.	1893.	Depart- mental Year, 1894.	Calendar Year, 1894.	10 months ended Oct. 28, 1895.
Homesteads.		Acres. 563,680 189,704	Acres. 774,400 62,800	Acres. 650,720 46,873	Acres. 513,440 18,578	Acres. 507,840 18,275	Acres. 338,240 27,436
	12 months ended Oct. 31, 1896.	Calendar Year, 1897.	Calendar Year, 1898.	Calendar Year, 1899.	Calendar Year, 1900.	Calendar Year, 1901.	Calendar Year, 1902.
Homesteads Sales	Acres. 297,760 28,395	Acres. 381,440 22,336	Acres. 775,680 47,186	Acres. 1,070,240 45,502	Acres. 1,255,680 63,352	Acres. 1,457,280 93,889	Acres, 3,554,400 127,133

The annual average number of acres taken up during the period 1891–9 was 638,052 acres. In 1901, the number was more than double the average of 1891–9, and in 1902 it was more than five times that average

The following statement shows the number of homestead and pre-emption entries reported in each year from 1874, and the number and proportion of

those entries which have been cancelled for non-fulfilment of the conditions of entry.

			Но	MESTEADS	8.	PRE-EMPTIONS.

The Canadian North-west Irrigation Company has large landed properties in the neighbourhood of Lethbridge, under a canal system embracing 115 miles of main waterways, the construction of which has aided materially in developing the resources of the district. Amongst the projects now under

construction is a beet sugar factory of large capacity together with roller mills and elevators, all of which will add to the earning capabilities of the lands tributary to the company's canal.

Inquiries addressed to the company's offices, Lethbridge, Alberta, will

receive prompt attention.

In the session of 1894, an Act was passed entitled the "North-west Irrigation Act." This Act has been so framed as to provide for careful supervision, by the Government, of the first distribution, and the subsequent supervision of the available water supply in the arid region. Some of the provisions under which the control is so exercised are departures from the methods heretofore adopted on this continent, but those best qualified to judge speak of the system adopted as calculated to establish irrigation enterprises upon sound basis.

At the close of the season of 1901, there were 169 irrigation ditches and canals in operation in southern Alberta and western Assiniboia, with a length of 469 miles. These have a carrying capacity sufficient to irrigate 614,684 acres. Number of water rights recorded for domestic, power and other purposes, 127. The results which have followed have been most encouraging. There is now no reason to doubt that through irrigation a large portion of Assiniboia and Alberta will be rendered fruitful every year, and the element of uncertainty caused by variations in the rainfall altogether eliminated from the calculations of those engaged in extensive agricultural operations.

The Deputy Minister of the Interior reports that during the year 1901 there was an unusually heavy rainfall, so that irrigation was not resorted to in many districts where crops during dry years cannot be successfully

raised without the artificial application of water.

The Provincial Crown Lands are situated within the limits of the several provinces, and are controlled by the respective governments, from whom particulars of transactions concerning them can always be obtained. Summaries of the regulations for the disposition of Dominion Lands, Provincial Lands and the lands belonging to the principal railway companies who have received land subsidies in Manitoba and the North-west Territories are given below.

#### LAND REGULATIONS.

Under the Dominion Lands Regulations, all surveyed even-numbered sections (excepting 8 and 26) in Manitoba and the North-west Territories, which have not been homesteaded, reserved to provide wood lots for settlers, or otherwise disposed of or reserved, are to be held exclusively for homesteads.

Homestead Entry for one quarter section (160 acres) of surveyed agricultural land, open to such entry, may be obtained by any person who is the sole head of a family, or by any male who has attained the age of eighteen years, on application to the local agent of Dominion Lands, and on payment of an office fee of \$10.

The homesteader must perfect his entry by beginning actual residence on his homestead and cultivation of a reasonable portion thereof, within six months from the date of entry, unless entry shall have been made on or after the first day of September, in which case residence need not commence until the first day of June following, and is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the conditions connected therewith, under one of the following plans:—

(1.) At least six months' residence upon and cultivation of the land during

the term of three years.

(2.) If the father (or the mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3.) If a settler has obtained a patent for his first homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead.

(4.) If the settler has his permanent residence upon farming lands owned by him in the vicinity of his homestead the requirements of this Act as to

residence may be satisfied by residence upon the said land.

In the event of a homesteader desiring to secure his patent within a shorter period than the three years provided by law, he will be permitted to purchase his homestead at the Government price at the time of entry, on furnishing proof that he has resided on the land for at least twelve months from the date of his perfecting his homestead entry, and that he has

brought at least thirty acres thereof under cultivation.

The Government make no advance of money to settlers, but for the better encouragement of bona fide settlement, in cases where any person or company is desirous of assisting intending settlers, when the sanction of the Minister of the Interior to the advance has been obtained, the settler has power to create a charge upon his homestead for a sum not exceeding six hundred dollars, and interest not exceeding 8 per cent per annum, provided the particulars of the expenditure of such an advance for his benefit be first furnished to and acknowledged by the settler and verified by the local agent, homestead inspector, or other agent, appointed by the Minister of the Interior; or if the charge be made previous to the advance, then such charge shall only operate to the extent certified to by the local agent, homestead inspector or other agent as having been actually advanced to or expended for the benefit of the settler. The advance may be devoted to paying the cost of the passage of the settler, paying for the homestead entry, providing for the subsistence of the settler and his family, erecting and insuring buildings on the homesteod, and breaking land and providing horses, cattle, furniture, farm implements, seed grain, &c.

For the further protection of the settler, it is provided that the time for payment of the first instalment of interest on any such advance shall not be earlier than November 1 in any year, and shall not be within less than two years from the establishment of the settler upon the homestead, and also that the settler shall not be bound to pay the capital of such advance within a less period than four years from the date of his establishment on

the homestead.

The odd numbered sections are at present reserved for the purpose of being granted as land subsidies in aid of the construction of colonization railways in Manitoba and the North-west Territories, except in special cases otherwise ordered by the Minister of the Interior.

Payments for land may be made in cash or by such scrip as has been

issued by the Department of the Interior for that purpose.

A homestead settler, whose land is destitute of timber, may, upon payment of an office fee of 25 cents, procure from the Crown Timber Agent a permit to cut the following quantities of timber free of dues: 3,000 lineal feet of building timber, 400 roof poles, 500 posts and 2,000 fence rails. Any settler may obtain a permit, on payment of same fee, to cut dry timber for fuel or fencing for his own use.

In cases where there is timbered land in the vicinity available for the purpose, the homestead settler, whose land is without timber, may purchase

a wood lot, not exceeding in area twenty acres.

Licenses or permits to cut timber on surveyed or unsurveyed lands are

granted, after competition, to the highest tenderer.

The price per acre for coal land is: For land containing lignite or bituminous coal, \$10, and for anthracite coal, \$20. The land may be sold by

public competition or to the applicant.

When two or more parties apply to purchase the same land, tenders may be invited between the applicants, or it may be sold by public competition, by tender or auction, as may be deemed expedient, at the upset price of coal lands. A royalty of 10 cents per ton of 2,000 lbs is collected on the coal mined.

Leases of grazing lands in Manitoba and the North-west Territories may be granted at an annual rental of two cents per acre. Leases shall be for a period not exceeding twenty-one years, and no single lease shall cover a

greater area than 100,000 acres.

The lessee is obliged, within each of the three years from the date of granting of the lease, to place upon his leasehold not less than one third of the whole amount of stock which is required to place upon the tract leased, namely, one head of cattle for every twenty acres of land covered by the lease, and shall, during the rest of the term, maintain cattle thereon in that proportion.

After placing the prescribed number of cattle upon his leasehold, the lessee may purchase land within the tract leased for a home, a farm or corral.

Any portion of the land forming a grazing leasehold, unless otherwise provided in any lease thereof, is open for homestead or purchase from Government at the price obtaining in the class in which the lands are situate; and in the event of such settlement or sale, the lease (if any) to be void in

respect of such lands so entered or purchased.

On April 3, 1889, judgment was given by the Judicial Committee of the Privy Council, declaring that the right to administer the minerals within the railway belt in British Columbia was vested in the government of that province. In order to dispose of the anomalous condition of affairs that consequently arose, viz., that the jurisdiction over the lands was vested in the Dominion Government, and the right to administer the minerals in that of the province, the following arrangement, ratified by Order in Council of February 28, 1890, was agreed upon between the two governments:—

No disposition of lands containing minerals (except coal lands) shall be made by the Dominion Government other than by patent in fee simple, thereby bringing the minerals at once under the administration of the pro-

vincial mining laws.

All lands containing minerals (except coal lands and Indian reserves) offered for sale by the Dominion Government, shall be open for purchase by

the Provincial Government at the price of from \$1 to \$5 per acre.

Any land sought to be acquired by the Provincial Government under the last clause shall be set apart from alienation by the Dominion, upon the Provincial Government making a written application for the same. Such lands to be surveyed (if not already done) by a Dominion land surveyor, at the expense of the Provincial Government.

Nothing in the agreement shall apply to coal lands.

The agreement may be terminated at any time by either government.

All minerals, including gold and silver, within Indian reserves, shall be administered by the Department of Indian Affairs.

#### ONTARIO.

Agricultural lands can be obtained from the Crown by actual settlers only, subject to conditions as to improvements and residence before the issue of the patent. In some districts free grants of land are offered, and in others the land is for sale at the uniform price of 50c. per acre. In Nipissing district including the Temiskaming townships in the Eastern part of New Ontario, in Algoma, in the middle west and in Wabigoon or Dryden further to the west the land is for sale in lots of 160 acres, but in case a portion is rough and broken the quantity may be increased so as not to exceed 240 acres. The settlement conditions to be fulfilled before a title is granted are the erection of a habitable house 16 x 20 ft. at least and the clearing of 10 per cent of the land. There are slight differences in the several localities as to the time allowed for the payment of the purchase money and the number of years residence required on the land before the issue of the patent.

The Temiskaming region possesses the largest continuous area of firstclass land of all the sections now open for settlement. The thirty-three townships thus far thrown open to settlers extend in a north-westerly direction from Lake Temiskaming. The settlement will shortly be closely connected with the leading markets of the Dominion by the opening up of rail-

way communication by way of North Bay.

The fertile area of the Wabigoon country, situated almost in the centre of the Rainy River district, comprises nine townships having a total area of about 234,000 acres in addition to a large area of good land yet unsurveyed. The Canadian Pacific Railway runs through this tract for about 40 miles.

The Free Grant system prevails in Muskoka, Parry Sound and Thunder Bay districts, and in the Rainy River Valley the quantity obtainable by one individual varying from 100 to 160 acres. In the Rainy River Valley where townships have been surveyed for settlement with an area of about 600,000 acres, the limit of a grant is 160 acres, but the head of a family locating is entitled to purchase an additional 80 acres at \$1 per acre. A single male settler may be located for 120 acres and purchase an additional 80 acres on the same terms. The settlement duties in this district include the clearing of 15 acres during 3 years with the building of a house and continuous residence during that period, and similar provisions with some variations are in force in all the free grant districts.

In Thunder Bay district the locatee of a free grant of 160 acres may purchase another 160 acre lot at 50 cents per acre and the settlement regulations require 5 years residence to acquire a patent. Fuller particulars may be obtained on application to the Commissioner of Crown Lands, Toronto.

#### QUEBEC.

On June 30, 1902, about 6,623,507 acres of land have been surveyed by

the Government of Quebec for sale.

Lands purchased from the government are to be paid for in the following manner:—One-fifth of the purchase money is required to be paid the day of the sale, and the remainder in four equal yearly instalments, bearing interest at 6 per cent. But the price at which the lands are sold is so low—from 20 cents to 60 cents per acre (10d. to 2s.  $5\frac{1}{2}$ d. stg.)—that these con-

ditions are not very burdensome.

The purchaser is required to take possession of the land sold within six months of the date of the sale, and to occupy it during two years from the date of the sale. He must clear and have under crop, in the course of four years, ten acres for every hundred held by him, and erect a habitable house of the dimensions of at least 16 feet by 20 feet. The letters patent are issued free of charge. The parts of the province of Quebec now inviting colonization are the Lake St. John district, the valleys of the Saguenay, St. Maurice and Ottawa Rivers, the Eastern Townships, the Lower St. Lawrence, Lake Temiscamingue, Gaspé and Metapedia Valley.

The Temiscamingue settlement, at the head of Lake Temiscamingue on the Upper Ottawa, consists of a level tract of many thousands of acres of

rich calcareous clay.

#### OTHER PROVINCES.

There are now in Nova Scotia about 1,500,000 acres of ungranted lands, a considerable quantity of which is unsuited for cultivation. Most of the best land has been granted and is now occupied, but a very large area of the province has been granted for lumbering purposes, and is now being used

by lumbering establishments.

The price of Crown lands is \$40 per 100 acres. Until April, 1764, the only reservations of minerals on Crown lands were gold, silver, precious stones and Lapis Lazuli. From 1764 to 1807 the mineral reserves included gold, silver, Lapis Lazuli, precious stones, lead, copper and coal. After 1807 the reserves included coal, gold, silver and other mines and minerals. After 1808 iron was reserved. In 1892 it was provided that all minerals and ores should be reserved, excepting limestone, plaster and building materials.

In 1899 it was provided by statute that lands for lumbering purposes should be leased instead of granted absolutely. The lease to be for 20 years with right to renew for another 20 years. Price of lease, 40 cents per acre

and 40 cents per acre upon renewal.

If the lease is for the cutting of pulp wood which enables the lessee to cut timber not less than five inches in diameter, the charge is 50 cents per acre rented. Timber leases at 40 cents per acre only permit the cutting of

timber 10 inches or more in diameter.

In 1901 a provision was made requiring all leases to contain a proviso that the Government may at any time during the term of the lease, grant any portion of the land so leased, not exceeding 200 acres, to any one who satisfies the government that he proposes to become a bona fide settler, erect a dwelling and cultivate and improve the land so granted. Upon

such grant being issued the Department of Crown Lands is to refund to the lessee the amount of 40 cents or 50 cents per acre, as the case may be, for the number of acres of land so granted.

It is estimated that there are about 7,000,000 acres of ungranted lands

in New Brunswick.

Crown lands may be acquired for actual settlement as follows:—

(1.) One hundred acres are given to any settler over eighteen years of age, not owning other land, who pays \$20 (£4) in cash, or doeswork on the public roads, &c., equal to \$10 (£2) per annum for three years. Within two years a house 16 by 20 feet must be built and 2 acres of land cleared. Continuous residence for three years from date of entry, and the cultivation of 10 acres in that time are required.

(2.) Single applications may be made for not more than 200 acres of Crown lands without conditions of settlement. These are put up at public auction at an upset price of \$1 per acre. Purchase money to be paid with application. Cost of survey to be paid by purchaser. The above sections apply only to land fit for agricultural purposes. Lands well timbered are not

sold outright.

Any person being the head of a family, a widow or a single man over eighteen years of age, and a British subject, or an alien purposing to become a British subject, can pre-empt 160 acres of land belonging to British Columbia, west of Cascade Mountains, or 320 acres east of these mountains, at \$1 per acre. Two months' leave of absence under the Land Act, and an additional four months for sufficient cause, when applied for to the Commissioner, can be had in each year till the Crown deed is obtained. A certificate of improvement showing that the claim has been improved to the extent of \$2.50 per acre is necessary before a Crown deed can be issued. Timber and hay lands may be leased from the government. Timber lands pay a yearly rental and a royalty of 50 cents per 1,000 feet of all logs cut. Leases of land for other purposes may also be granted by the Chief Commissioner.

There are about 25,000 acres of vacant government lands available in Prince Edward Island, consisting of lands of medium or poor quality, and averaging in price from 25 cents to \$1 an acre.

#### RAILWAY LANDS.

The Canadian Pacific Railway lands consist of the odd-numbered sections along the main line and branches and in the Lake Dauphin district in Manitoba and in Northern Alberta. These lands are for sale at the agencies of the company in Manitoba and the North-west Territories at the following prices:

Lands in the province of Manitoba and in Assiniboia east of the 3rd

Meridian \$3 to \$10 an acre.

Lands west of the 3rd Meridian \$3 to \$6 per acre.

If full payment is made at the time of purchase a discount of ten per cent on five-sixths of the purchase money is allowed. Lands for immediate settlement may be purchased with a cash instalment of a little more than one-tenth and nine equal annual instalments, including interest at the rate of six per cent. The payments for 160 acres at \$5 per acre on the settlement plan are cash \$119.85, and nine equal annual instalments of \$100 each, including interest.

Purchasers who do not undertake to settle upon the land within one year are required to pay one-sixth of the purchase money down, the balance in five equal annual instalments with interest at six per cent.

Liberal rates for settlers and their effects are granted by the company

over their railway.

The unsold portion of the land grant of the Manitoba South-western Colonization Railway Company about 400,000 acres, is situate along the International boundary from range 13 in Manitoba to the western boundary of the province and in Southern Alberta. The terms of purchase are the same as those of the Canadian Pacific Railway Company, but in addition to the price the purchaser pays ten cents per acre to defray the cost of surveying the land, this amount being paid over to the government by the company.

The lands of the Columbia and Kootenay Railway and Navigation Company, the British Columbia Southern Railway Company and the Columbia and Western Railway Company are administered by the Canadian Pacific Railway Company. These lands are situated in the favoured district of Yale and Kootenay, and are sold at prices ranging from \$1 to \$5 an acre on terms similar to those governing the sale of the Canadian Pacific Rail-

way lands.

The Qu'Appelle, Long Lake and Saskatchewan Railway Company's land grant consists of about 1,450,000 acres of land in the Saskatchewan district. The railway runs through the district, connecting with the Canadian Pacific Railway at Regina. Information regarding the lands can be obtained at the company's offices in Winnipeg or from the Saskatchewan Valley Land Company of 305 Jackson Street, St. Paul, Minnesota, who have purchased a large quantity of above lands.

The Calgary and Edmonton Railway Company's land grant consists of about 1,481,000 acres in Alberta. Information can be obtained at the

company's land office at Winnipeg.

## APPOINTMENTS TO THE SENATE.

Hon. James E. Robertson, M.D., Prince Edward Island, Feb. 8, 1902.

Charles E. Church, Nova Scotia, Feb. 8, 1902.

Frederick P. Thompson, New Brunswick, Feb. 8, 1902.

James McMullen, Ontario, Feb. 8, 1902. Frédéric L. Béïque, Quebec, Feb. 11, 1902. William Gibson, Ontario, Feb. 11, 1902.

#### NECROLOGY.

Hon. Mr. Justice Gwynne, Supreme Court of Canada, Jan. 7, 1902.

R. R. Dobell, M.P., Jan. 11, 1902.

Samuel Prowse, Senator, Prince Edward Island, Jan. 14, 1902. Marquis of Dufferin and Ava, Feb. 12, 1902.

Hon. A. M. Déchêne, Senator, Quebec, May 1, 1902.

W. B. Scarth, Deputy Minister of Agriculture, May 15, 1902.

#### NECROLOGY—Concluded.

Hon. F. Clemow, Senator, Ontario, May 28, 1902.

Angus McIsaac, Judge, June 12, 1902.

E. H. Horsey, M.P., July 23, 1902.

Thos. Christie, M.D., M.P., Aug. 5, 1902.

Hon. Joseph Royal, Aug. 24, 1902.

Sir John G. Bourinot, K.C.M.G., Clerk of House of Commons, Oct. 13, 1902. G. R. Maxwell, M.P., Nov. 18, 1902.

Angus McLeod, M.P., Nov. 19, 1902.

Hon. John O'Donohoe, Senator, Ontario, Dec. 6, 1902.

Clarence Primrose, Senator, Nova Scotia, Dec. 23, 1902.

Joseph Armand, Senator, Quebec, Jan. 1, 1903.

Lachlan McCallum, Senator, Ontario, Jan. 13, 1903.
A. T. Wood, Senator, Ontario, Jan. 21, 1903.

#### BY-ELECTIONS, HOUSE OF COMMONS.

## ROYAL EXCHANGE COLONIAL EXHIBITION, 1902.

The Royal Exchange Colonial Exhibition comprised colonial exhibits that had been at Glasgow the year previous. It was opened by the Lord Mayor of London in state on March 10 and closed on May 3. The Canadian

CENSUS 81

exhibit covered one-half of the available area and consisted principally of minerals, forestry, food products, fruit (natural and in antiseptics), and a small agricultural display. It was non-competitive and solely gotten up as a means of educating the average city man as to the possibilities and resources of the colonies. It was a great success.

# WOLVERHAMPTON ART AND INDUSTRIAL EXHIBITION, 1902.

The Wolverhampton Art and Industrial Exhibition, which was open for about six months, was opened on May 1 by H.R.H. the Duke of Connaught and remained open till November 8. Canada was the only country represented officially, and the exhibit was contained in a building erected by the Canadian Government for its own use. The principal features were agriculture, horticulture, food products, forestry and minerals. The exhibition was non-competitive. The Canadian portion was the best there and caused many enthusiastic and favourable comments.

#### CORK INTERNATIONAL EXHIBITION, 1902.

The Cork International Exhibition was open from May 1 to November 1, a period of six months, and while international in name it was not so in character, for although there were many stallholders of different nationalities, Canada was the only country officially represented. The Canadian exhibit was in a separate building erected by the Canadian Government for the purpose, and consisted principally of agriculture, horticulture, food products, forestry and minerals. The display was much admired, many competent and favourable opinions being offered, such as the following from a very prominent Irish Parliamentarian: 'In my opinion the Canadian Pavilion is one of the chief attractions of the Cork Exhibition.' There were no awards.

#### CENSUS.

The Census of 1901, taken according to the *de jure* system, gives the following results. For the purposes of comparison the electoral districts of 1901 have been taken as the basis, and the electoral districts of previous censuses rearranged so that the development or decrease in population in

each district can be compared.

The first column gives the names of the electoral divisions; the second the population as ascertained by the census of 1901; the third the percentage of increase or decrease of population in 1901, as compared with the population in the same boundaries in 1891; the fourth gives the population of 1891, and the fifth the percentage of development or diminution in each electoral district when compared with the population in the same boundaries in 1881. The sixth column gives the population of 1881 by electoral divisions within the same boundaries as those of 1891 and 1901, and the seventh column gives the percentage of increase or decrease in 1881 compared with 1871.

CENSUS 87

# POPULATION OF CITIES AND TOWNS OF 5,000 AND ABOVE.

The following are the cities and towns of the Dominion of Canada having, according to the census of 1901, a population of 5,000 and upwards. For purposes of comparison the populations by the previous census-takings are given. Wherever necessary the annexations of territory have been taken into account, so as to give for each census-taking as exact a comparison as is possible.

## POPULATION OF CITIES AND TOWNS OF 5,000 AND ABOVE—Concluded.

	1871.	1881.	1891.	1901.
St. Catharines. Toronto Junction Truro. Valleyfield Vancouver Victoria Westmount. Windsor Winnipeg Woodstock, Ont. Yarmouth	1,800 3,270 200 4,253	9,631 3,461 3,906 5,925 884 6,561 7,985 5,373 3,485	9,170 5,102 5,515 13,709 16,841 3,076 10,325 25,639 8,612 6,089	9,946 6,091 5,998 11,055 26,133 20,816 8,856 12,153 42,340 8,833 6,430

With regard to the division of the population into rural and urban, some divergence of opinion exists as to the proper standard. Taking the unit of 4,000 inhabitants as that which constitutes an urban population, the Dominion had—

******	1901.	1891.		Per Cent	Ркорог	RTION.
			Actual.	1901.	1901.	1891.
Urban Rural	1,403,497 3,967,818	1,095,344 3,737,895	308,153 229,923		26·12 73·88	22·67 77·33
Total	5,371,315	4,833,239	538,076	11.12	100.00	100.00

By Provinces the rural and urban elements, on the basis of 4,000 as the unit dividing city from country life, are expressed satisfactorily as follows:—

	1901.	1891.	Рворо	RTION.
	1001,	1001.	1901.	1891.

<sup>\*</sup> Including Yukon.

In the United States the urban population holds a much stronger position than in Canada.

For the whole of the United States on the same basis of 4,000 as the lowest unit of urban life, the percentage of urban to total population is 37.3 against Canada's 26.12.

Utah with 29.4 and Ontario with 29.14 approach each other. Montana with 28.8, Wyoming with 28.8 and Quebec with 28.9 are close together.

The nearest to Nova Scotia and New Brunswick are Kansas with 19·2 and Kentucky with 19·7. Prince Edward Island and South Carolina, which has 11·7, are very close to each other in their proportion of urban population.

Colorado with 41·2 and Michigan with 37·2 are the nearest to British Columbia, and Manitoba like Nova Scotia resembles Kansas and Kentucky.

In New York state the urban population is 71·2 per cent of the whole population of the State. In Massachusetts it is 86·9 per cent and in Rhode Island, 91·6.

In 1891 the returns showed that Ontario had given 11,658 of her sons and daughters to the up-building of British Columbia, 46,620 to Manitoba and 13,594 to the Territories.

In 1901 the Ontario born dwellers in the west were, British Columbia, 23,642, Manitoba, 67,566 and the Territories, 30,243. In all 121,451 in 1901 against 71,872 in 1891.

In the same years Ontario sent to the eastern provinces, 1891, 16,728 and 1901, 21,888.

During the ten years, 1891-1901, the province of Ontario contributed (not counting persons who died) 54,739 persons to the population of the other provinces, or an average of 5,474 a year.

Quebec had given to British Columbia in 1891, 2,567 of her sons and daughters, increased in 1901 to 4,329; to Manitoba in 1891, 7,555, increased in 1901 to 8,492; to Ontario in 1891, 58,772, increased in 1901 to 61,776; to North-west Territories in 1891, 1,829, increased in 1901 to 5,504. In the same years Quebec sent to the Eastern Provinces, 1891, 4,364, increased to 5,374 in 1901.

Nova Scotia had given to New Brunswick by the Census of 1891, 5,527, the figures of 1901 show a decrease of 449, the total being 5,078; to Prince Edward Island in 1891, 1,950, decreased in 1901 to 1,433; to Quebec in 1891, 1,402, increased in 1901 to 1,540; to Ontario in 1891, 4,659, decreased to 3,012 in 1901; to Manitoba in 1891, 1,402, increased in 1901 to 1,536; to British Columbia in 1891, 2,656, increased to 4,603 in 1901; to the Territories in 1891, 879, increased to 1,739 in 1901.

New Brunswick had given by the Census of 1891, to Nova Scotia, 5,522, increased to 6,822 in 1901; to Prince Edward Island, 1,008, decreased to 691 in 1901; to Quebec, 1,511, increased to 2,101 in 1901; to Ontario, 2,763, decreased to 2,304 in 1901; to Manitoba, 718, increased to 820 in 1901; to British Columbia, 1,767, increased to 2,839 in 1901; to the North-west Territories, 406, increased to 1,025 in 1901.

Prince Edward Island had given by the census of 1891 to Nova Scotia, 1,694, increased to 2,484 in 1901; to New Brunswick, 2,718, increased to 2,740 in 1901; to Quebec, 497, increased to 740 in 1901; to Ontario, 813, increased to 884 in 1901; to Manitoba, 234, increased to 419 in 1901; to British Columbia, 535, increased to 1,180 in 1901; to the Territories, 226, increased to 644 in 1901.

Thus Ontario by the census of 1901 had contributed to the upbuilding of the west by giving 121,451 of her people, and to that of the provinces to the east by giving 21,888.

By the same census Ontario had received from the provinces east of her 67,976, and from the west 3,591, in all 71,567, so that she has given 71,772 more than she has received.

During the ten years her westward givings increased by 49,579 and her eastward 5,160, a total of 54,739 or an average of 5,474 per annum.

CENSUS 99

Ontario had received from Quebec by the census of 1901, 61,776. By the census of 1891 there were in Ontario born in Quebec, 58,772.

Showing that Ontario received a net of 3,004 from Quebec during the ten years 1891-1901.

Quebec had received from Ontario by the census of 1901, 20,313. By the census of 1891 there were in Quebec born in Ontario, 15,541.

Showing that Quebec received a net of 4,772 from Ontario during the 10 years 1891-1901.

During the ten years 1891-1901 Quebec received from Ontario 1,768 persons more than Ontario received from Quebec.

Quebec has contributed to the upbuilding of the provinces west of her by giving 80,101 of her people of whom 61,776 were given to Ontario, leaving 18,325 for Manitoba, the Territories and British Columbia, against 121,451 given by Ontario.

The western provinces and territories had, according to the census of 1901, a population of 645,517, divided as follows:

Manitoba British Columbia The Territories	178,657	
Total	645,517	
From the Provinces of the East—		
Ontario	121,451	
Quebec	18,325	
Nova Scotia	7,878	
New Brunswick	4,684	
Prince Edward Island	2,243	
Total from East	154,581=23:94 pe	er cent.
From the British Isles	83,579 = 12.94	H
From other British Possessions	2,788 = 43	H
Born in the West.	250,901 = 38.87	11
From Foreign Countries		11
Not given and at sea	8,299== 1.28	11
	645,517	

Thus the foreign born constitute under one-fourth of the population Those born in the eastern provinces of Ontario, Quebec, and the Maritime Provinces, constitute somewhat more than the foreign born, and the British born are over three-quarters of the whole population.

## STATISTICS OF AGRICULTURE.

The Census returns of 1891 give the the following information for the Dominion. A comparison with the Census of 1881 is also given.

<sup>\*</sup>Over 90 per cent of the crop was produced in the counties of Essex and Kent.

According to the census of 1901, the production of tobacco in the provinces of Nova Scotia, British Columbia and Prince Edward Island is as follows:—

	Acres.	Lbs.
Nova Scotia		560
British Columbia	61	61,830
Prince Edward Island	17	39,994

The number of apple trees of bearing age, and young trees, in Ontario in 1902 was 7,024,890 and 3,446,904 respectively. The yield is placed at 48,185,125 bushels, or  $6\cdot86$  bushels per tree of bearing age.

The area in vineyard in Ontario in 1902 was 14,028 acres, as compared with 12,227 acres in 1901.

In the provinces of Nova Scotia and Prince Edward Island in 1901, the number of bearing and non-bearing apple trees was 2,178,485, of peach trees 10,660, of pear trees 58,062, of plum trees, 199,925, of cherry trees 132,467, of other fruit trees 76,051, and grape vines 9,044. In 1901 the fruit trees yielded 2,315,522 bushels, and 1891, 1,167,955.

The number in the provinces of Manitoba, British Columbia and the Territories was apple trees 447,464, peach trees 8,576, pear trees, 48,641, plum trees 134,998, cherry trees 43,339 other fruit trees 39,892, and grape vines 10,603. In 1901 the fruit trees yielded 349,234 bushels, and 1891, 127,577.

Down to the present time the provinces collect the only available annual

statistics relating to agriculture, and not all of them do so.

The province of Ontario, according to the returns of the Bureau of Industries, possessed in 1896–1902 live stock as under:

The chief feature of the cattle export trade of Canada during the past few years is the events of the exports of cattle to the United States. In 1893, under the operation of the United States the trade had declined to 402 animals from 67,758 in 1885. In 1894 there was a still greater diminution of the number to 256 cattle, the United States aving scheduled Canadian cattle.

The Minister of Agriculture, determining to remedy this state of affairs, went to Washgton and succeeded in effecting an arrangement by which the quarantine which Canada ad placed upon United States cattle and that which the United States had placed upon anadian cattle were mutually removed, to date from February 1, 1897.

In the few months of the fiscal year ended June 30, 1897, the export of our cattle rose 35,998 against a total number in the previous year of 1,646 head. In the five years, 1898–102 the export to the United States rose to an annual average of 69,143.

In 1894, the import of cattle into Canada from the United States dwindled to 537 head and increased during the three full years of absence of quarantine, 1898-1902, to an average 11,372 head a year.

The following table is a comparison between the exports of agricultura produce of 1901 and 1902. It will be seen that there was an increase in volume of \$14,388,000 and an increase of \$1,498,000, due to an appreciation of prices, making an actual increase of \$15,886,053.

The developement in the export of butter is the result of cold storage. Insulated chambers cooled with ice were introduced on steamships in 1895, but this system failing to maintain throughout the voyage, the low temperature necessary for success, the more complete system of mechanical refrigeration was employed in 1897 on twenty-one ocean steamships sailing from Canadian ports. This gave a cold storage capacity of 100,000 packages of butter. The system of refrigerator cars on railways was developed so that in 1902, there were forty-eight different starting points to Montreal, all provided with cold storage transport, six sending to Montreal forth-nightly and 42 weekly. The number of packages of butter carried in cold storage from Montreal during the season of navigation, 1898, was 209,172 packages; 1899, 429,734; 1900, 227,863; 1901, 410,893, and in 1902,

525,735. At the end of the year (1902), by a system of bonusing, nearly 600 creameries were supplied with cold storage, thus completing the chain

from producer to consumer.

The efforts of Canada to secure a larger share of the butter trade of the United Kingdom have resulted in a great success, as will be seen by the following comparative table, taken from British Returns, years ended December 31, 1895 and 1902:—

IMPORTS OF BUTTER BY UNITED KINGDOM AND PERCENTAGES (BY COUNTRIES.)

Countries.	18	95.	19	02.
Countries.	Quantity.	Percentage.	Quantity.	Percentage.
Canada Victoria New South Wales New Zealand Russia Sweden Denmark Germany Holland France. United States Other Countries	Lbs, 4,362,288 23,833,264 5,133,744 5,965,344 14,397,600 34,810,608 130,230,240 12,581,856 21,414,512 50,942,416 7,496,384 5,305,888	1 · 38 7 · 53 1 · 62 1 · 89 4 · 55 11 · 00 41 · 15 3 · 95 6 · 77 16 · 10 2 · 37 1 · 69	Lbs. 32,005,680 7,035,728 1,973,552 17,695,216 54,778,192 21,468,192 190,739,584 2,958,816 44,045,232 46,383,792 6,099,296 19,934,544	7 19 1 58 0 44 3 98 12 31 4 82 42 85 0 66 9 90 10 42 1 37 4 48

Prices of butter per pound in England. (From English Trade Returns.)

	1895.	1902.	Increase per cent.
Danish. Australian Canadian	ets. 22·23 19·77 17·11	ets. 23.73 21.57 20.49	6:75 9:10 19:75

These figures indicate that the result of the cold storage is to increase largely the quantity exported and to increase greatly the price. The increase in the price applied to the quantity exported is equal to an increase of \$1,081,792 on the business of the season of 1902.

The outlay by the Department of Agriculture in connection with cold storage is as follows:—

Year ended June 30.								Amount.																							
				_			 					 			_	_		na ren			-										\$
1896, .									 			 							 					 		 		 		.	16,74

#### STATISTICS OF FISHERIES

The fisheries of Canada are: (1.) The Atlantic division, from the Bay of Fundy to the Coast of Labrador embracing deep sea and inshore fisheries, (2.) The Estuarine and inland waters of the Eastern Maritime provinces. (3.) The Great Laurentian lakes and rivers. (4.) The Great North-west lakes. (5.) The Rocky Mountains rivers fisheries. (6,) The Pacific coast fisheries, and (7.) The Peri Arctic fisheries at the mouth of the Mackenzie River and in Hudson Bay.

<sup>\*</sup> Also manufacture cheese. †Twenty-four operate in winter only; and also manufacture cheese. a Twelve of the above number manufacture cheese. bSix make cheese. c28 make cheese also. ‡27 make cheese also.

Under an Act passed in 1882 to encourage sea-fishing and the building of fishing vessels, provision was made for the distribution of \$150,000 annually among the fishermen and vessels. By Act of 1891, chapter 42, the amount was increased to \$160,000. Vessels in 1901 were paid at the rate of \$1 per ton to owner, \$7 each to vessel fishermen, \$3.50 per man to boat fishermen, and \$1 per boat to the owners. The number of vessels which received bounty in 1901 was 786, with a tonnage of 25,605, showing a decrease of 16 vessels and of 1,034 tons as compared with 1900. The number of boats on which bounty was paid was 12,588, and the number of

boat fishermen who received bounty was 21,217, being a decrease of 386 boats and 814 fishermen, as compared with the previous year. The total number of fishermen in vessels and boats to whom bounty was paid in 1901 was 27,431 as against 28,502 in 1900. The number of fishing bounty claims filed was 13,393 and the number paid was 13,374. The total bounties paid since 1882 amount to \$3,156,113, distributed as follows:—

Year.	Nova Scotia.	New Brunswick.	P. E. Island.	Quebec.	Total.

Value of seal skins	\$304,100	\$285,520	\$441,825	\$562,845	\$366,330	

Prior to 1878 very few seals were killed by Canadian sealers. Hunting was not carried on further than 20 miles from shore.

The following statement shows the number of seals killed in 1883-1902:

	Number.		Number.
1883	9,195	1896	55,677
1889	35,310	1897	30,410
1890	43,325	1898	28,552
1891	52,365	1899	35,346
1892	49,743	1900	35,523
1893	70,592	1901	24,422
1894	95,048	1902	16,143
1895	73,614		

From 1871 to 1902 the total products of the Canadian pelagic sealing industry amounted to 777,613 seal skins.

In addition to the take of Canadian vessels in 1902, 582 skins were landed at B. C. which were sent to the London market.

### STATISTICS OF TRADE AND COMMERCE.

### TRADE AND COMMERCE.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Act 42 Vic. (1879), Chap. 16 (amended by Chap. 30, Acts of 1898), it is provided: That in contracts for sale and delivery of any of the undermentioned articles the bushel should be determined by weighing, unless a bushel measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat 60 lbs.	Castor beans 40 lbs.
Indian corn	Potatoes 60 "
Rye 56 "	Turnips
Pease	Carrots
Barley	Parsnips
Malt	Beets 60 "
Oats 34 11	Onions† 50 11
Beans 60 "	Bituminous coal 70 "
Flax seed*	Clover seed 60 "
Hemp 44	Timothy 48 "
Blue grass seed	Buckwheat
Lime‡ 80 "	

By the same Act the British hundredweight of 112 pounds and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

<sup>\*</sup>Changed from 50 to 56 lbs. by Act of Parliament, 1898. †Changed from 60 to 50 lbs. by Act of Parliament, 1898. ‡Added by Act of 1898.

Under the new regulations of the Customs Department commenced July 1, 1900, all export entries are delivered at the 'frontier port of return,' and the totals thereof are credited to the respective ports where the goods pass outwards from Canada. In view of the more complete returns obtained this system, the additions heretofore made to the Export Statistics (prior to July 1, 1900) under the head of 'Short Returns,' are now omitted.

#### BRITISH PREFERENTIAL TARIFF, 1898.

Its chief features are (1) a completion of the pro-British tariff of 1897, provided that beginning on 1st of August, 1898, all imports from Britain shall come into Canada on paying a duty of customs, twenty-five (25) per cent less than that levied on goods from foreign countries; (2) a provision to aid the West Indies by admitting their products at the full reduction of 25 per cent; a similar provision for any other British colony or possession the customs tariff of which is on the whole as favourable to Canada as the British preferential tariff is to such colony or possession; provided, however, (a) that unmanufactured articles admitted under such preferential tariff are bona fide manufactures of a country or countries entitled to the benefits of such tariff, (b) that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labour of such countries, (3) a provision that the reduction is not to apply to wines, malt liquors, spirits, spirituous liquors, liquid medicines and articles containing alcohol, tobacco, cigars and cigarettes.

The following parts of the British Empire are included in the British

preferential tariff arrangement:-

The United Kingdom—

Bermuda.

British West Indies-

Bahamas.

Jamaica.

Turks and Caicos Islands.

Leeward Islands. Windward Islands. British West Indies—Con.

Barbados.

Trinidad and Tobago.

British Guiana.

British India.

Ceylon.

Straits Settlement.

By the Budget of 1900 the preferential given to the above parts of the Empire was increased from 25 p.c. to  $33\frac{1}{3}$  p.c. from July 1, 1900.

The figures in the preceding table must only be taken as indicative of the channels by which goods enter the Dominion, and not as by any means representing the individual consumption of each province. Quebec contains the principal ports of entry, by the St. Lawrence, and Ontario the principal ports of entry for goods from the United States; therefore, it is clear that a very large portion of the duty collected is really paid by the other provinces, and it is probable that the largest portion of the duty collected in the province of Quebec is actually paid by the province of Ontario. The same remarks are equally applicable to exports, even many products of Prince Edward Island being taken across to the mainland and thence shipped from Nova Scotia and New Brunswick ports, to which provinces they are credited as exports.

The following table shows the growth of the imports of raw material since confederation:—

\*Coin and bullion only. Note—The Department of Customs no longer include 'short returns' in export statements. †The lollowing articles have been taken from 'the mine' and 'the forest' and added to 'manufactures,' viz.: Refined oil, salt, ashes, all kinds, laths, palings and # Also included in column of 'manufactures pickets, shingles, shooks, box and other, staves and headings and sawn lumber of all kinds. IMPORTS OF GOODS INTO CANADA ENTERED FOR CONSUMPTION, The term "Entered for Consumption" is the technical term in use at the custombouse, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value of goods imported is governed by Section 58 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty "shall be the fair marked value thereof, when sold for home consumption, in the principal markets of the country whence and at

the time when the same were exported direct to Canada."

France The tame (The Burdon of Canada.")

The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

"Goods not the produce of Canada" shows the exports of foreign goods which had been previously imported.

Under the Regulations commencing the 1st July, 1900, all Export entries are delivered at the "frontier port of exit," and the totals thereof are credited to the respective ports where the goods pass outwards from Canada. In view of the more complete returns obtained under this system the additions heretofore made to the export statistics (prior to 1st July, 1990) under the head of "Short returns" are now omitted,

The tables of imports and exports at the several ports of entry indicate that merchandize of the value stated was entered immerds or massed outstands at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there. The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods,

QUANTITIES and Values of Domestic Produce exported (according to

#### WOOD PULP INDUSTRY IN CANADA, 1902.

The wood pulp industry of Canada for the calendar year 1902 was carried on by 35 mills which had an output of 240,989 tons of wood pulp Of this quantity, 155,210 tons were mechanical pulp, 76,735 sulphite, and 9,044 soda. The corresponding quantities for 1901 were: mechanical, 169,360 tons; sulphite, 84,500 tons, and soda, 10,740 tons. This shows a decrease of 23,611 tons in 1902. The decrease is distributed: sulphite, 7,765; soda, 1,696; mechanical, 14,150 tons.

The total value of the output of 1902 was \$4,383,182.

There are several large mills in course of construction, or which, being finished, did not operate during the year 1902.

Two or three firms have gone out of business or manufacture only paper where before they made pulp.

Nine of the thirty-five mills manufacture sulphite pulp and four soda pulp. Twenty-five manufacture mechanical pulp and four make both chemical and mechanical.

Taking the returns of thirty-two mills the average time the mills ran during the year was ten months.

The power to drive the mills is chiefly derived from water. Of a total power equal to 81,725 horse power, 78,296 is water power.

The growth of the industry is considerable. In the census of 1881 there were five establishments with an output of \$63,000. In 1891 there were twenty-four with an output of \$1,057,810. The census returns for 1901 have not yet been tabulated. For 1902 the returns to the Statistical Branch preparing the Year Book show, as given above, thirty-five establishments with an output of \$4,383,182.

Of the product of Canadian mills the Customs returns show that during the Calendar year 1902 the export amounted to \$2,511,664, leaving \$1,871,518 for home use. In a general way, therefore, we export about fifty-seven per cent. of our production.

Of the \$2,511,664 worth exported by Canada in 1902, Great Britain took \$976,192, the United States \$1,518,139, and other countries \$17,333.

The market for this product in the United Kingdom is large. In the calendar year 1902 the requirements of Great Britain were of the value of \$11,671,367, of which seven-elevenths were chemical pulp. Our export in 1902 to Great Britain was about  $8\frac{1}{2}$  per cent of her needs.

#### EXPORTS OF PULP WOOD.

### INDEX NUMBER OF PRICES.

The Economist's index number of prices is given below :--

December	1899 = 2,145	June,	1901 = 2,007	March.	1902 = 1.983
March,	1900 = 2,240	September,	1901 = 1,980	June.	1902 = 1.995
June,	1900 = 2,211				1902 = 2,002
September,	1900 = 2,235		1902 = 1,977		1902 = 2,003
December,	1900 = 2,125	February,	1902 = 1,979	January,	1903 = 2,066
March,	1901 = 2,018		, ,		, , , , ,

The index numbers of the prices of 45 commodities calculated by Mr. Sauerbeck are, as usual given below, and show the course of average prices for a series of years:—

· ·			
1867-1877 100	1884 76	1891 72	1898

The following table gives the monthly average paid-up capital, assets, liabilities and other particulars of the various Banks in operation in each year since Confederation, according to the returns made to the Government

as required by the Bank Act. These averages are made up from the twelve monthly returns sent by all the Banks to the Government during the year:— PARTICULARS OF BANKS IN CANADA, 1868-1902.

\*Includes the deposits of Federal and Provincial Governments.

† Includes amounts deposited elsewhere than in Canada, not previously included in deposits, see page 322.

21

The amendments to the Banking Act passed in the Session of the Federal Parliament, 1900, provided, by schedule, for a fuller analysis of the Banking Statistics than there was previously supplied. The new schedules called for a further division of deposits and discounts so as to enable the public to ascertain the amounts belonging to countries outside of Canada. The first full year of the new tables closed on June 30, 1901, and the following table is the result of the 12 months average for the years 1901 and 1902.

### ANALYSIS OF COLUMN 3, 1901 AND 1902.

<sup>\*</sup>In Canada.

<sup>†</sup> Elsewhere than in Canada

A comparative statement showing the proportions of the principal items of assets and liabilities to the total amounts in the years 1880 and 1898 to 1902, is given below:—

### ASSETS AND LIABILITIES—PERCENTAGE OF PRINCIPAL ITEMS.

Items.	1880.	1898.	1899.	1900.	1901.	1902.
Liabilities.  Notes in circulation*	Per cent					
	18:28	13:17	12:36	13:39	11.77	11.60
	76:97	82:77	82:80	82:16	+81.46	+82.54
Assets.  Specie and Dominion notes  Debts due to the banks  Notes of and cheques on other banks Balances due from other banks	9·78	6·70	6·41	6·41	5·83	6·20
	63·78	80·00	80·44	81·98	85·09	84·37
	1·85	2·64	2·69	2·27	2·25	2·91
	18·70	8·13	7·86	6·07	3·01	3·34

<sup>\*</sup> Includes deposits payable on demand and after notice or on a fixed day. + Also includes deposits made by other banks and deposits elsewhere than in Canada.

By five year periods the yearly average circulation of bank notes is as follows:—

1869–73, ves	arly average	e of 5 yea	rs	\$ 19,613,142
1874-78	11	11		22,673,300
1879-83	11	H		 27,479,560
1884-88	11	10		 31,377,000
1889-93				33,140,600
1894-98	17			33,130,678 41,513,139
				46,574,780
				50,601,205
				55,412,598
1902				 ,

The circulation of Dominion Government notes of \$20 and under, being the denominations which circulate among the people, averages as under:—

1874-78, ye	arly ave	rage of 5 y	ears	 \$ 3,712,894
1879-83	11	11		 4 000 010
1884-88	11	. 11		 6,358,407
1889-93		11		 7,097,000

<sup>\*</sup> Not including Newfoundland.

According to Dun & Co., 18.98 per cent of the failures in Canada in 1902 were manufacturing firms, 79.39 trading, and 1.63 'other,' the liabilities of the manufacturing class being 38.85 per cent of the total liabilities, and those of the trading class being 56.89 per cent, 'other' being 4.26 per cent.

The following gives the two sets of figures, both including Newfoundland, except in 1894 to 1902, when both agencies separated Newfoundland from Canada:—

### POST OFFICE AND OTHER SAVINGS BANKS.

The Post Office Act, which provides for the establishment of Post Office Savings Banks in Canada, was passed on December 20, 1867, and was limited in operation, as regards the savings banks, to the provinces of Ontario and Quebec. Under its provisions a deposit must not be less than \$1, and by Order in Council, February 7, 1891, must not exceed \$1,000, in any one year; neither must the total amount on deposit exceed \$3,000. On September 1, 1885, the system was extended to the provinces of Nova Scotia and New Brunswick, and the offices are now distributed in the several provinces as follows:—Ontario, 508; Quebec, 157; Nova Scotia, 60; New Brunswick, 47; Manitoba, 49; British Columbia, 54; Prince Edward Island, 10; and the Territories, 30; making a total of 915.

Government savings banks, under the management of the Finance Department, have been established in the maritime provinces and in Manitoba and British Columbia. In these, deposits are allowed to the extent of \$1,000. The number of offices under this system is 23, viz.: 15 in Nova Scotia, 4 in New Brunswick, 1 in Prince Edward Island, 1 in Ontario, 1 in Manitoba, and 1 in British Columbia. On June 30, 1902, there were 49,001 depositors with \$16,117,779 on deposit. Arrangements are made for the transfer of the Government savings banks in each province to the Post Office Department, as the position of superintendent of each place becomes vacant.

The rate of interest paid in both classes of savings banks was formerly 4 per cent, but on October 1, 1889, it was reduced to  $3\frac{1}{2}$  per cent, and on

July 1, 1897, it was reduced to 3 per cent.

The Post Office system went into operation on April 1, 1868, when 81 offices were opened. At the close of the three months ended June 30, 1868, there were 2,102 depositors, 3,247 deposits had been made, and the amount on deposit was \$204,589. On June 30, 1902, there were 915 offices opened, 162,761 depositors, and the total amount on deposit was \$42,320,209.

In addition to the above there are special savings banks, chiefly the Caisse d'Economie of Quebec and Montreal City and District Savings Banks. The chartered banks also have savings branches, but the amounts on deposit in these branches are not separated from the general business and other

deposits in the returns to the Government.

The following table gives the deposits with the Government in the two branches under Government control and the deposits in the special savings banks, but does not include deposits in the chartered banks and in the loan companies and building societies:—

### DEPOSITS WITH THE UNDERMENTIONED BANKS.

### BAILWAYS AND CANALS.

There were 18,714 miles of railway in operation in the whole Dominion on the 30th June, 1902, and 18,868 miles of track laid.

The distribution by provinces is as follows:-

### MILEAGE OF TRACK LAID AND SQUARE MILES OF AREA TO EACH MILE OF RAILWAY.

Provinces.	MILES OF TE	Square miles of area to each		
T TOVINGES.	1867.	1902.	mile of track in 1902.	
Ontario Quebec New Brunswick Nova Scotia. Prince Edward Island. Manitoba North-west Territories and Yukon Territory. British Columbia		7,139 3,445 1,444 1,051 209 2,128 2,080 1,372	30 · 89 99 · 20 19 · 33 20 · 04 10 · 45 30 · 23 352 · 47 269 · 82	
Total	2,087	18,868		

In addition to the above there are 130.71 miles of railway owned by seven coal and iron companies, six of which are in Nova Scotia and one in British Columbia. This mileage is all of the 4 ft.  $8\frac{1}{2}$  in. gauge, with the exception of three miles with a 3 ft. gauge.

Taken according to population:

Ontario	population,	40.16	per cent;	railway mil	es, 37.84 pe	r cent.
Quebec	11	30.60	11	11	18.26	11
Nova Scotia	11	8.44	11	18	5.57	11
New Brunswick	11	6.09	11	11	7.65	11
P. E. Island	11	1.88	11	11	1.11	11
Manitoba	11	5.01	s 11	11	11.28	H
N. W. Territories	11	4 29	11	11	11.02	11
British Columbia	11	3.53	11	11	7 27	11

Canada has 165 steam railways. Twenty-five of these have been amalgamated and form the Grand Trunk railway system. The consolidation of 27 others has produced the Canadian Pacific railway system. The remaining 113 have more or less consolidated. Three of these are bridge companies with  $4\frac{3}{4}$  miles of rails, and one is a tunnel, with  $2\frac{1}{4}$  miles of rails.

The mileage (rails laid) of these several organizations is:—

Canadian Pacific	3,157 · 48 1,510 · 94 6,873 · 45
m. t. 1	10 067 : 02

The number of miles laid with steel rails was 18,761, of which 647 miles was double track.

For the past few years some electric railways have been included with the steam. They have been eliminated and their statistics will be found on last page of chapter on railways. The following is a statement of the gauge and length of steam railways in operation in Canada in 1902.

	Gau	ıge.	Miles.
Alberta Railway and Coal Co. British Yukon. Carillon and Grenville Kaslo and Slocan. Prince Edward Island. Lenora Mount Sicker. St. Mary's River Other railways	Ft. 3 3 5 3 3 4 4	0 0 6 0 6 0 8 1 8	64 · 62 90 · 32 13 · 00 31 · 80 209 · 00 11 · 50 30 · 00 18,417 · 59

The Dominion Government has contributed at the rate of \$9,166 per mile constructed, the Provincial Governments at the rate, on an average, of \$1,757 per total mileage constructed, and the municipalities at the rate of \$873 per mile on total mileage.

### ROLLING STOCK IN USE ON RAILWAYS IN CANADA, 1891 TO 1902.

Year.	Loco-motives.	Sleeper and Parlour Cars.	First Class Cars.	Second Class and Em- igrant Cars.	Baggage, Mail and Express Cars.	Cattle and Box Cars.	Plat- form Cars.	Coal and Dump Cars.
1891	1,850	142	849	624	560	34,365	14,614	3,559
1892	1,961	155	909	634	591	35,668	15,403	3,584
1893	1,954	161	977	664	610	35,741	15,719	3,455
1894	2,002	199	992	670	636	35,852	14,904	4,699
1895	2,023	216	1,076	702	1,154	36,360	15,758	4,845
1896	2,046	206	1,042	648	650	*36,791	15,593	4,812
1897	2,096	226	1,085	688	674	* 37,471	15,352	4,931
1898	2,112	226	1,214	628	668	* 40,569	16,306	5,181
1899	2,217	268	1,239	640	668	* 44,669	15,811	5,582
1900	2,273	238	1,103	641	652	* 45,409	15,607	5,870
1901	2,433	258	1,159	649	815	*48,900	16,348	6,775
1902	2,444	281	1,166	573	681	* 52,003	15,834	7,736

<sup>\*</sup> Including refrigerator cars, tool cars and conductors' vans, &c.

In 1902 there were 617 snow ploughs and flangers, 7 of which were hired. The above table represents the rolling stock in use. To ascertain the quantity owned, the following number of cars, hired must be deducted in each year:—

Year.	Loco- motives.	Sleeper and Parlour Cars.	First Class Cars.	Second Class and Emi- grant Cars.	Baggage, Mail and Express Cars.	Cattle and Box Cars.	Platform Cars.
1891 1892 1893 1894 1895 1896 1897 1898 1899 1900 1901 1902	50 39 17 37 75 64 90 86 75 103 117	17 7 6 45 60 28 37 38 37 3 15	31 39 28 31 65 44 38 38 69 74 72 49	15 2 2 5 8 2 4 5 19 1 13 11	25 16 9 10 25 25 27 11 21 29 30 86 24	3,625 2,992 1,946 3,094 2,783 1,489 2,532 3,371 3,247 3,634 4,039 3,799	289 195 174 *329 *321 403 203 442 *419 *812 *793 *772

<sup>\*</sup> Including coal and dump cars.  $23\frac{1}{2}$ 

Out of the above numbers, the following were in use by the two great railway systems, the Canadian Pacific and Grand Trunk:—

D G	18	99.	19	00.	19	01.	19	1902.		
Rolling Stock.		G. T. R. System								
Engines	709	710	746	710	810	707	785	70		
cars First class cars Second class and	137 253			32 426			162 296			
emigrant cars Baggage, Mail and					214	118				
Express cars Cattle and box cars	177 15,830	15,696	17,206	17,546	16,683	17,798	17,302	18,14		
Platform cars Coal and dump cars Refrigerator cars	4,517 81 452	4,856 1,654 273				1,835		1,75		

The C. P. R. also had, as part of its equipment in 1902, 91 snow ploughs and 175 derricks and flangers, &c., and 901 conductors' vans and tool cars. The G. T. R. had 69 snow ploughs and 38 flangers, and 740 conductors' vans and tool cars.

The following table shows the condition in 1867 and in the years named:—

#### RAILWAYS IN CANADA-1867.

\$24,806,580

To the above there have to be added the following exceptional subsidies:

The Canada Central Railway, paid between 1878-83.

The Canadian Pacific Railway extension from St.

Martin's Junction to Quebec, paid in 1885....

1,525,250 1,500,000

<sup>\*\*</sup>ET\* In these amounts the subsidy of \$186,600 a year payable to the Atlantic and Northwestern Railway Company, for 20 years from the 1st July, 1889, is included. Payment is made by the Finance Department.

Total subsidies paid from 'Consolidated Fund' up to June 30, 1902.....\$ 27,831,830

The main line subsidy to the Canadian Pacific Railway was paid from 'Capital,' amounting to . . . 25,000,000

Total paid as subsidies..... \$ 52,831,830†

The above does not include the amount, \$2,394,000, due to the province of Quebec for the railway between Ottawa and Quebec, which has been transferred to the public debt, and on which interest at 5 per cent is paid,

amounting to \$119,700 a year.

Railway aid has consisted: (1) of money grants (a) by the Federal Parliament, (b) by the Provincial Legislatures, (c) by the municipalities; (2) loans; (3) Government guaranties of interest; (4) Government issue of debentures by way of loan to railway companies; (5) Government guaranty of railway bonds; (6) direct issue of Government bonds to railways with a first mortgage on the companies' properties; (7) Imperial Government guaranty of capital; (8) share capital locally distributed; (9) land grants; (10) release of Government loans by placing them behind other loans; (11) composition of Government claims; (12) assumption by Government of liabilities; (13) direct construction by Government; (14) combined land and money grants.

Railways aided by grant of Loans.

The table following gives particulars of the assistance afforded by means of land grants.

<sup>+</sup>The sum of \$500,000 granted by the Act 50-51 Vic., ch. 25 (1887) to the Western Counties Railway Company, in settlement of matters in dispute with the Government, towards the construction of a link of railway between Annapolis and Digby, has, in previous years, been included in this statement as a subsidy; it is now omitted, as under authority of the Act 52 Vic., ch. 8 (1889) the Government itself constructed the said link, which was handed over to the Company in 1891. The cost was charged against 'Capital.'

LAND GRANTS made by Governments to Railways, completed and under construction, up to June 30, 1902.

\*No return of sales. †Sold to the Dominion Government at \$1.50 per acre.

Another way in which railways have been aided is by loaning them used rails. Outstanding loans of this kind on June 30, 1902, were; Kent Northern Railway of New Brunswick, \$58,334; Halifax Cotton Company, siding, \$4,335; Steel Company of Canada, \$11,965; Albert Railway Company, \$14,665—in all \$89,299.

### GOVERNMENT RAILWAYS.

The railways belonging to the Government of Canada are known as the Canadian Government Railway System. They include, 1st, the Intercolonial and its branches; 2nd, the Prince Edward Island Railway.

The total mileage of the Intercolonial system on June 30, 1902, was 1,333 miles of operated road, including the Windsor Branch (32 miles) and the Drummond County Railway (170 miles).

The Intercolonial touches six Atlantic points, viz : Pointe du Chêne, Pictou, St. John, Halifax, Sydney and North Sydney.

T' ' / ' ' O I I I O TO T	Miles.
Lévis (opposite Quebec) via St Joseph and St. Charles Junction (14	
miles) to Halifax	675
Lévis to St. John.	578
Lévis via Truro to Sydney	827
" North Sydney	820

The following statement shows the financial position of each road on June 30, 1902;—

	Capital paid up.	Earnings.	Expenses.	Profits.	Loss.	Percentage of! Expenses to Earnings.

During the fiscal year 1891, by special Act 54 Vic., chap. 50, the Eastern Extension Railway was embodied in the Intercolonial system.

The Windsor Branch is owned and maintained by the Government, but is operated by the Windsor and Annapolis Railway, who pay one-third of the gross earnings to the Government. The Government's share is generally more than sufficient to cover the cost of maintenance, and during 1902 the profit amounted to \$33,228. The road runs from Windsor to Windsor Junction, a distance of 32 miles.

The following table gives the receipts and expenditure of the Windsor Branch Railway from 1881 to 1902.

Year.	Receipts.	Expenditure.
	\$	\$
1881	17,403	20,502
1882	21,053	10,935

<sup>\*</sup>Yukon Territory works (Stikine-Teslin).

During the year 1902 the following sums were expended on capital account of the Intercolonial Railway:

	Amount.
	\$ 71,928
To dredge and blast rock at Halifax	25,978
To complete highway bridge at Rocky Lake	1,941
To increase accommodation at Stellarton	20,489
Improvements at Mulgrave	15,086
Improving the ferry service at Strait of Canso	293,000
To increase the accommodation at Sydney	77,610
Towards building sea-wall in Cape Breton	7,940
Increased accommodation at Pictou	42,662
Improvements at Westchester	4,654
To extend blacksmith shop at Moncton	676
Buildings and appliances for making Pintsch gas	14,999
To increase accommodation at St. John	111,299
Station and freight house, Eel River	1,555
Improvements at St. Octave	4,318
To increase accommodation at Lévis	75,341
Original construction	949
Land damages, Oxford and New Glasgow and Cape Breton	
Divisions	603
To strengthen bridges	93,431
To provide new superstructure for six spans Miramchi bridge.	71,961
Steel rails and fastenings	188,191
To provide additional sidings along line	157,998
To provide additional snow fences along line	4,976
To provide nine electric and four mechanical semaphores	. 2,450
To increase accommodation and facilities along line	92,605
Increased facilities along line	10,354
To build new and enlarge old engine houses	135,049
To provide large turntables	4,908
To provide drop pits	2,331
To provide new tools and machinery for locomotive and car	
shops	53,986
Rolling stock	2,066,879
To provide Master Car Builders couplers for locomotives	2,980
To change car couplers of passenger cars	1,315
To equip passenger cars with vestibules	3,540
To equip ten passenger cars with Pintsch gas apparatus	943
To provide air-brakes for freight cars	23,689
To exchange drawbars of freight cars	15,000
To pay G. S. Mayes amount of claim for work done on Inter- colonial Railway at Pictou in 1886	8,939
Award of arbitrators in connection with Eastern Extension	
Railway, Nova Scotia	671,836
Award of arbitrators in connection with Eastern Extension	
Railway, New Brunswick	280,692
Balance of purchase money, Drummond County Railway	5,000
Miscellaneous	510
Total	\$ 4,670,591

The following table is compiled from a variety of sources, and gives the date of the opening of the first railway in the British Empire, and in all the principal countries in the world, the length of railway lines therein and the porportion of railway mileage to area:—

### STEAM RAILWAYS IN THE BRITISH EMPIRE.

Countries.	Date of Opening.	Miles of Railway.	Square Miles of Area to each Mile.
United Kingdom. India. Canada Australasia—	Sept. 17, 1825 April 18, 1853 July 23, 1836		5 4 61·1 166·6

Lake Michigan is wholly within the United States and is connected with Lake Huron by the Strait of Mackinaw.

### THE OTTAWA AND RIDEAU RIVERS CANAL SYSTEM,

	Locks.						
Name.	Length in.	Number.	Dimensions.	Rise in.	Depth on Sill.		
Ste. Anne's Lock Carillon Chute à Blondeau	Miles.	1 2	Feet. 200 by 45 200 by 45	Feet. 3 16	Feet. 9 9		
Grenville Rideau Perth Branch	$16\frac{5}{2}$ * 6	5 49† 2	200 by 45 134 by 33 134 by 32	$\begin{array}{c} 43\frac{3}{4} \\ 282\frac{1}{4} \\ 26 \end{array}$	$\begin{array}{c} 9 \\ 5 \\ 5\frac{1}{2} \end{array}$		
Total	291	59					

<sup>\*</sup>The total length of navigation waters is 126\(\frac{1}{4}\) miles. The total distance from Montreal to Kingston by this route is 245\(\frac{1}{2}\) miles. The lockage is 446\(\frac{1}{4}\) feet, 282\(\frac{1}{4}\) being rise and 164 fall. +Thirty-five ascending and 14 descending.

On the Upper Ottawa are the Culbute works, situated at L'Islet. These surmount the Culbute and L'Islet rapids on the northern branch of the Ottawa River. The works comprise two locks and three continuous dams.

The following statement gives the amount expended prior to and since Confederation on canal works and maintenance (chargeable to capital) to June 30, 1902:—

Lachine Canal. \$ Beauharnois. Soulanges Williamsburg Canal Cornwall Canal. St. Lawrence River Canals, surveys, &c. Murray Canal Welland Canal. Sault Ste. Marie Canal. Ste. Anne's Canal. Carillon and Grenville Canal. Carillon and Grenville Canal. Rideau Canal (including Perth Branch). Trent Canal	11,122,737 1,636,690 6,489,714 9,217,972 6,885,465 2,705,977 1,247,470 24,318,338 4,215,531 1,170,216 4,182,093 382,776 4,573,923 3,611,402
Rideau Canal (including Perth Branch)	
St. Ours Lock Chambly Canal	121,538 637,057
St. Peter's Canal. Lake St Louis.	648,547 280,751
Lake St. Francis	70,907
Total\$	83,519,104

In addition to the above there have been expended from income:-

Renewals. \$ Repairs: Staff and maintenance Miscellaneous. \$	6,442,225 8,250,720
Making the total expenditure	01,535,862

Of this amount the sum of \$20,692,244 was expended before Confederation, \$4,173,921 by the Imperial Government and \$16,518,233 by the Provincial Government interested. The total amount spent for construction and enlargement alone is \$86,605,201, including in this sum the cost of the surveys of the Baie Verte Canal, and at one time considered a feasible plan for uniting the Bay of Fundy and the Gulf of St. Lawrence.

The total cost of the construction of the Welland Canal to June 30, 1902, was \$24,988,805. Of this amount \$222,220 was contributed by the Imperial Government, and \$7,416,020 by the Provincial Government prior to Confederation, leaving \$17,350,565 as the expenditure since Confederation. Of this last amount \$670,467 represents renewals, chargeable to income.

The sum of \$2,783,727 has been paid out for staff, and \$2,383,528 for repairs. During the same period the receipts have been \$7,057,952. The expenditure for staff, maintenance, repairs and renewals was \$5,837,722, leaving \$1,220,230 to represent the surplus to meet interest.

The total revenue from canals since Confederation is \$13,017,757, being an average of \$363,353.

Total	10,028	3,730,361	5,247	62,647,458

<sup>\*545</sup> persons were lost by the wreck of the White Star ss. Atlantic, in Turn's Bay Nova Scotia.

<sup>†</sup>The returns of the Dept. of Marine and Fisheries give the number of lives lost at 602, but they erroneously include 562 persons who were drowned in the wreck of the steamship La Bourgoyne, which happened 60 miles to the south of Sable Island, and was therefore on the high seas. The vessel was running between New York and Havre.

### EXPENDITURE OF THE DEPARTMENT OF MARINE, 1897-1902.

<sup>\*</sup> Canadian vessels not distinguished.

The coasting trade of Canada is regulated by the Act, Chap. 83, Revised Statutes of Canada, which provides that no goods or passengers can be carried by water from one port in Canada to another except in British ships. This provision, however, may be declared by the Governor General in Council not to be applicable to the vessels of any country that allows British vessels to participate in its coasting trade on the same footing as its own national vessels. By different Orders in Council the ships of the following countries have been admitted to the coasting trade of Canada, viz., Italy, Germany, the Netherlands, Sweden and Norway, Austria-Hungary, Denmark, Belgium and the Argentine Republic.

The coasting trade of Canada is not included in any of the foregoing tables, but is given in the following one, since 1876, before which no returns were kept:—

TONNAGE OF VESSELS, BRITISH AND FOREIGN, EMPLOYED IN THE COASTING TRADE, WHICH ARRIVED AT AND DEPARTED FROM CANADIAN PORTS, 1876-1902.

<sup>\*</sup> The figures are for the year following that stated above.

Gibraltar and Malta being merely ports of call, it will be seen that no British possession outside of the United Kingdom and Straits Settlement has a larger shipping trade than Canada, though the combined shipping of the Australasian colonies exceeds that of this country; the latter figures, however, include the intercolonial trade.

The next table gives the tonnage of vessels trading to and from some of the principal foreign countries. It will be seen that, including the United Kingdom, Canada ranked thirteenth in 1900 among the countries of the world as regards the magnitude of her shipping trade.

<sup>\*</sup>These totals differ from those given in the list of shipping issued by the Department of Marine. Elimination of errors, due to duplications, inaccurate additions and confusion of team boats with steam boats, gives the above corrected figures.

In 1901 of the steamers, 379 with a gross tonnage of 120,564 and a net of 71,395 tons were paddle steamers, and 1,799 with a gross tonnage of 179,806 tons and a net of 111,149 tons were screw.

In 1898 of the steamers, 336 with a gross tonnage of 102,418 tons and a net of 65,075 tons were paddle steamers, and 1,553 with a gross tonnage of 164,679 tons and a net of 95,539 tons were screw.

In 1895 paddle-wheel steamers numbered 306 with a net tonnage of 58,374 tons; screw steamers numbered 1,382 with a net tonnage of 95,308 tons.

### GRAVING DOCKS IN CANADA.

There are four graving docks in Canada, three belonging to the Federal Government and one owned by a company. For 20 years from the completion the company owning it have subsidies from the Imperial and Canadian Governments and from the city of Halifax, amounting in all to about \$30,000 (£6,180). The following statement shows the dimensions of these graving docks:—

-	,		WIDTH.		Water	Ris	E OF
NAME.	Length.	At coping.	At entrance.	At bottom.	on Sills.	Spring tide.	Neap tide.
Esquimalt, Esquimalt, B.C. Kingston, Kingston, Out. Lorne, Lévis, Que Atlantic, Halifax, N.S	305	Ft. 90 70 100 102	Ft. 65 69 62 894	Ft. 41 47 73 72	Ft. * $26\frac{1}{2}$ + $26\frac{1}{2}$ 30	$\begin{array}{c c} \text{Ft.} & \\ 7 \text{ to } 10 \\ \hline & 26\frac{1}{2} \\ 6 \end{array}$	Ft. 3 to 8

<sup>\*</sup> At ordinary spring tide.  $+16\frac{1}{2}$  feet at high and  $14\frac{1}{2}$  feet at low water.

The three Government docks cost for construction, as under:—

Esquimalt				٠.							 						\$1,149,146*
Kingston.	 					. ,											513,089
Lévis																	1,020,431

<sup>\*</sup>Including \$243,333 (£50,000) contributed by the Imperial Government.

### POST OFFICE STATISTICS.

### POSTAGE RATES.

On 25th December, 1898, the inter-imperial rate of postage on letters was made two cents per half ounce or fraction of half ounce.

The following parts of the British Empire joined in establishing the rate between themselves.

Aden. Lagos.

Ascension.

Bahama Islands.

Barbados.

Bermuda.

Leeward Islands.

Malay States.

Malta.

Mauritius.

British Central Africa. Natal.

"East "Newfoundland.

"Honduras. New Zealand.

Guiana.
 Niger Coast Protectorate.
 India.
 Company's Territories.

North Borneo Company's Ter- Orange River Colony.

ritory (including Colony of Labuan). Sarawak.

Canada. Seychelles.

Cape Colony. Sierra Leone.

Ceylon. Straits Settlement.

Cyprus. St. Helena.

Falkland Islands. Tobago.
Fiji. Transvaal.
Gambia. Trinidad.
Gibraltar. Turk's Island.
Gold Coast. Uganda.

Hong Kong. United Kingdom.

Jamaica. Windward Islands.

Johore. Zanzibar.

On the 31st December a proclamation in the Official Gazette announced that on and after 1st January, 1899, the postage rate on letters within Canada would be two cents per ounce. On and after March 7, 1903, a proclamation in the Canada Gazette announced that on and after that date, newspapers and periodicals posted in any post office in Canada for transmission to the United Kingdom shall pass at the same rates of postage, &c., as if intended for transmission to points in Canada. Concurrent action was taken in Great Britain and Ireland.

The actual railway mileage over which mails were carried in 1901–1902 was 17,268 miles, and the train mileage numbered 18,249,389 miles. In addition to the above mileage by rail there was a water service of 1,248,813 miles, and the mileage travelled on stage routes was 15,675,117.

\* Included in letters returned to writers or offices of origin.

Of 4,973,000 registered letters estimated to have been sent in 1902 only 154 containing money failed to reach their destination. The contents, or a portion thereof, of 72 were made good by the officials or others held responsible for the loss; 6 were stolen, 4 lost or misdelivered, and in 22 cases no evidence could be obtained to account for discrepancies; 42 accidentally destroyed during course of post; 7 still under investigation, and 1 stated to have not reached office for which intended. There was an increase in the total number sent, as compared with 1901, of 445,000, and a decrease in the number that miscarried of 30. In every 32,292 letters registered one miscarried, a smaller proportion than in 1901, when it was one in 24,609 letters.

<sup>†</sup>This large number is accounted for by the fact that an immense number of franchise notices were returned N.C.F. and were refused by the sender and were destroyed.

The number of letters and other articles sent to the dead letter office in each year, since Confederation, is given below:—

LETTERS, POST CARDS, CIRCULARS, BOOKS, PARCELS, &c., RECEIVED AT THE DEAD LETTER OFFICE IN CANADA DURING THE YEARS 1868 TO 1902.

An arrangement was concluded on April 1, 1901, between Canada and the United States of North America, under which all postal moneys sent from Canada to the United States goes at the domestic rate of three-tenths of one per cent instead of the international rate of one per cent as previously to the 1st.

The rates charged in Canada	a are now as follows, viz:-	Rate.
On orders up to	\$5.00	3 cents.
	10.00.

### POSTAL NOTE SYSTEM.

The Postal Note system was inaugurated throughout Canada on August 4, 1898. These notes offer a cheap and convenient means of transmitting small sums of money through the mails. Their use is confined to the Dominion.

The denominations of Postal Notes are seventeen in number. The following table gives the different amounts and the commission charged thereon:—

Denomination. Commission.	Denomination. Commission.
\$ ets.	\$ ets.
0 20 1 cent.	0 80 2 cents.
0 25 1 "	0 90., 2 "
0 30 1 "	1 00 2 "
0 401 "	1 50 2 "
0 502 cents.	2 00 2 "
0 60 2 11	2 502 "
0 70 2 "	3 00 3 1,
0 75 2 "	4 003 "
	5 00

Odd cents may be made up by affixing Canadian postage stamps, not exceeding nine cents in value, to the face of a Postal Note. For example, 55 cents may be transmitted by means of a note for 50 cents and 5 cents in stamps—55 cents will be paid on presentation of the note.

Number and value of paid Postal Notes and the revenue derived from commission on the same during the years ended June 30, 1901 and 1902.

### COAL.

The coal areas of Canada are estimated at 97,200 square miles, not including areas known, but as yet undeveloped, in the far north.

There are 1st, the coal fields of Nova Scotia and New Brunswick; 2nd, those of the North-west Territories; 3rd, those of the Rocky Mountains; and 4th, those of British Columbia. The coal areas of Nova Scotia cover about 635 square miles. They are divided into the Cape Breton, the Pictou and the Cumberland basins. New Brunswick contains, so far as known, no seams of sufficient magnitude to be worked successfully in competition with the Cumberland mines.

The workable thickness of the coal is very great, in Cape Breton a total of 25 to 60 feet, in Pictou at least 70 feet, and in Cumberland at least 30 feet. If the workable area is reduced one-quarter, say from 407,400 acres to 300,000 acres, and the average thickness of the workable area put at 25 feet, on the basis of 1,000 tons of coal an acre for every foot of coal, the amount of coal in the measures of Nova Scotia is 7,000,000,000 tons.

The following average analysis from a paper on Canadian Coals read at the Montreal meeting of the British Association will give a fair idea of the coals from the districts:—

	Cape Breton.	Pictou.	Cumberland.
Water. Volatile combustible. Fixed carbon. Ash.	0.75 $37.26$ $58.74$ $3.25$	1.19 $29.10$ $60.63$ $9.34$	1 · 46 33 · 69 59 · 35 5 · 50

There are no coal measures from New Brunswick westward until the province of Manitoba is reached. The coal areas of Manitoba are roughly estimated at 15,000 square miles. They yield lignites only, and of a very good quality. Analysis gives the following result:—

Water	15.40
Volatile combustible	
Fixed carbon	41.21
Ash.	5.36

Analyses of the coal found in the area (50,000 square miles) extending along the base of the Rocky Mountains, from the international boundary to the vicinity of the Peace River—a distance of 500 miles—gives the following results:—

	Belly River.	Bow River.	Péace River.
Water Volatile combustible Fixed carbon	31.03	$12 \cdot 37 \\ 32 \cdot 33 \\ 46 \cdot 39 \\ 8 \cdot 91$	2·10 21·54 71·63 4·73

The third coal area is that in the Rocky Mountains. Though small, as measured by miles, it contains much coal of the best quality. The small coal area of the Crow's Nest Pass is very rich. Several seams of anthracite of excellent quality have been found. Those in the Cascades Basin have an area of sixty square miles.

The fourth area is that of the Pacific coast. Dr. George M. Dawson gives the following estimate of its extent:—

Sq.	nare Miles.
Nanaimo coal basin (coals), approximately correct	200
Comox coal basin (coals), rough approximation	700
Queen Charlotte's Island, very rough approximation	800
Tertiary lignite-bearing rocks in different parts of British Columbia	
south of the 54th parallel of latitude (very rough approximation)	12,000

The character of the coal is evidenced by the following analysis:—

	Slow Coking.	Fast Coking
		I was coming
Water.	1.47	1.47
YY aloci		1.47
Volatile combustible	28.19	32.69
Fixed carbon	64.05	59.55
Ash,	6.29	6.29

Anthracite in 3-feet and 6-feet seams, comparing favourably with that from Pennsylvania, has been found in Queen Charlotte's Island. Samples analysed give the following results:—

	Sample 1.	Sample 2.
Water	. 1.60	7.89
Volatile combustible	. 5.02	4.77
Fixed carbon	. 83.09	85.76
Ash	. 8.76	6.69
Sulphur	. 1.53	0.89

\* United Kingdom alone. Br. Possessiors with "Other Countries." +In 1901 the United Kingdom produced 245,332,640 tons of 2,000 lbs. India, 7,432,014 tons; the Commonwealth of Australia, 7,712,449 tons; New Zealand, 1,374,955 tons; Natal, 637,504 tons; Cape of Good Hope, 205,810 tons; Canada, 6,227,352 tons. The British Empire contributes about one-third to the whole production of the world.

#### TRON

The iron ores of the Dominion have a wide range, both geographically and geologically. From Vancouver Island in the west to Cape Breton Island in the east they occur at varied intervals. Sir William Fairbairn, in "Iron, its History, Properties, and Processes of Manufacture," says: "In the Mineral and Geological Department of the Exhibition of 1862 were exhibited striking specimens of iron ore from the colonies, among which was the remarkable collection from Canada, consisting of oxide, red hematite and bog ores. The thickness of some of the beds from which the specimens were taken is worthy of notice. In Nova Scotia some of the richest ores yet discovered occur in boundless abundance. The iron manufactured from them is of the very best quality, and is equal to the finest Swedish metal." In the same province the iron ore, the coal and the flux lie in close contiguity to each other, and are within a comparatively short distance from fine ship harbours, making that province one of the best regions in the world for the seat of iron and steel ship-building on a large scale.

Magnetic ores occur abundantly throughout several counties of Ontario. An important deposit in the township of South Crosby has been worked for years. A very fine and valuable ore exists as a large deposit in North Crosby. The contiguous townships of Madoc, Marmora, Belmont and Seymour contain several beds of magnetic iron ore. In the region west of Lake Superior, the province of Ontario has a country rich in iron ore. In the province of Quebec there are large and valuable deposits of magnetic ore. In the county of Beauce a bed of granular iron ore, about two-thirds

magnetic with a vein of 45 feet wide, occurs in serpentine.

Hematite iron ores are found in all parts of Canada. One of the most valuable deposits of Quebec province is near Hull—opposite Ottawa—a specular ore, assaying from 64 to 68 per cent of metallic iron. In New Brunswick large deposits of hematite ore are found near Woodstock. Limonite and bog ores are widely distributed.

Chromic iron.—During the year 1895 large deposits of chromic iron were found in Coleraine, province of Quebec. The ore averaged over 50 per cent of metal, is easily mined, and finds a ready market in the United States.

The Dominion Parliament in 1883, authorized the payment of a bounty of \$1.50 a ton upon all pig-iron manufactured in Canada. This bounty was continued until 1st July, 1899, when the rate was made \$1 a ton. A further change was made on 1st July, 1892, when the rate was increased

to \$2 a ton until 1st July, 1897.

In the session of 1894 an Act was passed providing that the Governor in Council may authorize the payment of a bounty of \$2 per ton on all pigiron made in Canada from Canadian ore, or a bounty of \$2 per ton on all puddled bars made in Canada from Canadian pigiron made from Canadian ore, and a bounty of \$2 per ton on all steel billets manufactured in Canada from Canadian pigiron and such other ingredients as are necessary and usual in the manufacture of steel billets. These bounties were applicable till March 26, 1899, in the case of furnaces in operation on March 27, 1894, and in the case of furnaces commencing operations subsequent to that date, but before March 27, 1899, for five years from the date of commencing.

This Act was repealed by Chap. 6 of the Acts of 1897, which authorized the Governor General to give (1) a bounty of \$3 per ton on steel ingots

manufactured from ingredients of which not less than 50 per cent of their weight consists of pig-iron made in Canada, (2) a bounty of \$3 per ton on puddled iron bars made from Canadian-made pig-iron, (3) a bounty on pig-iron manufactured from ore, of \$3 per ton on the proportion produced from

Canadian ore and \$2 on the proportion produced from foreign ore.

An Act of 1898 provides that the provisions of the Act are to be held to have come into force on April 23, 1897. An Act of 1899 provides that these bounties shall continue to be paid to 30th June, 1907, at a yearly diminishing rate from 1902; 90 per cent of the bounties to be paid in 1902–3; 75 per cent in 1903–4; 55 per cent in 1904–5; 35 per cent in 1905–6, and 20 per cent in 1906–7.

The Legislature of Ontario passed an Act in the session of 1894 appropriating the sum of \$125,000 to be known as the Iron Mining Fund. Out of this fund the treasurer is authorized to pay \$1 per ton of pig-metal product of iron ores raised or mined and smelted in the province of Ontario, the amount so paid not to exceed in any one year, \$25,000. Under this Act the sum of \$84,741 has been earned, to 31st December, 1902.

The annual consumption of iron and steel and their products in Canada

is between 800,000 tons and 820,000 tons.

The active works in Canada in 1902, are (1) The Nova Scotia Steel Company blast furnace at Ferrona, Nova Scotia; (2) The Hamilton Steel and Iron Company, Hamilton; (3) The Canada Iron Furnace Company, Midland; (4) The Dominion Iron and Steel Company furnaces at Sydney; (5) The Canada Iron Furnace Company, Radnor; (6) Deseronto Iron Company, Deseronto; (7) The Drummondville Furnaces; the last three are charcoal furnaces. The annual aggregate capacity of all the completed and unfinished furnaces is nearly 1,100,000 gross tons. The Lake Superior Power Co. are building at Sault Ste. Marie, Ont., a very extensive plant for the manufacture of pig-iron, steel and steel rails, the latter the first established in Canada.

The united investment at Sydney, Hamilton, Deseronto, Midland, New Glasgow, Radnor, Drummondville and Ferrona amounts to \$24,500,000, which will be increased to \$35,000,000, by new plant now building. Within five or six years the total investment will aggregate, approximately, \$50,000,000.

The production of pig-iron in the Dominion of Canada, as ascertained from the manufacturers by circular, amounted in the calendar year 1902 to 326,962 gross tons, as compared with 244,976 tons in 1901; 86,900 tons in 1900; 94,077 tons in 1899 and 68,755 tons in 1898; 53,796 tons in 1897; 60,030 tons in 1896 and 37,829 tons in 1895. Of the production last year 310,118 tons were made with coke and 16,844 tons with charcoal. The production of Bessemer pig iron, included above amounted to 14,753 tons. Neither spiegal nor ferromanganese was made. One Company produced 18,921 net tons of steel ingots by the Open Hearth Process.

On Dec. 31, 1902, the unsold stocks of pig-iron in Canada amounted to 20,328½ gross tons, as compared with 59,472 tons at the close of 1901. Of the unsold iron on hand on December 31, 1902, 19,641 tons were coke pig-iron and 687½ tons were charcoal pig iron. On December 31, 1902 there were 12 completed furnaces in Canada and four furnaces were in course of construction. Of the completed furnaces seven were in blast and five were idle on the date named. During 1902, two furnaces were erected by the

Algoma Steel Company at Sault Ste. Marie, Ontario, and two at New Glasgow, Nova Scotia. Of the 12 completed furnaces, seven were equipped to use coke for fuel, three charcoal, and two charcoal and coke.

The following table gives, 1st, the production in Canada of pig-iron; 2nd the importation of pig-iron, iron kentledge and cast scrap-iron for home consumption—the two columns making up the total consumption; and 3rd, the percentage of home manufactured pig to the total consumption:—

1902	24,072,141	8,901,461	32,973,602	4,773,023				

<sup>\*</sup> Not including the value of imports of ships' boilers, fish-hooks, printing presses, &c., surgical and dental instruments, and tin plates and sheets.

The imports of iron and steel may be divided into:—

1st. Interchangeable mechanism, the manufacture of which requires the highest skill and workmanship. (This class includes sewing machines, firearms, locomotive engines and agricultural implements.)

2nd. Hardware, cutlery and edged tools.

3rd. Machinery.

4th. Castings and forgings.

5th. Rails and railway supplies.

6th. Other forms of iron and steel.

7th. Pig-iron.

Classes 6 and 7 include (1st) pig-iron, the basis of the iron and steel industries, and (2nd) other forms of iron and steel in the making of which skilled labour enters to a limited extent. They constitute the raw material entering into the manufacture of iron and steel articles by Canadian workmen, and are (in addition to pig-iron), bar iron, rolled or hammered, boiler plate, steel bloom ends, rolled iron for horseshoe nails, steel for skates, files or saws, wrought scrap-iron, &c., and parts of articles in other respects manufactured in Canada.

Taking the above division and applying it to our imports from Great Britain and the United States, from which two countries came, in the three

periods under consideration, 98 per cent, 95 per cent and 97 per cent respectively, of the whole import, we obtain the following results:—

				Total for the five year periods.	Y early Average.

Grand total	255,662,153	223,468,200	263,374,700	226,260,700	104,999,100

The total production of gold since the discovery of this continent is estimated by Dr. Soetbeer at \$10,329,705,100. In the 6 years, 1896-1901, the total value of gold produced was \$1,549,880,100, an average of \$258,313,350 a year. In the previous 5 year period, 1891-1895, the total production was \$814,736,000, an annual average of \$162,947,000.

And a second second

A comparison of the mineral production of the British Empire and of the rest of the world in 1900, is given below. It will be seen that the British Empire provides twenty-eight per cent of the first eight articles, forty-eight per cent of the gold and ten per cent of the silver.

	United Kingdom.	British Colonies and Possessions.	United States.	Germany.	Whole World.
Iron       0         Copper       0         Lead       0         Tin       0         Zinc       0         Petroleum       0	*Tons.  252,132,002 5,225,502 856 27,280 4,778 10,152	*Tons.  21,096,474 270,878 44,828 53,389 52,111 4,635 265,961	15,443,951 303,053 270,824 	5,075,261 34,084 133,907 18 168,991 55,513	*Tons.  845,935,096  44,551,261  589,278  868,201  88,869  491,903  20,446,453

<sup>\*</sup> Included in copper, fine.

In 1902 the quantity of copper exported to the United States was 13,812 tons, valued at \$2,649,650. The remainder went to Great Britain.

#### NICKEL.

In 1883 the first discovery of a deposit of nickeliferous pyrrhotite was made while the Canadian Pacific Railway Company was making a cutting through a small hill near Sudbury, in the District of Algoma, Ontario. The ore, which contains on the average about 2·25 per cent of nickel, is roasted and smelted into a copper-nickel matte, the usual composition of which, from average analysis, is about as follows:—Copper, 26.91; nickel, 14·14; iron, 31·335; sulphur, 26·95; and cobalt, ·935. The matte is also said to contain some ounces of platinum to the ton. The amount of fine nickel in the matte produced at the Sudbury mines in 1889–1902 is given below.

ANNUAL PRODUCTION OF NICKEL IN MATTE.

Calendar Year.	Lbs.	Calendar Year.	Lbs.

<sup>\*</sup> Subject to revision.

EXPORTS OF NICKEL ORE, MATTE OR SPEISS, FROM CANADA, DURING THE YEARS ENDED JUNE 30, 1891-1902.

Year.	Lbs.	\$	Year.	Lbs.	\$
1891	5,352,043	240,499	1897.	7,527,422	498,515
1892	15,233,028	617,639	1898.	14,760,996	970,531
1893	8,924,100	427,557	1899.	14,428,063	994,537
1894	8,411,276	808,799	1900.	13,493,239	1,040,498
1895	8,042,586	599,568	1901.	9,537,558	958,365
1896	6,996,540	486,651	1902.	3,883,264	834,513

The United States took all our exports of nickel during the years 1898 to 1901. In 1902 Great Britain took 438,638 pounds, valued at \$89,091, the balance going to United States.

### PETROLEUM.

Petroleum has been found in Quebec, Nova Scotia and New Brunswick, and particularly in the North-west Territories, where it seems certain there is an immense unexplored oil region, but it is in the county of Lambton, Ontario, whence most of the oil has been and is obtained, Oil Springs and Petrolea being the largest oil-producing districts. The oil is obtained at a depth of from 370 to 500 feet.

The following table contains the only trustworthy statistics of Canadian production of oil that are available, and these figures do not give the total production, since the quantity of crude oil, used as such, is not included.

# CANADIAN PETROLEUM AND NAPHTHA INSPECTED, AND CORRESPONDING QUANTITIES OF CRUDE OIL, 1881–1902.

			,,,,,,,		

Of the quantity of dutiable salt imported into Canada in 1902, 6,778 tons came from the United States.

An Act was passed by the Parliament of Canada, in the Session of 1895, providing for a bounty to encourage silver smelting and the smelting of other ores of silver and gold. By that Act the bounty was not to exceed 50 cents a ton, nor to be more than \$150,000 in all. No more than \$30,000 in any one year was to be paid, and if the quantity of ore smelted was greater than would allow of 50 cents per ton, the bounty would be reduced proportionately.

The expenditure under the Act, between the years 1896–1900, was \$150,000, all paid as bounty excepting \$285, expenses of administering the

fund. The particulars are :-

1896	. 33,329 tons	\$ 16.666

#### ASBESTUS.

The following table, made up from returns furnished by the producers, gives the quantity and value of shipments from 1879 to 1887, after which the amount of production is given. It is believed, however, that, in some of the earlier years, the output was sometimes given instead of the quantity shipped, and according to returns of shipments made by the Quebec Central Railway, the aggregate quantity is too high.

SHIPMENT AND PRODUCTION OF ASBESTUS IN CANADA, 1879 TO 1902.

Calendar Year.	Quantity.	Value.	Calendar Year.	Quantity.	Value.
	Tons.	\$	1001	Tons. 9.279	\$ 999,878

Note.—For production of mica see page 448.

Principal countries to which exported, 1902-

Great Britain	180,400
Total	\$242,310

Mica production of the United States in 1901 was as follows:—Sheet mica, 360,060 pounds, valued at \$98,859, and scrap mica, 2,171 tons, valued at \$19,719. The quantity of mica designated as 'unmanufactured' imported during the same year was 1,598,722 pounds, valued at \$299,065; of 'cut or trimmed' mica 78,843 pounds, valued at \$35,989.

A specific duty of 6 cents per pound is imposed on unmanufactured mica and 12 cents per pound on mica cut or trimmed, with an additional 20 per cent ad valorem duty on each.

# AN ACT TO PROVIDE FOR THE PAYMENT OF BOUNTIES ON LEAD REFINED IN CANADA.

In order to encourage the refining of lead in Canada, the Parliament of Canada enacts as follows:-

1. The Governor in Council may authorize the payment of the undermentioned bounties on lead refined in Canada from materials produced in Canadian smelters from Canadian ore:-

(a.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1902, \$5.00.

(b.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1903, \$4.00.

(c.) On every ton of lead so refined during the fiscal year beginning the

1st day of July, 1904, \$3.00.

(d.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1905, \$2.00.

(e.) On every ton of lead so refined during the fiscal year beginning the

1st day of July, 1906, \$1.00.

2. The said bounties shall be payable half-yearly on the first day of

January and the first day of July in each year.

3. The total sum payable for such bounties shall not exceed \$100,000 in any year. If the sum payable at the rate per ton mentioned in section 1 of this Act on lead refined during the half of any fiscal year exceeds \$50,000, then the bounty payable per ton shall be reduced as regards that half year to such a rate per ton as will make the bounties payable in respect of such half year not more than \$50,000.

4. If the sum paid for such bounties in any half-year is less than \$50,000, the unpaid balance (that is to say the difference between the sum so paid and \$50,000) shall be carried to the credit of the bounty fund for the next succeeding half-year and may be paid out in such succeeding half-year in

addition to the \$50,000 herinbefore provided.

5. The Governor in Council may make such rules and regulations, including regulations as to rates and charges for refining, as are deemed expedient in the public interest for carrying out the purposes of this Act, and all payments of bounty shall be subject to the due observance of such rules and regulations.

6. All bounties payable under this Act shall cease and determine on the

13th June, 1907.

7. The expression 'ton' in this Act means 2,000 pounds

Note.—For production of lead in Canada, see page 448.

# BRIEF RESUME OF THE MINING LAWS OF THE DOMINION OF CANADA AND OF THE SEVERAL PROVINCES.

### NOVA SCOTIA.

In Nova Scotia the province reserves all its minerals and ores (excepting limestone, plaster and building material) and leases the land under rent and royalty for revenue purposes. The gold and silver leases are for terms of 40 years. Other minerals are leased for 80 years in four renewable terms

of 20 years each.

The gold and silver areas are 250 by 150 feet, laid off with the shorter side running east and west. Any number of these areas up to 100 in one application can be secured under a license to prospect for 12 months on payment of 50 cents an area. During this period any number of the areas can be taken under lease, or the areas can be directly applied for under lease. The price of an area under lease is \$2, and thereafter an annual rental of 50 cents per area secures it from forfeiture for non-working. If an amount of work equivalent to 40 days per annum per area is performed on the lease, the rental for that year is refunded. A royalty is payable on all gold at the rate of 2 per cent, the gold being valued at \$19 an ounce smelted, and \$18 an ounce unsmelted, and at the rate of 2 per cent on the silver valued at \$1 per ounce.

In the case of the other minerals the payment of \$30 secures a license to search for 18 months over a tract of land 5 square miles in extent, and not

exceeding 2½ miles in length.

All ores and minerals, other than gold or gold and silver, mined are

subject to the following royalties:-

Coal.—10 cents per ton of 2,240 pounds of coal sold or removed from the mine or used in the manufacture of coke—royalty not demanded on coal used by the workmen or in any mining operations in and around the mine.

Copper.—4 cents upon every unit, i.e., upon every one per cent of copper contained in each and every ton of 2,352 pounds of copper ore sold or smelted.

Lead.—2 cents upon every unit.

Iron.—5 cents on every ton of 2,240 pounds of ore sold or smelted.

Tin and precious stones and any other minerals that may be reserved, 5 per cent on their values.

The Governor in Council has power to lower the rates of royalty above stated on iron, copper, lead, tin and precious stones, on being satisfied that the owners of such leased minerals have commenced effective mining operations. The leases of coal mines contain a proviso that royalties on coal may be increased, diminished or otherwise changed by the legislature.

# QUEBEC.

The mining laws of the province of Quebec provide that mining rights are property separate from the soil covering mines and minerals, unless the proprietor of the surface has purchased from the Crown, as a mining concession or otherwise, the underground properties.

Mining concessions are divided into three classes:

1. In unsurveyed territory (a) the first class contains 400 acres, (b) the second, 200 acres, and (c) the third, 100 acres.

2. In surveyed townships the three classes respectively comprise one, two

and four lots.

All lands supposed to contain mines or ores belonging to the Crown may be acquired from the Minister of Lands, Mines and Fisheries (a) as a mining concession by purchase, or (b) be occupied and worked under a mining license.

No sale of mining concessions containing more than 400 acres in superficies can be made by the commissioner to the same person. The Governor in Council may, however, grant a larger extent of territory up to 1,000 acres under special circumstances. When it concerns inferior metals, the extent of mining concessions which may be granted to the same person is determined by the Lieutenant-Governor in Council. 2 Ed. VII., c. 15.

The rates charged and to be paid in full at the time of the purchase are \$5 and \$10 per acre for mining lands containing the superior metals\*; the first-named price being for lands situated more than twelve miles, and the last-named for lands situated less than twelve miles from the railway.

If for the mining of inferior metals, the price shall be fixed by the

Lieutenant Governor in Council. 2 Ed. VII., c. 15.

Unless stipulated to the contrary in the letters patent in concessions for the mining of superior metals, the purchaser has the right to mine for all metals found therein; in concessions for the mining of the inferior metals, those only may be mined for.

Mining lands are sold on the express condition that the purchaser shall commence bona fide to mine within two years from the date of purchase, and shall not spend less than \$500, if mining for the superior metals; and not less than \$200 if for inferior metals. In default, cancellation of sale

of the mining land.

Licenses may be obtained from the commissioner on the following terms: Application for an exploration and prospecting license, if the mine is on private land, \$2 for every 100 acres or fraction of 100; if the mine is on Crown lands (1) in surveyed territory, \$5 for every 100 acres, and (2) in unsurveyed territory, \$5 for each square mile, the license to be valid for three months and renewable. The holder of such license may afterwards purchase the mine, paying the price mentioned.

<sup>\*</sup>The superior metals include the ores of gold, silver, lead, copper, nickel, graphite, asbestus, mica and phosphate of lime. The words 'inferior metals' include all other minerals and ores.

Licenses for mining are of two kinds. Private lands' licenses, where the mining rights belong to the Crown, and public lands' licenses. These licenses are granted on payments of a fee of \$5, and an annual rental of \$1 per acre. Each license is granted for 200 acres or less, but not for more; is valid for one year and is renewable on the same terms as those on which it was originally granted. The Governor in Council may at any time require the payment of the royalty in lieu of fees for a mining license and the annual rental—such royalties, unless otherwise determined by letters patent or other title from the Crown, being fixed at a rate not to exceed three per cent of the value at the mine of the mineral extracted, after deducting the cost of mining it.

According to the law of 1892 the proprietor of a lot for agricultural purposes was entitled to a right of preference to the mines on said lot, but according to amendments made by (1 Ed. VII., c. 13) the first applicant to the mines has the first right on all lands which may have been sold since

1880.

Prior to 1880 the proprietor of a lot is also proprietor of the mines, with the exception of gold and silver mines, which are always reserved in favour of the Crown.

### BRITISH COLUMBIA.

# Free Miners' Certificates.

Any person over the age of 18, and any joint stock company, may obtain

a free miner's certificate on payment of the required fee.

The fee to an individual for a free miner's certificate is \$5 for one year. To a joint stock company having a capital of \$100,000, or less, the fee for a year is \$50; if capitalized beyond this, \$100.

All these certificates expire at midnight on May 31 in each year. Certificates may be obtained for any part of a year, terminating on May 31,

for a proportionately less fee.

The possession of this certificate entitles the holder to enter on all unoccupied lands of the Crown, or on other lands on which the right to so enter

is not reserved, and prospect for minerals, locate claims and mine.

A free miner can only hold, by location, one mineral claim on the same vein or lode, but may acquire others by purchase, In the case of placer claims only one can be held by location on each creek, ravine, or hill, and not more than two in the same locality, only one of which shall be a 'creek claim.

In the event of a free miner allowing his certificate to lapse his mining property (if not Crown-granted) reverts to the Crown, but where other free miners are interested as partners or co-owners the interest of the defaulter becomes vested in the company continuing co-owners or partners, pro rata, according to their interests.

It is not necessary for a shareholder, as such, in an incorporated mining

company, to be the holder of a certificate.

### Mineral Claims.

Mineral claims are located and held under the provisions of the 'Mineral Act.'

A mineral claim is a rectangular piece of ground not exceeding 1,500 feet square. The angles must all be right angles unless the boundaries, or one

of them, are the same as those of a previously surveyed claim.

A mineral claim is located by erecting three legal posts, which are stakes having a height of not less than four feet above ground and squared for four inches at least on each face for not less than a foot from the top. A tree stump so cut and squared also constitutes a legal post.

The 'discovery post' is placed at the point where mineral in place is

discovered.

Nos. 1 and 2 posts are placed as near as possible on the line of the ledge or vein, shown by the discovery post, and mark the boundaries of the claim. Upon each of these three posts must be written the name of the claim, the name of the locator and the date of location. On No. 1 post, in addition, the following must be written: - 'Initial post. Direction of post No. 2 (giving approximate compass bearing); - feet of this claim lie on the right, and — feet on the left of the line from No. 1 to No. 2 posts.'

The location line, between Nos. 1 and 2 posts, must be distinctly marked —in a timbered locality by blazing trees and cutting underbrush, and in bare country by monuments of earth or rock not less than two feet in diameter at the base, and at least two feet high—so that the line can be

distinctly seen.

Mineral claims must be recorded in the Mining Recorder's Office for the mining division in which they are situated within fifteen days from the date of location, one day extra being allowed for each ten miles of distance from the recording office after the first ten miles. If a claim is not recorded in time it is deemed abandoned and open for re-location, but if the original locator wishes to re-locate he can only do so by permission of the Gold Commissioner of the district and upon payment of a fee of \$10.

applies also to a claim abandoned for any reason whatever.

Mineral claims are, until the Crown grant is issued, held practically on a yearly lease, the condition of which is that assessment work be performed on the same during each year to the value of at least \$100, or payment of such sum be made to the Mining Recorder. Such assessments must be recorded before the expiration of the year or the claim is deemed abandoned. If, however, such record is omitted, a free miner may, before the expiration of thirty days thereafter, record such assessment upon payment of a fee of \$10. This, however, will not hold the claim if it has been re-located by another free miner in the meantime. The actual cost of the survey of a mineral claim, to an amount not exceeding \$100, may also be recorded as assessment work. If, during any year, work is done to a greater extent than the required \$100, any further sums of \$100—but not less—may be recorded and counted as further assessments. As soon as assessment work to the extent of \$500 is recorded, the owner of a mineral claim is entitled to a Crown grant on payment of a fee of \$25, and giving the necessary notices required by the Act. Liberal provisions are also made in the Act for obtaining mill sites and other facilities in the way of tunnels and drains for the better working of claims.

# Placer Claims.

Placer mining is governed by the 'Placer Mining Act,' and by the interpretation clause its scope is defined as 'the mining of any natural stratum or bed of earth, gravel or cement mined for gold or other precious minerals or stones.' Placer claims are of four classes, as follows:—

"Creek diggings:" any mine in the bed of any stream or ravine:

"Bar diggings:" any mine between high and low water marks on a river, lake, or other large body of water:

"Dry diggings:" any mine over which water never extends:

"Precious stone diggings:" any deposit of precious stones, whether in veins, beds, or gravel deposits."

The following provisions as to extent of the various classes of claims are

made by the Act:—

'In "creek diggings" a claim shall be 250 feet square: Provided always that the side lines of each claim shall be measured in the general direction of the watercourse or stream:

'In "bar diggings" a claim shall be:-

'(a.) A piece of land not exceeding 250 feet square on any bar which is covered at high water, or

'(b.) A strip of land 250 feet long at high water mark in the width extending from high water mark to extreme low water mark:

'In "dry diggings" a claim shall be 250 feet square.'

Every placer claim shall be as nearly as possible rectangular in form, and marked by four legal posts at the corners thereof, firmly fixed in the ground. On each of such posts shall be written the name of the locator, the number and date of issue of his free miner's certificate, the date of the location and the name given to the claim. In timbered localities all boundary lines of a placer claim shall be blazed so that the posts can be distinctly seen, underbrush cut, and the locator shall also erect legal posts not more than 125 feet apart on all boundary lines. In localities where there is no timber or underbrush monuments of earth or rock, not less than two feet high and two feet in diameter at base, may be erected in lieu of the said last mentioned legal posts, but not in the case of the four legal posts marking the corners of the claim.

A placer claim must be recorded in the office of the Mining Recorder for the Mining Division within which the same is situate, within fifteen days after the location thereof, if located within ten miles of the office of the Mining Recorder by the most direct means of travel. One additional day shall be allowed for every ten miles additional or fraction thereof. The number of days shall be counted inclusive of the day upon which such location was made, but exclusive of the day of application for record. The application for such record shall be under oath and in the form set out in the schedule to this Act. A claim which shall not have been recorded within the prescribed period shall be deemed to have been abandoned.

To hold a placer claim for more than one year it must be re-recorded

before the expiration of the record or re-record.

A placer claim must be worked by the owner or someone on his behalf, continuously, as far as practicable, during working hours. If work is discontinued for a period of 72 hours, except during the close season, lay over, leave of absence, sickness, or for some other reason to the satisfaction of the Gold Commissioner, the claim is deemed abandoned.

Lay-overs are declared by the Gold Commissioner upon proof being given to him that the supply of water is insufficient to work the claim. Under similar circumstances he has also the power to declare a close season, by a notice in writing and published in the Gazette, for all or any claims in his district. Tunnel and drain licenses are also granted by him on the person applying giving security for any damage that may arise. Grants of right of way for the construction of tunnels or drains across other claims are also granted on payment of a fee of \$25, the owner of the claim crossed having the right for tolls, &c., on the tunnel or drain which may be constructed. These tolls, however, are, so far as the amount goes, under the discretion of the Gold Commissioner.

# Placer Discovery Claims.

The following provision is made for new discoveries of placer mining

ground :-

'If any free miner, or party of free miners, discover a new locality for the prosecution of placer mining and such discovery be established to the satisfaction of the Gold Commissioner, placer claims of the following sizes shall be allowed to such discoverers, viz.:—

'To one discoverer, one claim................................ 600 feet in length.

'To a party of two discoverers, two claims, amount-

'And to each member of a party beyond two in number, a claim of the

ordinary size only:

'Provided that where a discovery claim has been established in any locality no further discovery shall be allowed within five miles therefrom, measured along the watercourses. The width of such claims shall be the same as ordinary placer claims of the same class.'

No special privileges are allowed for discovery of new mineral claims.

### CO-OWNERS AND PARTNERSHIPS.

In both the 'Mineral' and 'Placer Mining' Acts provision is made for the formation of mining partnerships, both of a general and limited liability character. These are extensively taken advantage of and have proved very satisfactory in their working. By an amendment to the 'Mineral Act,' passed last session, provision is made for collection of the proportion of assessment that may be due from any co-owner in a mineral claim. It should not be forgotton that if any co-owner permits his free miner's certificate to lapse, the title of his associates is not prejudiced, but his interest reverts to the remaining co-owners, pro rata, according to their former interests.

# HYDRAULIC AND DREDGING LEASES.

Leases of unoccupied Crown lands may be granted by the Lieutenant Governor in Council, upon recommendation of the Gold Commissioner of the district, after location by placing a legal post at each corner of the ground applied for. On the post nearest the placer ground then being worked the locator must post a notice stating the name of the applicant, the location of the ground to be acquired, the quantity of ground and the term for which the lease is to be applied for. Within thirty days application must be made in writing to the Gold Commissioner, in duplicate, with the plan of the ground on the back, and the application must contain the name of each applicant, the number of each applicant's free miner's certifi-

cate, the locality of the ground, the quantity of ground, the term of the lease desired and the rent proposed to be paid. A sum of \$20 must accompany the application, which is returned if the application is not granted. The term of leases must not exceed 20 years. The extent of ground covered by leases are not in excess of the following:—Creek—half a mile; hydraulic diggings—80 acres; for dredging leases—5 miles; precious stone diggings—10 acres. Under Order in Council the minimum rental for a creek lease is \$75 per annum, and for a hydraulic lease, \$50 per annum, with a condition that at least \$1,000 per annum shall be spent in development. For dredging leases the usual rental is \$50 per mile per annum, development work worth \$1,000 per mile per annum must be done, and 50 cents royalty per ounce paid on the gold mined.

### TAXATION OF MINES.

Mineral claims, when Crown-granted, are subject to a yearly tax of 25 cents per acre, but if \$200 is spent in work in a year this tax is not levied. A tax of 2 per cent is levied quarterly on all ores and other mineral substances mined in the province, but where ore-producing mines produce under \$5,000 in a year half the tax is refunded, while placer or dredging mines that do not produce a gross value of \$2,000 in a year are entitled to a refund of the whole tax. These taxes are in substitution for all taxes on the land and for the personal property tax in respect of sums so produced, so long as the land is only used for mining purposes. By the 'Land Act' a royalty of 50 cents per M., board measure, is levied on timber suitable for mining props, a cord of props being considered as 1,000 feet board measure.

### COAL AND PETROLEUM PROSPECTING.

Coal or petroleum prospecting licenses may be procured after a thirty days' notice has been placed on the land and in the Government office of the district, as well as published in the Gazette and in a local paper for the same length of time. Application must be made in writing to the Gold Commissioner, in duplicate, accompanied by plans of the land and a fee of \$50. A license may be issued for not more than 640 acres of land for one year, the said \$50 covering the first year's rental. All lands must be in a square block and run due north, south, east and west. At the expiration of the first year an extension may be granted for a second and third year. Land for which a license has been granted may be leased, upon proof being given of the discovery of coal, for five years at a rental of 10 cents per annum per acre; the lease also contains provision for a royalty of 5 cents per ton of coal and 1 cent per barrel of petroleum. If the lessee is able to prove that he has worked the land continuously, he may, within three months of the expiration of his lease, purchase the land at \$5 per acre.

# MINING RECORDERS IN OUTLYING DISTRICTS.

Where mineral is discovered in a part of the province remote from Mining Recorders' offices, so that the provisions of the Act cannot be justly enforced, the miners themselves may, by a two-thirds vote at a meeting for that purpose, appoint a Mining Recorder from among themselves. Such Recorder can issue free miner's certificates, records of mining property, &c.,

and such entries will be valid notwithstanding any informality. Under the Act such Mining Recorder shall, as soon as possible, forward a list of the free miner's certificates issued by him, and of records made, to the nearest Gold Commissioner, or Mining Recorder, together with the fees required by law therefor.

### TABLE OF FEES.

Individual Free Miner's Certificate	\$ 5	0.0
less)	50	00
Company Free Miner's Certificate (Capital, over \$100,000)	100	00
Recording Mineral or Placer Claim		50
Recording Certificate of Work, Mineral Claim	2	50
Re-record of Placer Claim		50
Recording Lay-over	2	50
Recording Abandonment, Mineral Claim	10	00
Recording Abandonment, Placer Claim	2	50
Recording any Affidavit under three folios	2	50
Per folio over three, in addition		30
Records in 'Record of Conveyances,' same as Affidavits.		
Filing Documents	1	00
For Crown grant under 'Mineral Act'	25	00
For every lease under 'Placer Mining Act'	5	00

Full information, together with Mining Reports and Maps, may be obtained from the Agent-General for British Columbia, Salisbury House, Finsbury Circus, London, E.C., or by addressing the Hon. the Minister of Mines, Victoria, B.C., Canada.

### ONTARIO.

The Mines Act of Ontario provides for the abolition of all royalties imposed upon ores or minerals within the province. Reservations of gold, silver and other mines contained in any patent are made also void, and all such mines in and upon such lands are deemed to have been granted in fee simple and to have passed with the lands, excepting as to lands patented under the Free Grants and Homestead Act, and the Public Lands Act, (since 4th of May, 1891) being lands sold for agricultural purposes only.

Provision is made for requiring nickel mines to be worked under authority of a license and on payment of certain license fees, to be remitted or reduced if the ore is refined in Canada, but this part of the Act has not yet

been brought into operation.

Any person may explore for mines and minerals on any Crown land not staked out or occupied, and not withdrawn from sale by Order in Council as being valuable for pine timber or other reason. Crown lands supposed to contain ores or minerals may be sold as mining lands, called mining locations, or may, when situated within a Mining Division, be staked out and worked as mining claims under miner's license.

Mining locations containing not less than 40 acres, are sold as follows: If in a surveyed township and within six miles of a railway, \$3.50 per acre, if within twelve miles, \$3, if beyond twelve miles, \$2.50; if in unsurveyed territory, \$3, \$2.50 and \$2, according to distance from railway. All these

mining locations revert to the Crown in default of the expenditure in actual mining operations of \$1 per acre during the first two years and of \$1 per acre in each year of the next five years, or of the equivalent in a shorter time.

Instead of granting mining lands in fee simple, the province will lease such lands for a term of ten years, and if at the end of the term all rents have been paid and working conditions performed the lessee will be entitled to a patent. The rental is \$1 per acre for the first year and fifteen cents to thirty cents per acre per annum (according to distance from the nearest railway and situation in townships or unsurveyed lands) for subsequent

years.

Miners' licenses in parts of the province which may be set apart as mining divisions are granted for one year on payment of \$10, renewable at the end of the year on payment of a like fee. The holder of a license may stake out a claim of 15 chains square,  $22\frac{1}{2}$  acres, or 20 chains square, 40 acres, and he can hold it by expending \$150 per annum in actual mining operations thereon, reckoning grown men's labour at \$2 per day. Where the licensee desires to procure a patent or lease of a claim he may do so by completing the working conditions, for a period of four years on a claim of 20 chains square, or for three years on a claim 15 chains square, or the equivalent in a shorter time. But he is required to procure a survey of the land and to pay in the purchase money or first year's rental.

In unsurveyed lands of the Crown outside of mining divisions the holder of a prospector's license (fee \$10) may stake out two claims of 40 acres each and hold them for a period of two years by expending \$3 per acre in the first year and \$7 per acre in the second on development work, when the licensee may proceed in the usual way to acquire the property by survey

and payment of the purchase price or the first year's rent.

The Legislature of Ontario created a Bureau of Mines in 1891. It has issued a series of valuable reports. The present director is Mr. Thos. W. Gibson.

### DOMINION.

### COAL.

The Dominion Government have provided regulations (Order in Council dated May 19, 1902) for the disposal of coal lands the property of the Dominion in Manitoba, the North-west Territories, and within a portion of the province of British Columbia. These regulations provide that locations of an area not exceeding 320 acres may be sold at the rate of \$10 per acre, unless the coal is anthracite, in which case the price is \$20 per acre.

If the surface rights of the land are not the property of the Crown the coal-mining rights thereunder may be reserved for the applicant to prospect thereon, upon payment of a fee of \$10 and upon obtaining permission from

the owner of the surface rights to enter upon the land.

Settlers at a distance from coal mines worked by purchasers, may secure permits authorizing them to mine for domestic purposes, on payment of a royalty of 20 cents for anthracite and 15 cents for bituminous and 10 cents for lignite coal. The regulations provide that the location shall be marked on the ground, that the frontage shall not exceed three chains, and the length ten chains; that the applicant shall within thirty days after mark-

ing his location, file application with the agent, who is to issue a permit at

a rental of \$5 an acre or fraction of an acre per annum.

In the Yukon Territory all applications for coal lands are to be made to the Crown timber and land agent, who is empowered to sell such lands at \$20 an acre, if the coal is anthracite, and \$10 for any other coal.

### GOLD QUARTZ CLAIMS.

Persons of 18 years and over and joint stock companies holding a free

miner's certificate, may obtain entry for a mining location.

A free miner's certificate (non-transferable) is granted for one or more years, not exceeding five, on payment in advance of the prescribed fee. The fee for an individual is \$10, and to a joint stock company \$50 to \$100 ac-

cording to capital.

The holder of a free miner's certificate who has discovered mineral in place, may locate a claim 1,500 feet by 1,500 feet, by marking it with two legal posts, one at each end, on the line of the lode or vein, and marking out the line between. Upon each post shall be marked the name of the claim, the name of the person locating and date, and the number of feet

lying to the right and left of line.

The claim shall be recorded with the Mining Recorder of the district within 15 days, if located within 10 miles of the office; one additional day allowed for every additional 10 miles or fraction. If a claim is situated more than 100 miles from a Recorder's office and situated where other claims are being located, five free miners may appoint a Free Miner's Recorder; but if the latter fails within three months to notify the nearest Government Mining Recorder of his appointment, the claims will not hold good. Fee for recording a claim is \$5.

At least \$100 per year must be expended on the claim, or paid to the Mining Recorder in lieu. When \$500 have been expended or paid, the locator, may upon having a survey made and upon complying with certain

other requirements, purchase the land at \$1 per acre cash.

A location for mining iron and mica not exceeding 160 acres may be granted, but if therein other valuable mineral is discovered the miner's right is limited to the area prescribed for other minerals, the remainder reverting to the Crown. The Minister of the Interior may also grant 160

acres for copper mining in the Yukon Territory.

The patent for a mining location shall reserve to the Crown for ever whatever royalty, not to exceed five per cent, may hereafter be imposed on the sales of the products of all mines therein, and the same royalty shall be collected on the sales which may be made prior to the issue of the patent. The royalty shall be collected in such manner as may be prescribed by the Minister of the Interior.

# PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 250 feet square.

Claims are marked by two legal posts, one at each end bearing notices. Entry must be obtained within ten days if the claim is within ten miles of Mining Recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim, must hold a free miner's certifiate

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee \$15. Royalty at the rate of  $2\frac{1}{2}$  per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller, for the purpose of estimating which, the gold shall be valued at \$15 an ounce.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners, may work their claims in partnership, by filing notice and paying fee of \$2. A claim may be abandoned and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200, or in lieu of work payment may be made to the Mining Recorder each year

for the first three years of \$200 and after that \$400 for each year.

A certificate that work has been done or fee paid must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey

made, and publishing notices in the Yukon Official Gazette.

### HYDRAULIC MINING, YUKON TERRITORY.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining; and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage, and a royalty at the rate of  $2\frac{1}{2}$  per cent on the value of the gold shipped from the Yukon Territory, are charged. Operations must be commenced within one year from the date of lease, and not less than \$5,000 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes.

### DREDGING IN THE YUKON TERRITORY.

Six leases of five miles each may be granted to a free miner for a term

of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low-water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease. The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty, 10 per cent on the output in excess of \$15,000.

PLACER MINING, MANITOBA AND THE NORTH-WEST TERRITORIES, EXCEPTING THE YUKON TERRITORY.

Placer mining claims generally are 100 feet square; entry fee, \$5, renewable yearly. On the North Saskatchewan River claims are either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used claims 200 feet wide may be obtained.

DREDGING IN THE RIVERS OF MANITOBA AND THE NORTH-WEST TERRITORIES, EX-CEPTING THE YUKON TERRITORY.

A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, \$10 per annum for each mile of river leased. Royalty at the rate of two and half per cent, collected on the output after it exceeds \$10,000.

### PETROLEUM.

All unappropriated Dominion lands in Manitoba, the North-west Territories and within the Yukon Territory, shall be open to prospecting for petroleum by any individual or company desiring to do so, and the Minister may reserve for an applicant who has machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities he may acquire 640 acres of available land, including and surrounding his discovery, at the rate of \$1 an acre, subject to royalty at such rate as may be specified by Order in Council.

Manitoba, not included in estimated population until 1871.
British Columbia " 1872.
Prince Edward Island " 1874.
The Territories " 1881.

\*These estimates of population are based upon the percentage of growth shown in each decennial census as compared with its predecessor. The annual growth of Canada's population is worked out by logarithmetical calculations, as is done in all countries where from lack of statistics of births and deaths and movement of population no other way is available. After the results of each census are known the estimates are revised in the light of the knowledge obtained. It is as successful a system as has been devised. For instance, the population of 1900 as estimated by this process was given at about one per cent more than it appeared when the census of 1901 afforded the means of rectifying the estimate.

1886	00 000	202,285	Total	1,659,627	6,324,835

In addition to this fund another, called Superannuation Fund No. 2, was established by statute, 1893. The receipts from Superannuation Fund No. 2 are:

1895	\$ 4,472	1899	\$ 6.125
1896	7,358	1900	11.033
1897	8,411	1901	11,968
1898	10,294	1902	13.070

Pensions, which are of a different nature to superannuation allowances, are also granted in accordance with various Acts of Parliament, to retired judges and to a certain number of persons, or their widows and children, for military services. The total amount paid under this head in 1901 was \$93,551, and in 1902 it was \$83,305.

The amount paid out for pensions in the United States during 1901 was

\$139,323,622, and \$138,488,560 in 1902.

In recent times there have been two or three great fires in Canada, the traces of which are seen in the statistics. In St. John, N.B., in 1877 a fire swept over 200 acres opened up by  $9\frac{1}{2}$  miles of street. Over 1,600 houses were destroyed and 13,000 persons rendered homeless. 615 places of business were burned to the ground.

In Ottawa, April 26, 1900, a fire swept over a large part of Hull, crossed the river and destroyed many houses in the western part of Ottawa. It was estimated that in all 3,000 houses were burned and 15,000 persons made homeless. The insurance paid was in the neighbourhood of four million dollars. The loss of property was estimated at nine millions, and the donations of the people of the British Empire and the United States amounted to about one million dollars.

The receipts from income of Canadian companies in 1897 to 1902 were respectively made up as follows:—

	1897.	1898.	1899.	1900.	1901.	1902.
Premiums and annuity	\$	\$	\$	\$	\$	\$
sales	7,579,816	8,311,661 1,897,459		10,999,604 2,326,363	11,074,492 2,555,359	12,524,146 2,972,318
Sundry	205,192	166,468	119,143	194,260	236,902	310,104
Total	9,572,029	10,375,588	11,478,024	13,520,227	13,866,753	15,806,568

And the expenditure during the same years was :-

	1897.	1898.	1899.	1900.	1901.	1902.
Paid to policy-holders General expenses	\$ 3,641,627 2,119,437	\$ 3,549,764 2,386,712				
Dividends to stock-holders	83,774	87,885	88,510	82,342	128,442	190,263
Total	5,844,838	6,024,361	6,542,756	8,395,066	8,281,654	9,039,471

From the above figures, therefore, it appears that out of every \$100 of income received the companies expended:—

OBJECT OF EXPENDITURE.	1897.	1898.	1899.	1900.	1901.	1902.	
Paid to policy-holders	\$ ets.	\$ cts.	\$ ets.	\$ ets.	\$ ets.	\$ cts.

\* Knots changed into statute miles in totals.

The latest world's statistics show that there were, in 1902, in operation 1,771 cables having an aggregate length of 202,453 nautical miles, 371 of the number belong to private companies and 1,400 are under government administration. The private companies aggregate 202,453 miles and the government cables 30,074 miles. The event of the year 1902, in connection with submarine telegraphy, was the laying of the cable from Vancouver Island, Canada, to Australia and the opening of this the first cable across the Pacific Ocean on October 31, 1902.

### MILITIA.

By the Union Act, 1867, the command in chief of all naval and military forces of and in Canada is vested in the King, and the control of the same is placed in the Parliament of Canada.

At Confederation the Parliament of Canada established a Department of Militia and Defence, the first Minister being Sir George E. Cartier. The first Militia Act was passed in 1868, 31 Vic., Chap. 40, in accordance with the provisions of the fifteenth section of the Union Act, 1867.

The following is a statement of the regimental establishments of the permanent and active militia for the year ended June 30, 1903:—

REGIMENTAL ESTABLISHMENTS OF THE PERMANENT AND ACTIVE MILITIA OF CANADA, 1902-1903.

### EDUCATION.

Under the British North America Act, 1867, the right to legislate on matters respecting education was placed in the hands of the governments of the several provinces, the rights and privileges of denominational and separate schools then existing being especially protected.

### ONTARIO.

Subject to the approval of the Provincial Government, all regulations for the public and high schools are made by the Minister of Education. These schools are under the control of local boards of trustees, elected by the rate-payers, and are allowed to have none but certificated teachers. Education of children between the ages of 7 and 13 is compulsory for not less than 100 days in the year. Some of the noteworthy features in Ontario's System of Education are: uniform course of study for all schools; all public and High Schools in the hands of professionally trained teachers; provincial, instead of local, control of examination of teachers; uniformity of textbooks and common matriculation for admission to all universities and learned professions. These give unity to the system which includes (a) Kindergarten, (b) Public or Separate schools, (c) High Schools or Collegiate Institutes, (d) the University.

The following table gives particulars respecting the public schools of Ontario in the years 1879 and 1901, Roman Catholic separate schools

included.

PUBLIC SCHOOLS, ONTARIO, 1879-1901.

YEAR.	Number of Schools Open.	School Population between 5 and 21 Years of Age.	Total Number of Pupils Registered.	Boys.	Girls.	Average Attend- ance.

1896	21	41	1,349 1,406	317
1897	18	37	1,400	363
1898	18	42 37	1,026	262
1899	16	21	795	165
1900	$\frac{12}{12}$	21 22	800	194

There were four Art schools in operation in 1901, with, as far as can be ascertained, about 513 pupils. In connection with and under the control of the Department of Education were 283 public libraries, with 505,544 books, and about 36,814 members. Their property was valued at \$407,299, with liabilities of \$25,677. Besides these there were 132 free libraries, with upwards of 560,573 volumes and 118,547 readers, with assets amounting to \$673,303 and liabilities \$112,511.

The second Friday in May in each year has been set apart under the name of Arbor Day, for the purpose of planting trees and improving the

school grounds. In 1901, 9,926 trees were planted.

The following table gives the number of teachers receiving superannuation allowances and the amount paid to them during the years 1880-1902:—

SUPERANNUATED TEACHERS, 1880-1902

### QUEBEC.

Educational matters in the province of Quebec are under the control of the Superintendent of Public Instruction, assisted by a council consisting of 35 members, and divided into committees for the management of Roman Catholic and Protestant schools respectively. Compulsory school age is from 5 to 16 years. The schools are maintained partly by local taxation and partly by Government grants and are individually controlled by local boards.

The following table gives the number of educational institutions of all grades in the province:—

### EDUCATIONAL INSTITUTIONS IN QUEBEC, 1901-1902.

Institutions.	Under control of Municipalities.	Independent.	Elementary.	Superior.	Total.
Roman Catholic Schools,					
Elementary Schools. Model Schools Academies Normal Schools Classical Colleges Universities Schools for Deaf Mutes and the Blind Total	4,354 395 47  4,796	45 128 89 4 19 2 3	4,399	523 136 4 19 2 3	4,399 523 136 4 19 2 3 5,086

<sup>\*</sup>Not including independent elementary or superior schools receiving no grant from the government. + Not including agricultural and dairy schools.

### NOVA SCOTIA.

The Council of Public Instruction of Nova Scotia consists of the members of the Executive Council. There is also a Superintendent of Education. The local management of the public schools is in the hands of trustees, chosen by the ratepayers of the section in rural sections and of Boards of School Commissioners in incorporated towns.

The following table of educational statistics explains itself:—

### NOVA SCOTIA EDUCATIONAL STATISTICS, 1879-1902.

1902	1,488	1,869	64,629	54,056	28,306

In 1902 there were 1,127 school-houses in the province, of which 963 were frame, 65 brick, 245 stone and 75 log. The number of trees planted was 5,880

Collegiate Institutes for more advanced education are attached to the public schools at Winnipeg, Portage la Prairie and Brandon, and the total number of pupils enrolled during the year 1902 was 752, 201 and 207 respectively. There is also a Normal School in Winnipeg for the training of teachers.

The following table gives the particulars of Normal Schools in Manitoba, 1884-1902:—

<sup>\*</sup>The decrease is due to a change in regulations, requiring all teachers to take 3rd class training (short session) before taking 2nd or 1st (long session).

### BRITISH COLUMBIA.

The educational system of British Columbia is free, undenominational and supported by the Government, except the schools in the cities of Nanaimo, New Westminster, Vancouver and Victoria. (See foot notes on the following pages.) There is a Superintendent of Education, acting under the Provincial Secretary, and each school is locally controlled by trustees, elected by the ratepayers of each school district. The Lieutenant Governor in Council is empowered to create new school districts as they become necessary, provided that no school district shall contain less than fifteen children of school age, viz., between 5 and 16 years of age.

The following table shows the number of schools, teachers and pupils:—
EDUCATIONAL STATISTICS OF BRITISH COLUMBIA, 1878-1902.

### NORTH-WEST TERRITORIES.

The educational system of the North-west Territories is administered by a Department of Education, which is under the control of one of the members of the Executive Council, who is officially designated as the Commissioner of Education.

The law provides that no school district shall comprise an area of mor than 25 square miles, nor shall it contain less than four resident heads of families, or a smaller school population than 12, *i.e.*, children between the group of 5 and 16

No religious instruction is allowed in any public school before 3.3 o'clock in the afternoon, at which time such instruction as is permitted be the trustees may be given, parents having the privilege of withdrawing the

children at that hour, if desired.

In 1902 there were 474 schools in the province, and 293 male teacher and 295 female teachers.

amount of teachers' salaries. ‡By amendment to School Act in 1891, city districts we required to refund one-half of amount of teachers' salaries, and meet all other expenses connected with their schools. \$By amendment to School Act in 1893, city districts are require to pay all expenses connected with the maintenance of the schools, and are allowed a p capita grant of \$10 on the average actual daily attendance. They are also given the provicual revenue tax. \$\delta\$ Includes expenditure on Normal school of \$5,548 and cost of educatin Deaf and Dumb, \$3,208.

### INSANE.

There are 19 asylums for the insane in Canada, most of which are supported entirely by Government, aided in some cases by municipalities, and the following table gives particulars of the number of patients, &c.:—

### ASYLUMS FOR THE INSANE IN CANADA.

INMATES AND DEATHS.

Provinces.	Number of Asylums.				R TREATE THE YE.	Number of Deaths.	Proportion of Deaths to Total Number of Inmates.

<sup>\*</sup>Including 187 sex not given.

In Ontario, on September 30, 1902, there were 5,371 persons in the provincial asylums, and 25 in the Homewood Retreat, Guelph; 37 insane convicts in Kingston penitentiary, and 65 insane persons in the common jails, making a total of 5,498 persons of unsound mind under public accommodation, while there were 585 applications for admission on hand, making a total of 6,053 persons of unsound mind known to the Provincial Government.

The following table gives such particulars as are available concerning the principal public charitable institutions in Canada:—

The Territories (1900)		*	*	2,142	*	

<sup>\*</sup> Not given. ‡ Of this number 633 were insane, of whom 57 were insane and epileptic. Including 200, sex not given. (a) The Government issues no report of hospitals, orphan's homes, &c. † Including infants born. (b) 1898.

The next table gives the receipts and expenditures of the several institutions, distinguishing between Government aid and other receipts. The funds derived from other sources are generally made up of patients' fees, subscriptions and donations, and, in some cases, municipal aid. The amount derived from patients is, in most cases, very small:—

### LEPERS IN CANADA, 1902.

### TRACADIE LAZARETTO.

Dr. A. C. Smith, the inspector of leprosy and resident physician at the Tracadie Lazaretto, New Brunswick, reports that there are nineteen inmates in the Lazaretto, being one more than the number reported last year. Of the present inmates, twelve are males and seven females, the youngest 11 and the oldest 63 years of age. Of these fifteen are of French, three of Icelandic and one of English origin.

There were no deaths occurred during the past year. One new case was

admitted from an adjoining parish.

It is in force in 27 places. It was submitted to the people four times in Fredericton, N.B., and carried on each occasion. Westmoreland voted on it five times and carried it each time. Charlottetown voted on it six times, carried it three times, rejected it the fourth, adopted it the fifth and rejected it on the sixth occasion. Lambton voted on it four times, carrying it the first time, defeating it the second, carrying it the third and defeating it the fourth. Halton carried it on the first and second voting, but rejected it on the third. Stanstead sandwiched a carry between two rejections, St. John City defeated it on the two occasions it has had the opportunity to vote on the Act.

The Act has been submitted to public opinion in nine cities and 73 counties. It is in force in one city and 26 counties.

The following is a summary:-

### REFERENDUM ACT, 1902.

The Legislature of Manitoba having passed an Act respecting the prohibition of the sale of intoxicating liquors in the province, and the judicial committee of the Privy Council of England having decided that the Act was intra vires of the provincial authority, the Legislature by an Act styled "The Referendum Act, 1902," appointed the 2nd of April, 1902 as the day on which the electors should answer the question: "Are you in favour of bringing the Liquor Act into force on the 1st day of June, 1902."

The Referendum Act provided that the Liquor Act should be brought into force, (1) if 45 per cent. of the total number of persons entitled to vote gave affirmative answers to the question submitted, or (2) if at least 60 per cent. of the persons so entitled, actually voted, and 60 per cent. of these voted "yes," or (3) if  $62\frac{1}{2}$  per cent. of the actual voters answered "yes."

The official returns show the following results of the vote:-

Total affirmative answers to said question	15,607
Total negative answers to said question	22,464

Total number voting		38,071
---------------------	--	--------

Total number of persons entitled to vote...... 74,477

The Liquor Act, 1902 (Ontario), provided in effect for the prohibition of the sale by retail in the province of fermented spirituous and malt liquors. Boarding houses, clubs and societies were inhibited keeping liquors on their premises, and only limited quantities were to be kept by doctors and druggists, and by clergymen for sacramental purposes.

The Act further provided for a referendum to the voters, the question submitted being "shall the Act come into force?" It also provided that the Act should be put into operation if on the voting those in favour had a majority of the ballots cast, the number of ballots to be at least 212,723, figures which represented one half of the total vote in the general elections for the Legislature in 1898.

The voting took place on the 4th of December, 1902, and the result was that the total number of votes polled was 303,297, of which in favour, 199,749; against, 103,548. The votes in favour being 12,974 less than the stipulated number the Act was rejected. The supporters of prohibition had a majority of 96,201.

\* Including convictions in Yukon Territory. † Three Provisional Districts.

The following table shows the Civil Condition of the people of Canada, 1901:—

Conjugal State.	Aggreg.	ATE.	MALE	s.	Females.		
	Number. Per Cent.		Number.	Per Cent.	Number.	Per Cent.	
Single	3,312,593 1,833,043 250,186	61·67 34·14 4·19	1,743,582 928,052 73,837	63·57 33·74 2·69	1,564,011 904,091 151,181	59·72 34·51 5·77	

The corresponding figures and percentages for the Census of 1891 are:

Conjugal State.	Aggreg	ATE,	MALES	S.	FEMALES.		
	Number.	Per Cent.	Number.	Per Cent.	Number.	Per Cent.	
Single	3,053,392 1,588,055 191,792	63·18 32·85 3·97	1,601,541 796,153 62,777	65.09 32.35 2.56	1,451,851 791,902 129,015	61·20 33·37 5·43	

The figures for 1901 indicate that of the whole population of Canada (5,371,315, of whom 2,751,708 are males, and 2,619,607 are females) over 61 in every 100 were single, over 34 in 100 were married and over 4 in a hundred were widowed—the divorced men and women (men 337 and women 324) being together one in every 5,600 of the population. From the Census of 1891 it appears that over 63 in every 100 were single, 33 married, 4 widowed.

This comparison indicates that Canada has a larger proportion of married people now than it had in 1891, and also a larger proportion of widowed, and that adding the single and widowed together the difference is: 1891, 67·15 per cent.; 1901, 65·73, a difference of 1·42 per cent. in favour of 1901.

It will thus appear that the people of Canada are marrying and giving in marriage in larger numbers than they were at the time of the taking of the Census of 1891. At any rate it can fairly be stated that the marriage rate has not decreased.

DIVORCES IN CANADA.

The following are the statistics of divorce as given in the public records:

	Gran	TED BY	PARLIA	MENT.	Granted by Courts.			
Year.	On- tario.	Que- bec.	North- west Terri- tories.	Mani- toba.	Nova Scotia.	New Bruns- wick.	British Col- umbia.	Prince Edward Island.
1868	1	1 3 1 1 4 1 1 1 1 1 1	1 1 1 1	1	3 1 2 2 1 3 4 1 5 1 1 1 3 3 4 4 4 4 1 1 3 3 4 4 3 3 5 5 1 5 6 6 2 2 5 5 1 1 0 9	2 1 2 3 2 2 2 2 1 7 3 3 5 3 1 6 3 1 5 1	1 1 1 3 2 1 1 1 2 2 3 3 *1 2 2 3 3 *1 2 2 3 4 7 7 7 3 6 6 8 7 7 7 8 7 8 7 8 7 8 7 8 7 8 7 8 7	
Total	51	17	3	2	111	74	57	1

<sup>\*</sup>In British ('olumbia, in addition to the divorce, five judical separations have been granted, one in 1892; one in 1893; one in 1899, and two in 1900, besides in the latter year four applications (male) having been granted 'Decree Nisi.'

In Ontario, Quebec, Manitoba and the North-west Territories divorce can only be obtained by legislation—an Act of the Parliament of Canada being necessary. The rules of the Senate touching divorce require the production of such evidence in support of the application for relief as would be deemed sufficient in a court of law; in other respects the matter is dealt with as for an ordinary private Act of Parliament.

The following table gives the applicants for divorces by sexes and by provinces.

Provinces.	Males.	Females.	Total.
Ontario	31	20	51
Quebec	10	7	17
Nova Scotia.	53	58	. 111
New Brunswick	39	35	74
British Columbia	35	22	57
Manitoba	-1	1	2
The Territories	2	1	3
Total	171	144	315

The divorced among our population, according to the census of 1901, numbered 337 men and 324 women. By provinces these are distributed:—

Provinces.	Males.	Females.	Total Number.	Proportion per 100,000 of the Population.
Ontario	109	120	229	10
Quebec	31	27	58	35
Nova Scotia	49	42	91	20
New Brunswick	35	45	80	21
Prince Edward Island	5	9	14	13
Manitoba	18	17	35	14
British Columbia	52	37	89	50
North-west Territories	38	27	65	38
Canada	337	324	661	12

### INDIANS.

According to the Census of 1901 the Indians of the Dominion numbered 93,319, of which 25,593 were in British Columbia, 19,696 in Ontario, 35,758 in Manitoba and the Territories, and 12,272 in the other Provinces. The difference between the Census returns and the Indian Department's Statement is caused probably by the inclusion in the latter of some half breeds, not included in the Census of 1901.

### INDIAN POPULATION BY PROVINCES, 1897-1902.

<sup>\*</sup> Season of 1901.

The quantity of land sold for the benefit of the Indians during the year 1902 was 103,461 acres, which realized \$160,520. The quantity of surrendered lands now held by the Government for sale is about 386,376 acres.

The amount at the credit of the Indian fund, which consists of moneys accrued from annuities, secured to the Indians under treaty, and from sales of land, timber, stones, &c., surrendered by them, was, on June 30, 1902, \$4,045,946, the expenditure from which, charged principally to interest, amounted to \$276,749. The expenditure from parliamentary appropriations was \$1,057,130, making a total of \$1,333,879.

The following is a statement of the expenditure from the parliamentary grant by provinces, fiscal year ended June 30, 1902:—

### EXPENDITURE FROM PARLIAMENTARY GRANT IN 1902.

In addition to the above, the sum of \$4,284 was expended under the head of 'General,' and \$1,264 for destitute Indians in the Yukon district, making the expenditure \$1,057,130.

<sup>†</sup> Including implements and tools.

<sup>#</sup> Includes medical attendance.

INDIANS 639

### CHINESE.

Statement showing the transactions under the Chinese Immigration Acts to June 30, 1902.

The Act went into force as respects arrivals by vessels sailing from ports in North America on August 20, 1885, and as respects arrivals by other

vessels on January 1, 1886, vide 48-49 Victoria, chapter 71.

The Act as it appears in the Revised Statutes, chapter 67 (1886), is slightly changed from the original. There have been since then two amendments thereto, viz., as per 50–51 Victoria, chapter 35 (1887), and 55–56 Victoria, chapter 25 (1892). The general Acts were repealed by the Act 63-64 Victoria, chapter 32, which came into force January 1, 1901, and was modified by chapter 5, Acts of 1902

The administration of the Act was by Order in Council of September 1, 1885, assigned to the Department of Customs and transferred to the Department of Trade and Commerce by Grder in Council of March 13, 1893.

The annual revenue, expenditure, &c., under the Act has been as follows:—

Year ended June 30.	Імміс	RANTS.	Total Collections from	Refunds.	Expenses	Share of Capitation Fee
JUNE 30.	Exempt.	Paying Fees.	all sources.		Collection	paid to Provinces.

During the same period 14,591 have taken out certificates of leave or registered for leave up to June 30, 1902, while a very large number have left the country without so registering, having no intention of returning. According to the Census of 1901 there were 17,299 Chinese in Canada. The Census of 1891 gives the number as 9,129. In British Columbia, according to the recent Census, there were 14,869 as against 8,910 in that

<sup>\*</sup>The Government introduced a bill in the Session of 1903 increasing the tax to \$500 per head. This bill had not been assented to when this page of the Year Book went through the press.

province in 1891. The increase in British Columbia is equal to 67 per cent, while the total increase is equal to 90 per cent showing that the Chinese have spread throughout the country.

The tax imposed on Chinese under the Act of 1900 was \$100 per head.

### PATENT OFFICE.

The following table shows the different transactions of the Patent Office in each year since July 1, 1867:—

<sup>\*</sup> There were no caveats until 1869. 

† For 10 months.

The patentees in 1902 resided in the following countries, viz.: Canada, 654; England, 239; United States, 3,164; France, 45; Germany, 100; other countries, 189.

The Canadian Patentees were distributed among the provinces of the Dominion in 1902 as follows:—

Ontario Quebec Nova Scotia.	148	Manitoba and N.W Territories	40
Prince Edward Island	1		

The limit of duration of a patent was formerly fifteen years, but by the Act 55-56 Vic., chap. 24 (1892), this was extended to eighteen years, which period can be reduced by the applicant to six or twelve years on payment of a proportionate fee.

The following table shows the business of the copyrights and trade marks

branch since Confederation:

According to the Census returns of 1891 for Canada, the birth rate in British Columbia was 23·16 per thousand of the population, and the death rate was 13·94 per thousand. In Manitoba the birth rate was 32·53 per thousand, and the death rate 10·36 per thousand. In New Brunswick the birth rate was 27·70 per thousand, and the death rate 13·36 per thousand. In Nova Scotia the birth rate was 25·41 per thousand, and the death rate 14·57 per thousand. In Ontario the birth rate was 24·50 per thousand, and the death rate was 11·30 per thousand. In Quebec the birth rate was 36·86 per thousand, and the death rate 18·91 per thousand. In Prince Edward Island the birth rate was 24·45 per thousand, and the death rate 12·26 per thousand. In the North-west Territories the birth rate was 24·98 per thousand, and the death rate 7·32.

Manitoba is the banner province, having the second largest birth rate and the second lowest death rate, the result being that the prairie province

has the largest excess of births over deaths.

The following table gives the births, deaths and marriages in each of the respective countries:—

### PENITENTIARIES.

For the punishment of criminals there are five penitentiaries in the Dominion, situated at Kingston, Ontario; St. Vincent de Paul, Montreal, Que.; Dorchester, N.B.; Stony Mountain, Man.; and New Westminster, B.C. The total number of persons confined in these five penitentiaries on June 30, 1902, was 1,214, of whom 1,194, were males and 20 were females.

The following table gives the number of convicts remaining in each of the penitentiaries on June 30 of each year, the number discharged in each

year, and the causes.

The following table shows the number of prisoners in the common jails and prisoners under provincial jurisdiction, at the dates mentioned:—

### PERSONS CONFINED IN PROVINCIAL PRISONS IN CANADA.

Provinces.	Number of Prisons.	Date.	Number (	CONFINED.	Total.
Ontario. Quebec Nova Scotia New Brunswick Manitoba British Columbia Prince Edward Island The Territories (Regina and Prince Albert) Canada	24 ‡54 §32 3 5 †6	Sept. 30, 1902. Dec. 31, 1901. June 30, 1902. " 30, 1902. Dec. 31, 1901. Oct. 31, 1898. June 30, 1902.	840 338 165 53 55 1 1 10 29	245 134 19 15 6 1 1 2	1,085 472 184 68 61 174 0 11 31 2,086

<sup>\*</sup>Including 14 lock-ups, Central Prison and Mercer Reformatory, Toronto, and Ontario Reformatory, Penetanguishene.

†Includes 3 lock-ups.

The provincial governments of Nova Scotia and New Brunswick do not publish any returns of persons in their prisons, consequently application was made to the sheriffs of the several counties, all of whom responded, and thanks are due to them for their attention.

### CRIMINAL STATISTICS.

The judicial system of Canada has been described on pages 31 and 32.

The Act authorizing the collection and compilation of Criminal Statistics came into operation in 1876. The returns are yearly becoming more valuable, greater care being exercised in the collection. The whole system has been reviewed since the year 1893, with the result of adding to the returns the criminals dealt with by the North-west Mounted Police.

The returns are compiled under two headings: 'Indictable Offences' and 'Summary Convictions.' The first includes all felonies and misdemeanours tried by the competent courts and juries, whether following the general procedure in accordance with Chap. 174, R.S.C., or the summary procedure applicable to certain cases as provided by the Acts relating to 'Speedy Trials,' Summary Trials by Consent' and 'Juvenile Offenders,' Chaps. 175, 176 and 177, R.S.C. The second includes all minor offences tried by justices of the peace, police magistrates or stipendiary magistrates under Chap. 178, R.S.C.

<sup>#</sup>Includes 33 lock-ups. § Includes 17 lock-ups. || Not given.

The various indictable offences which comprise the more serious crimes, are divided into six classes, as follow:—

Class I.—Offences against the person.

II.—Offences against property, with violence. III.—Offences against property, without violence.

IV.—Malicious offences against property.
V.—Forgery and offences against the currency.

VI.—Other offences not included in the foregoing classes.

And the following list gives the principal crimes and offences that are included in each class :-

### Class L.—Offences against the Person.

Murder and attempt to murder.

Manslaughter.

Shooting, stabbing, wounding, &c.
Rape and other offences against females.

Unnatural offences.

Bigamy.

Abduction.

Assault, aggravated and common.

Other offences against the person.

### CLASS II.—OFFENCES AGAINST PROPERTY, WITH VIOLENCE.

Robbery, with violence.

Burglary, house and shop-breaking.

Other offences against property, with violence.

### CLASS III.—OFFENCES AGAINST PROPERTY, WITHOUT VIOLENCE.

Horse, cattle and sheep-stealing.

Larceny.

Embezzlement.

Felonious receiving.

### CLASS IV.—MALICIOUS OFFENCES AGAINST PROPERTY.

Malicious injury to horses, cattle and other property.

Arson, burning, &c.

### CLASS V.—FORGERY AND OFFENCES AGAINST THE CURRENCY.

Forgery.

Offences against the currency.

### CLASS VI.—OTHER OFFENCES NOT INCLUDED IN THE FOREGOING CLASSES.

Carrying unlawful weapons.

Offences against gambling, municipal, liquor and other Acts.

Keeping disorderly houses and houses of ill-fame.

Perjury.

Smuggling and offences against the revenue.

Other offences not included in the above classes.

The following table gives the number of convictions of all kinds in Canada, according to the above returns, during the years ended September 30, 1895 to 1902:—

Offences,	Co	NVICTIO	NS FOR	тне Уе	ARS ENI	DED SEPT	TEMBER 3	30.

# CASES TRIED BY STIPENDIARY MAGISTRATES AND INSPECTORS NORTH WEST MOUNTED POLICE.

Years.	Indi	CTABLE OFFE	NCES.	mary Convictions.	Convictions.
	Number of Charges.	Acquittals.	Convictions.	Summary	Total
1883 1884 1885 1886 1887 1888 1889 1890 1891	29 58 92 56 45 29 32 47 42 77	10 36 75 39 28 25 27 36 32 67	19 22 17 17 17 17 17 4 5 11 10	165 235 156 314 173 139 172 154 192 286	184 257 173 331 190 143 177 165 202 296

The number of cases tried by Stipendiary Magistrates and Inspectors of the North-west Mounted Police since 1892 is not given separately, but is included in the total returns of the Territories.

It must be borne in mind that the number of convictions does not represent a like number of individual criminals, because any person convicted more than once during the year, whether for the same or a different offence, is counted as a separate person for each conviction; as it is well known, the same persons are convicted several times a year for such offences as drunkenness, vagrancy and similar offences.

By provinces the totals given above, not including the North-west Mounted Police returns, excepting for 1893 to 1902, are distributed as under for the period of 1891–1902:—

TOTAL NUMBER OF CONVICTIONS OF ALL KINDS IN THE SEVERAL PROVINCES IN THE YEARS 1891 TO 1902, TOGETHER WITH THE KIND OF SENTENCES.

Total		203	127	76 commuted.

During the period 1880–1902 (23 years) there have been 203 death sentences all for murder excepting one which was for high treason. 127 of the persons upon whom the sentence of death was pronounced were

executed. 76 of the death sentences were changed to imprisonment for life. In addition, for other crimes there have been 67 life sentences. There were 49 persons upon whom the courts pronounced sentences of death, whose original sentence was commuted to imprisonment for life, and who after serving varying periods were pardoned. Of the 67 whose original sentence was imprisonment for life, 47 were pardoned. Of the 67 sentenced for life, 21 were for manslaughter, 15 for rape, 7 for shooting with intent to kill, 7 for attempting murder, 3 for arson, 3 for damages to property by the use of explosives, and 11 for various offences.

### IMMIGRATION.

- Total	31,900	44,543	23,895	49,149	67,379

Note.—For expenditure on immigration see page 518.

<sup>\*</sup> A few Doukhobor arrivals are included in other nationalities.

### BEET SUGAR IN CANADA.

Many years ago a quantity of sugar beet seed was procured by the the Department of Agriculture of Canada for distribution among the farmers, but only a small portion was taken.

In 1867 Mr. Cuisset of Quebec wrote a treatise on beet root cultivation of sugar fabrication. In 1872 the Department sent Mr. Edward Barnard to Europe to prosecute inquiries about sugar beets and beet sugar.

Mr. Wm. Skaiffe, Mr. Robert Lauder, the Count des Etang, Dr. Wm. Saunders, C. C. James and others have written on the subject in connection with efforts to develop the industry in Canada.

The Legislature of the province of Quebec passed an Act in 1875 authorizing the Lieut. Governor-in-Council to grant annually the sum of \$5,000 for five years for the purpose of securing the establishment of a beet sugar factory.

In 1876 the Quebec Legislature passed an Act increasing the offer to \$7,000 a year for 10 years.

In 1878 a company named La Compagnie de Sucre de Betterave de la province de Quebec obtained an Act of Incorporation with a subscribed capital of \$500,000. Nothing more was done and in 1880 a new Act was passed incorporating a company and making Farnham the head-quarters. This company bound itself to manufacture 100 tons of beets a day provided the Government of the Province would assign to it the subsidy provided by the Act of 1876.

In 1881 another company was incorporated under the name of L'union Franco-Canadienné with a capital of ten million francs; general office in Paris and local office in Montreal with factory in county of Berthier.

By an Act of 1882 (45 Victoria, Chap. 23) the Legislature of Quebec agreed to grant to the Farnham Company \$7,000 a year for 10 years, and to the farmers a sum of \$2,000 to be distributed at the rate of 75 cents per ton of beets delivered at the factory.

A third company 'La Compagnie de Sucre de Betterave Pionier' was subsequently incorporated with its centre of operations in Coaticook. This company obtained a subvention of \$3,500 in 1882, but does not appear to have done anything practical.

The subsidy of \$70,000 granted to the Farnham factory was paid by annual sums of \$7,000. The Government also paid \$860 for insurance premiums of the Farnham factory.

The Federal Government came to the assistance of the beet sugar industry and by chap. 31 Acts of 1891 the Parliament of Canada offered a bonus of \$1.00 per hundred pounds and in addition thereto  $3\frac{1}{2}$  cents per 100 lbs. for each degree or fraction over 70 degrees shown by the polariscope, to producers in Canada of raw beet sugar, for a term of years ending on June 30, 1893. By a subsequent Act the time was extended to June 30,

1895, and in the session of 1895 the bounty was fixed at 75 cents per 100 lbs. and an additional one cent per 100 lbs. for each degree over 70 degrees polariscope test, the bounty, however, never to exceed \$1.00 per 100 lbs. the time was extended to June 30, 1897.

In all, the province of Quebec paid out \$122,419 and the Dominion \$93,283 making a total of \$215,702.

The enterprises, however, failed of success.

The Farnham Company closed in 1893 and the Berthier Company after passing through different hands was closed in 1896 and was in 1897 turned into a gin distillery.

No further assistance was given by either the Dominion or the Provincial Governments till the Legislature of Ontario during the session of 1901 passed an Act for the purpose of encouraging the growth of sugar beets and the establishment of factories within the province for the manufacture of refined sugar from beets.

The sum appropriated for the purpose was \$225,000 payable to the extent of \$75,000 a year at the rate of one-half cent per pound for the product of first and second years operations and  $\frac{1}{4}$  of a cent per pound for the third year.

The result of this governmental stimulation was the formation of several companies. These began operation in 1902. The results of the first year's efforts, with other data follow:—

	Ontario Sugar Co.	Wallaceburg Sugar Co.	g Dresden Sugar Co.	
Capacity, tons per day	600	600	600	350
Cost		575,000	525,000	400,000
Days worked	90	45	60	_
Beets sliced, tons	32,000	18,000	20,000	12,000
Sugar produced, lbs	6,500,000	3,500,000	4,000,000	1,500,000

making in all 15,500,000 pounds produced.

About 160 farmers provided the beets required for these companies. The average sugar content for the total quantity of beets supplied was 15.06 per cent and the average receipts per acre amounted to \$51.36.

The Federal Parliament under chap. 22 Acts of 1901 assisted the industry by admitting free of customs duty, structural iron and machinery used in the manufacture of sugar from beet root. Under this Act, during the year it was inforce, the value of the machinery imported was \$655,781. The government proposed in the session of 1903 to admit such machinery free of duty for a year.

# MEMBERS OF THE PRIVY COUNCIL, NOT NOW MEMBERS OF THE CABINET.\*

On page 38 is a list of the members of the Privy Council, not now members of the Cabinet, as that list stood at the time of the death of Queen Victoria. As Privy Councillors have to take the oath of allegiance to the new sovereign and as some have not done so the official list is given here.

William McDougall, C.B.

Sir Hector L. Langevin, K.C.M.G., C.B.

J. C. Aikins.

Sir Charles Tupper, Bart., G.C.M.G., C.B.

Edward Blake.

William Ross.

Sir Charles A. P. Pelletier, K.C.M.G.

Alfred G. Jones.

James McDonald, Chief Justice, Nova Scotia.

Louis F. G. Baby.

Charles C. Colby.

William Miller.

Sir Alexander Lacoste, Kt., (Chief Justice, Quebec.)

A. R. Angers.

Sir Charles Hibbert Tupper, K.C.M.G.

Sir Mackenzie Bowell, K.C.M.G.

Sir Adolphe Caron, K.C.M.G.

John Costigan.

George E. Foster.

John Haggart.

J. A. Ouimet.
J. C. Patterson.

W. H. Montague.

A. Desjardins.

D. Ferguson.

E. G. Prior.

Sir Donald Smith, †G.C.M.G.

Peter White.
